EXPLANATORY NOTES

This bill amends the Act respecting prescription drug insurance to allow the Minister of Health and Social Services to issue a call for tenders to enter into a contract with an accredited drug manufacturer for the purpose of establishing the price of a medication or supply and the conditions for its entry on the list of medications.

The bill also allows the Minister to issue a call for tenders to enter with an accredited wholesaler into a contract establishing the conditions for the supply of the medication or supply to owner pharmacists and the wholesaler's profit margin.

Such contracts will grant the selected manufacturer and the selected wholesaler exclusivity as regards the medication or supply.

Under the bill, calls for tender must be issued in accordance with the conditions and mechanics determined by ministerial regulation.
