Part 5

WRITTEN QUESTIONS

Questions already placed on the Order Paper
are published each Wednesday

- (97) Mr. Lisée (Rosemont) – **20 October 2015**
To the Minister for Rehabilitation, Youth Protection and Public Health

On 16 September 2014, we questioned the Minister about the Public Protector's report on the financial contribution toward placement (published in 2013). More particularly, we asked her to give us the deadline she had set to implement all of these recommendations. In reply to our questions on the progress of work, on 6 October 2014, the Minister recognized that the current regulatory provisions were inequitable with regard to financial contribution toward placement of minor children. She said she intended to review the *Regulation respecting the application of the Act respecting health services and social services* (chapter S-5, r.1), as well as establish a working group to prepare an action plan to follow up on the Public Protector's report.

Does the Minister still intend to review this regulation?

If so, what is the deadline?

When will the new regulation be in force?

How many meetings were held by the working group established by the Minister?

We would like a copy of the working group's action plan.

When we again questioned the Minister on 26 February 2015 regarding the state of progress of this work, the Minister indicated on the following 2 April, that:

The implementation of the Public Protector's recommendations might also require amendments to certain laws, particularly to allow access to tax information of parents whose contribution is required. As this is a law that is outside the purview of the MSSS, consultations with other departments may be necessary.

The Public Protector wants to again be informed of the progress of work on 16 October 2015. The MSSS will therefore make certain to forward an updated table of the follow-up work and to schedule another meeting.

Did consultations with other departments actually take place?

If so, with which departments?

What emerged from these consultations?

What is the Government's deadline as regards amendments to other laws?

We would like a copy of the follow-up table prepared at the request of the Public Protector and updated.

The Minister also indicated that:

All of the work defining the policy directions and enabling the follow-up to the Public Protector's recommendations will be completed during the summer of 2015. The Government will subsequently propose the necessary legislative and regulatory amendments.

Has this work been completed as scheduled?

When will the necessary legislative and regulatory amendments be introduced to the Members of the National Assembly?

The Regulation is 30 years old. When will the parents concerned finally see the new regulation?

(98) Mr. Lisée (Rosemont) – **20 October 2015**
To the Minister for Rehabilitation, Youth Protection and Public Health

In December 2014, the Minister released a report entitled "Les activités socioprofessionnelles et communautaires : État de la situation et actions convenues pour l'amélioration des services." This report painted a picture of the various services provided to persons with intellectual disabilities, autism spectrum disorders (ASD) or physical disabilities at the end of their schooling, and raised issues of concern as regards their social and professional integration. The report presented the following 14 actions to improve the situation of these young people aged 21 years and over:

1. Establish an interdepartmental committee. This committee is composed of the MSSS, the MELS and the MESS, who will be joined, if necessary, by the MTQ and the MF. It will be coordinated by the MSSS. Its mandate is to support the development and consolidation of a common vision shared by the departments, to ensure the follow-up of work, to agree on how to address the other concerns raised, to discuss problems that could arise within the work context and to see to the evaluation of interventions with a view to developing expertise and adjusting practices if need be.

2. Support the development of a common vision by drafting a document that describes and explains the possible trajectories in accordance with people's life plans to introduce this understanding to the various networks.

3. Disseminate the document on the trajectories in each of the networks.

4. Create a support guide for all network stakeholders to promote a transitional approach from school to active life by adopting a common vision, by relying on leading principles fostering quality transitions, by ensuring the commitment of all stakeholders, by establishing the roles and responsibilities of each person and by supporting the development, as the case may be, of a common tool.

- 4.1 Disseminate the guide within the various networks.

- 4.2 Determine the conditions of the follow-up given to the implementation of the transitional approach from school to active life.

5. Take measures to ensure that young people with disabilities whose schooling ends in June 2015 do not end up without a support network, particularly those requiring daily supervision.

5.1 Agree to the information transmission conditions and communicate them to the education networks and to the health and social services network.

5.2 Regionally or locally refer students requiring daily supervision.

6. Specify the policy directions and clarify the roles and responsibilities as regards daytime activities.

6.1 Establish guidelines that will govern service offers concerning daytime activities within the health and social services network.

6.2 Develop a regional framework for the organization of daytime activity services.

6.3 Establish a plan to implement the new organization of services, while avoiding service breakdowns.

6.4 Establish follow-up and accountability mechanisms for the various management levels.

7. Examine the work-family balance needs of families who must deal with the presence of a disabled adult who does not have the necessary autonomy to stay home alone.

8. Within the context of the Intégration sociale à la formation générale des adultes study programme renewal, test and document a partnership commitment approach among the MELS, MESS and MSSS network organizations, to support the achievement of the adult's life plan and social participation.

9. Promote the public education services included in the adult educational services plan among the partner departments.

10. Within the framework of the new Politique nationale du sport, du loisir et de l'activité physique, improve support to organizations providing adapted services to disabled persons and support concerted actions that encourage these persons to adopt and maintain a physically active lifestyle.

11. Develop and implement an MESS-MSSS national reference framework guiding the achievement of local and regional services agreements between both networks' establishments and organizations. This framework will clarify the MESS and the MSSS service offer, specify the roles and responsibilities of the establishments and organizations involved in both networks as regards reception, evaluation, references from one network to another, follow-up, assistance and joint interventions for disabled persons.

12. Support the improvement of transport services, particularly in rural areas, by better coordination of services throughout the region and the establishment of interconnections between adjoining services.

13. Improve access to daytime activities within the health and social services network and ensure follow-up thereof.

14. Continue to improve the connection between the MSSS and MESS services and measures within the framework and following the work that will be carried out.

How advanced is the implementation of each of these recommendations?

What is the Minister's deadline to complete the application of each of them?

How many meetings of the interdepartmental committee have been held since its establishment?

What amounts were granted in order to implement these recommendations?

(99) Mr. Lisée (Rosemont) – **20 October 2015**

To the Minister for Rehabilitation, Youth Protection and Public Health

We recently questioned the Government about students with special needs who are left without any services at school. A complementary services agreement exists between the Ministère de l'Éducation and the Ministère de la Santé but, in actual fact, it has hardly been applied owing to a lack of resources and because several stakeholders are unaware of its existence.

It is nonetheless necessary and urgent that we truly apply the complementary services agreement between both departments so as to adequately support our children with difficulties, so that they may receive, in a timely manner, the services that their situation requires.

For each of the regions, in how many cases was the MELS-MSSS agreement applied during the past five years?

How many intervention plans and personalized and cross-sectoral services plans were developed during the past year? During the past five years?

What is the rate of compliance and application with regard to these plans?

How many meetings were held for each of the MELS-MSSS regional tables, whose mandate is to coordinate each one's roles and responsibilities, during the past year?

(106) Mr. Bonnardel (Granby) – **29 October 2015**

To the Minister of Finance

Last 21 October, the Ministère des Finances replied to a request for information submitted by the Second Opposition Group concerning tax holidays for large investment projects (C2i).

More specifically, information was requested in relation to the number of projects and the value of the investment they represent, as well as the value of the tax holiday for each project, broken down by year and by sector. Furthermore, we requested information concerning the reasons for refusals with regard to projects that did not qualify.

The Ministère des Finances replied that the number of requests or C2i attestations obtained could neither be disclosed per year, nor per sector and region, on the pretext that because of the small number of projects involved, this would reveal project identity and disclose what it considers to be "tax secrecy associated with promoters".

Concerning unqualified projects, the Ministère assures us that the reason for refusal stems from the investment project's failure to meet one of the eligibility criteria, but it refuses to send us this information, on the pretext that it is "confidential since it is associated with financial and tax information belonging to project promoters."

The Ministère also refuses to tell us the value of the projects that were retained, because it believes this financial and tax information would be used to estimate the value of the tax holiday.

Does the Minister of Finance agree with his department's very restrictive application of the provisions of the *Act respecting Access to documents held by public bodies* and with this refusal to provide us with access to the information requested?

Does he think this way of doing things is in the public's best interest and does he find it normal that the public can't even obtain the list of projects having benefitted from the C2i tax holiday, their value and their distribution per year, per sector and per region, when a large amount of public funds is involved?

Lastly, can he acknowledge the legitimacy and relevance of our request and give us access to the requested information, as from 2012, per sector and per year:

- The number and value of projects having requested a tax holiday;
- The number and value of projects having obtained a tax holiday;
- The reasons for refusal of projects that did not qualify;
- The value of the tax holidays granted, per project and in total.

(107) Mrs. Lamarre (Taillon) – **5 November 2015**
To the Minister of Health and Social Services

New metal-on-metal hip replacements were approved by Health Canada in the early 2000s. Several hundreds, even thousands of people in Québec received this type of prosthesis. However, since then, several of these prosthetic replacements have been withdrawn from the market by their manufacturer. In 2012, Health Canada issued a warning regarding all metal-on-metal prosthetic replacements.

- What exchanges did the MSSS have with Health Canada regarding the recall of this type of prosthesis?
- How many Québec patients received a DePuy brand prosthesis?
- How many Québec patients received a Biomet brand prosthesis?
- How many Québec patients received a Zimmer Durom Cup brand prosthesis?

- Did the MSSS identify the Québec patients concerned?
- Did the MSSS notify the Québec patients concerned regarding these recalls?
- What actions did the MSSS take to ensure that the Québec patients concerned by these recalls received all of the necessary information regarding this matter?
- How many Québec patients were obliged to have their metal-on-metal prosthesis removed?

(108) Mr. Lemay (Masson) – **5 November 2015**
To the Minister of Forests, Wildlife and Parks

Bill 54, An Act to improve the legal situation of animals, introduced by the Minister of Agriculture, Fisheries and Food, lays down several new regulations and measures to protect domestic animals under the sole responsibility of the MAPAQ.

Consequently, all animals living with humans but that are under the protection of the Act respecting the conservation and development of wildlife and its regulations are not protected to the same extent as domestic animals.

This means that certain pets such as parrots, lizards, snakes, hamsters, guinea pigs, mice and several other so-called wild animals yet that live in captivity with humans will not be protected as, for example, dogs, cats and horses will be.

During the clause-by-clause consideration of Bill 54, the Minister of Agriculture, Fisheries and Food refused to extend the definition of domestic animals to include pets that are currently considered as wild animals.

Does the Minister of Wildlife find it normal that these pets, which for the most part do not even go outside of the house, are still considered as being wild animals? Does he find it acceptable that they are still subject to the Act respecting the conservation and development of wildlife and its regulations and that they are therefore not protected to the same extent as domestic animals? Has he made representations to his Agriculture colleague to correct this aberration?

If not, what concrete measures does he intend to take to ensure the welfare of these animals? Does he believe it should be wildlife officers who ensure the welfare of these animals and who receive and handle complaints?

(109) Mr. Martel (Nicolet-Bécancour) – **11 November 2015**

To the Minister for Transport and the Implementation of the Maritime Strategy

Last May, I asked the Minister for Transport and the Implementation of the Maritime Strategy for data concerning passenger and vehicle traffic regarding the Québec-Lévis ferry for the periods from 15 March to 15 April and from 15 April to 15 May 2015. The Minister showed transparency by providing the requested information.

To ensure a follow-up to this request, can the Minister show the same transparency and provide an overview of this ferry's traffic for each of the months of May to November 2015?

Can the Minister clearly indicate, for this ferry:

- How many cars were transported between 1 May and 1 June 2015, between 1 June and 1 July 2015, between 1 July and 1 August 2015, between 1 August and 1 September 2015, between 1 September and 1 October 2015 and between 1 October and 1 November 2015 in comparison with each of the same periods of the previous year?
- How many passengers were transported between 1 May and 1 June 2015, between 1 June and 1 July 2015, between 1 July and 1 August 2015, between 1 August and 1 September 2015, between 1 September and 1 October 2015 and between 1 October and 1 November 2015 in comparison with each of the same periods of the previous year?

(113) Mrs. Lavallée (Repentigny) – **11 November 2015**

To the Minister of Families

In 2011, the Auditor General tabled a disturbing report about the management of child care facilities. During the consideration of the 2015-2016 estimates of expenditure, the Minister mentioned that the Auditor General had followed up on this report. Thanks to a request for access to information, the Second Opposition Group was able to obtain a heavily redacted and incomplete document of this follow-up report from the Ministère de la Famille.

Why does the Ministère de la Famille refuse to give us access to the complete version of this follow-up report? Does the Minister of Families consider her department's refusal to release such a report to be acceptable and transparent?

I now repeat my request to the Minister of Families: Can she release the Auditor General's complete follow-up report?
