Introduction

Introduced by
Mr. Carlos J. Leitão
Minister responsible for Government Administration and Ongoing Program Review and Chair of the Conseil du trésor

Québec Official Publisher
2016
EXPLANATORY NOTES

This bill establishes the Autorité des marchés publics (the Authority) to oversee all public procurement for public bodies and apply the Act respecting contracting by public bodies as regards ineligibility for public contracts, prior authorization to obtain public contracts or subcontracts and contractor performance evaluations in relation to the performance of contracts.

In particular, the Authority may examine the compliance of a tendering or awarding process for a public contract of a public body on the Authority’s own initiative, after a complaint is filed by an interested person or on the request of the Chair of the Conseil du trésor or a bidder.

The Authority must also ensure that the contract management of the Ministère des Transports and any other public body the Government designates is carried out in accordance with the normative framework.

Various powers are conferred on the Authority, including the powers to audit and investigate and, following an audit or investigation, to make orders or recommendations or suspend or cancel a contract.

The bill determines the Authority’s organizational and operational rules, in particular with respect to its administrative structure. It specifies that the Authority is to be composed of a president and chief executive officer and vice-presidents appointed by the Government. It also specifies certain governance measures to be applied by the Authority, such as establishing a strategic plan approved by the Government and rules of ethics.

Moreover, the Act respecting contracting by public bodies is amended in order to require bodies to publish a notice of intention before entering into certain contracts by mutual agreement and establish a procedure for receiving and examining the complaints filed with them about the tendering or awarding process for a public contract.

The Act respecting contracting by public bodies is also amended

(1) to ensure the permanent nature of the system of ineligibility for public contracts and harmonize it with the system of authorizations to contract;
(2) to allow the Government to require an enterprise to obtain an authorization to contract while it is in the process of performing a public contract or in order to enter into a public contract or subcontract involving an expenditure below the applicable authorization threshold;

(3) to allow the Authority to cancel an application for authorization to contract or suspend such an authorization if the enterprise concerned fails to communicate information;

(4) to prevent an enterprise that has withdrawn its application for authorization to contract or that has had its application cancelled from filing a new application within the year after the withdrawal or cancellation;

(5) to confer on the Conseil du trésor the power to give permission, in exceptional circumstances, to continue a contracting process despite a decision of the Authority;

(6) to introduce a penal offence for anyone who communicates or attempts to communicate with a member of a selection committee for the purpose of influencing the member and provide for a three-year prescriptive period for penal proceedings that begins to run from the time the prosecutor becomes aware of the commission of the offence without exceeding seven years since the offence was committed; and

(7) to limit the disclosure of information that allows the number of enterprises that asked for a copy of the tender documents or that tendered a bid to be known or that allows those enterprises to be identified.

Lastly, the bill amends the Tax Administration Act to allow the Agence du revenu du Québec to communicate to the Authority information obtained under fiscal laws that the Authority needs in order to apply the provisions concerning the system of authorizations to contract.

Bill 108

AN ACT TO FACILITATE OVERSIGHT OF PUBLIC BODIES’ CONTRACTS AND TO ESTABLISH THE AUTORITÉ DES MARCHÉS PUBLICS

THE PARLIAMENT OF QUÉBEC ENACTS AS FOLLOWS:

CHAPTER I
ESTABLISHMENT AND ORGANIZATION

1. A public procurement authority is established under the name “Autorité des marchés publics” (the Authority).

   The Authority is a legal person and a mandatary of the State.

2. The property of the Authority forms part of the domain of the State, but the execution of the obligations of the Authority may be levied against its property.

   The Authority binds none but itself when it acts in its own name.

3. The Authority has its head office in the national capital at the location it determines. A notice of the location of the head office, and of any change in its location, must be published in the Gazette officielle du Québec.

4. The president and chief executive officer is appointed by the Government and assisted by one or more vice-presidents, also appointed by the Government.

   The president and chief executive officer and the vice-presidents are chosen by a selection committee formed for that purpose from a list of persons declared qualified to hold those offices.

5. The minimum requirements to be appointed as president and chief executive officer or vice-president and to remain in that office are

   (1) to be of good moral character; and

   (2) not to have been found guilty anywhere of an offence for an act or omission that is either an offence under the Criminal Code (Revised Statutes of Canada, 1985, chapter C-46) or an offence, referred to in section 183 of that Code, under any of the Acts listed in that section and that is related to the employment.
6. The president and chief executive officer’s term is of a fixed duration of five years and may not be renewed. A vice-president’s term is of a fixed duration of not more than five years and may be renewed. On the expiry of their terms, the president and chief executive officer remains in office until he or she is replaced, and the vice-presidents remain in office until they are replaced or reappointed, as the case may be.

The president and chief executive officer and the vice-presidents exercise their functions on a full-time basis.

7. The Government determines the remuneration, employee benefits and other terms of employment of the president and chief executive officer and the vice-presidents.

8. The president and chief executive officer is responsible for the administration and direction of the Authority.

The president and chief executive officer designates a vice-president or one or more members of the Authority’s staff to replace him or her when absent or unable to act.

9. The vice-presidents assist the president and chief executive officer in the exercise of his or her functions and powers and exercise their administrative functions under the president and chief executive officer’s authority.

10. Subject to the applicable legislative provisions, the president and chief executive officer may delegate any function or power under this Act or the Act respecting contracting by public bodies (chapter C-65.1) to one of the Authority’s vice-presidents or any member of the Authority’s staff. The decision is published on the Authority’s website.

The president and chief executive officer may, in the instrument of delegation, authorize the subdelegation of specified functions and powers and, in that case, identifies the vice-president or staff member to whom they may be subdelegated.

11. The decisions made by the Authority and certified true by the president and chief executive officer, or by any other person authorized by the president and chief executive officer, are authentic. The same applies to the documents or copies of documents emanating from the Authority or forming part of its records when they have been signed or certified true by any such persons.

12. Subject to the conditions determined by by-law, the Authority may allow the signature of the president and chief executive officer or a delegatee referred to in the second paragraph of section 8 or in section 10 to be affixed by means of an automatic device on the documents determined by by-law.

13. A by-law made by the Authority establishes a staffing plan as well as the procedure for appointing the members of its staff and selection criteria.
Subject to the provisions of a collective agreement, such a by-law also determines the standards and scales of staff members’ remuneration, employee benefits and other terms of employment in accordance with the conditions defined by the Government.

14. The conditions set out in paragraphs 1 and 2 of section 5 must be met for a person to be hired as a member of the Authority’s staff and remain as such.

15. The president and chief executive officer and the vice-presidents may not have a direct or indirect interest in a body, enterprise or association that may cause their personal interest to conflict with the duties of their office. If the interest devolves to them by succession or gift, they renounce it or dispose of it with diligence.

Members of the Authority’s staff who have a direct or indirect interest in a body, enterprise or association that may cause their personal interest to conflict with the Authority’s interest must, on pain of dismissal, disclose it in writing to the president and chief executive officer and, if applicable, refrain from participating in any decision pertaining to the body, enterprise or association.

16. The Authority determines, by by-law, the rules of ethics and the disciplinary sanctions applicable to staff members.

17. The Authority must establish a strategic plan according to the form, content and timetable determined by the Government. The plan must state

(1) the Authority’s objectives and strategic directions;

(2) the results targeted over the period covered by the plan;

(3) the performance indicators to be used in measuring results; and

(4) any other element determined by the Chair of the Conseil du trésor.

The plan requires the Government’s approval.

CHAPTER II
MISSION

18. The Authority’s mission is

(1) to oversee all public contracts, in particular, tendering and awarding processes for those contracts;

(2) to apply Chapter V.1 of the Act respecting contracting by public bodies concerning ineligibility for public contracts;
to apply Chapter V.2 of that Act concerning the prior authorization required to obtain a public contract or subcontract;

(4) to apply Chapter V.3 of that Act concerning performance evaluations; and

(5) to establish the operating rules of the electronic tendering system in collaboration with the secretariat of the Conseil du trésor.

It is also the Authority’s mission to oversee all other contracting processes determined by the Government, on the conditions it determines.

19. For the purposes of this Act,

(1) “public contract” means a contract described in the first or third paragraph of section 3 of the Act respecting contracting by public bodies involving an expenditure equal to or above the applicable minimum public tender threshold or a contract listed in the second paragraph of that section that a public body may enter into;

(2) “public body” means a body referred to in section 4 or section 7 of the Act respecting contracting by public bodies;

(3) “electronic tendering system” means the electronic tendering system referred to in section 11 of the Act respecting contracting by public bodies.

CHAPTER III
FUNCTIONS AND POWERS

DIVISION I
FUNCTIONS OF THE AUTHORITY

20. The Authority’s functions are

(1) to examine the tendering or awarding process for a public contract following a complaint under Division I or II of Chapter IV or for the purposes of an intervention under Chapter V;

(2) to examine the contract management of the Ministère des Transports and any other public body the Government designates;

(3) to monitor public contracts particularly for the purpose of analyzing procurement trends and public bodies’ contracting practices and identifying problematic situations that affect competition;

(4) to exercise the functions assigned to it under Chapters V.1 to V.3 of the Act respecting contracting by public bodies and, in particular, to keep the register of enterprises ineligible for public contracts and the register of enterprises authorized to enter into a public contract or subcontract; and
(5) to exercise any other function determined by the Government in relation to the Authority’s mission.

DIVISION II
POWERS OF THE AUTHORITY

§1. — Audit and investigation

21. The Authority may conduct an audit to determine whether the tendering or awarding process for a public contract of a public body or the contract management of a public body referred to in paragraph 2 of section 20 is carried out in accordance with the normative framework to which the body is subject.

22. On the Authority’s request, the public body being audited must send or otherwise make available to the Authority within the time it specifies all documents and information the Authority considers necessary to conduct the audit.

23. For the purposes of an audit, any authorized person may

   (1) enter, at any reasonable hour, the establishment of a public body or any other premises in which relevant documents or information may be kept;

   (2) use any computer, equipment or other thing that is on the premises to access data contained in an electronic device, computer system or other medium or to audit, examine, process, copy or print out such data; and

   (3) require from the persons present any relevant information as well as the production of any book, register, account, contract, record or other relevant document and make copies.

Any person who has the custody, possession or control of documents referred to in this section must communicate them to the person conducting the audit and facilitate their examination by that person.

24. The person authorized to conduct the audit must, on request, produce identification and, as applicable, show the document attesting his or her authorization.

25. The Authority may conduct an investigation to ascertain whether the contract management of a public body referred to in paragraph 2 of section 20 is carried out in accordance with the normative framework to which the body is subject.

The Authority is then vested with the powers and immunity of commissioners appointed under the Act respecting public inquiry commissions (chapter C-37), except the power to order imprisonment.
26. The Authority may, in writing, entrust the mandate of conducting an audit to a person who is not a member of its staff and who meets the conditions set out in paragraphs 1 and 2 of section 5. For that purpose, the Authority may delegate the exercise of its powers to that person.

The Authority may also, on the same conditions, entrust the mandate of conducting an investigation to such a person. The person is then vested with the powers and immunity referred to in the second paragraph of section 25.

§2. — Orders and recommendations

27. When an audit or investigation is concluded, the Authority may

(1) order the public body to amend, to the Authority’s satisfaction, its tender documents or cancel the public call for tenders if the Authority is of the opinion that the conditions of the call for tenders do not ensure the honest and fair treatment of tenderers, do not allow tenderers to compete although they are qualified to meet the stated procurement requirements or are otherwise not compliant with the normative framework;

(2) order the public body not to follow up on its intention to enter into a public contract by mutual agreement if the Authority is of the opinion that a complainant that has expressed interest is capable of carrying out the contract according to the procurement requirements and obligations stated in the notice of intention, in which case the public body must issue a public call for tenders if it intends to enter into the contract;

(3) order the public body to call on an independent process auditor for the tendering processes the Authority indicates;

(4) designate an independent person to act as a member of a selection committee for the tendering of a public contract the Authority indicates;

(5) despite the prohibition to disclose information that allows a person to be identified as being a member of a selection committee under subparagraph 2 of the first paragraph of section 58.1 of the Act respecting contracting by public bodies, order the public body to send to the Authority, for approval, the composition of the selection committees for the tendering processes the Authority indicates; and

(6) when it exercises functions assigned to it under paragraph 2 of section 20, suspend, for the time it specifies, the performance of any public contract or cancel such a contract if the Authority is of the opinion that the seriousness of the breach observed as regards contract management justifies suspending or cancelling the contract.

If the Authority makes an order, it must publish the order on its website. If the order is made under subparagraph 1 or 2 of the first paragraph, the Authority
requires the operator of the electronic tendering system to enter a brief description of the order on the system without delay.

28. The Authority’s decision under subparagraph 6 of the first paragraph of section 27 must include reasons and be sent without delay to the chief executive officer of the public body and the contractor concerned.

A decision referred to in the first paragraph to suspend the performance of a public contract becomes effective on the date and for the time the Authority specifies, and a decision to cancel a public contract becomes effective on the date the Authority specifies.

29. The Authority may also

(1) make recommendations to the Chair of the Conseil du trésor concerning the tendering or awarding processes for public contracts and give its opinion on any question submitted to it by the Chair concerning matters under the Authority’s jurisdiction;

(2) make recommendations to the chief executive officer of a public body concerning the tendering or awarding processes for its contracts or, when the Authority exercises the functions assigned to it under paragraph 2 of section 20, make recommendations concerning the public body’s contract management, which may propose corrective and appropriate follow-up measures and the implementation of any other measure, including oversight and monitoring measures;

(3) recommend to the Conseil du trésor that it require, on the conditions it determines, that a public body

(a) associate itself with another public body designated by the Conseil du trésor for the tendering or awarding processes the Conseil indicates, or

(b) entrust to another public body designated by the Conseil du trésor the responsibility for conducting the tendering or awarding processes the Conseil indicates;

(4) recommend to the Chair of the Conseil du trésor that the Chair recommend to the Government that it place a public body’s contract management under the Authority’s oversight;

(5) as part of its monitoring of public contracts, collect, compile and analyze information on such contracts and disseminate the resulting findings among the public bodies.

Subparagraphs 3 and 4 of the first paragraph do not apply to bodies of the administrative branch established to exercise adjudicative functions.
Subparagraph 3 of the first paragraph applies to bodies described in section 7 of the Act respecting contracting by public bodies to the extent that it concerns a tendering process.

For the purposes of subparagraphs 3 and 4 of the first paragraph and despite the Act respecting Access to documents held by public bodies and the Protection of personal information (chapter A-2.1), the Authority must send a copy of the record it has established to the Conseil du trésor or the Chair of the Conseil du trésor, as the case may be.

30. For the purposes of this Act, a public body’s chief executive officer is the person responsible for the day-to-day management of the body, such as the deputy minister, the president or the director general.

However, in the case of a general and vocational college or university-level educational institution, the chief executive officer corresponds to the board of governors and, in the case of a school board, to the council of commissioners.

A board or council referred to in the second paragraph may, by regulation, delegate all or part of the functions to be exercised by the chief executive officer to the executive committee, the director general or, in the case of a university-level educational institution, a member of the staff of the senior management within the meaning of the Act respecting educational institutions at the university level (chapter E-14.1).

§3. — Other powers

31. If the Authority issues recommendations, it may require that it be informed in writing, within the time specified, of the measures taken by the public body to follow up on the recommendations.

32. For the exercise of its functions, the Authority may, as provided by law, enter into an agreement with a government other than the Gouvernement du Québec, with a department or body of such a government or with an international organization or a body of such an organization.

The Authority may also enter into an agreement with a public body or any other person or partnership with a view to facilitating the application of this Act.
CHAPTER IV
COMPLAINTS

DIVISION I
COMPLAINTS RESULTING FROM A PUBLIC BODY’S DECISION

§1.—Tendering process

33. An interested person or partnership or the person’s or partnership’s representative may file a complaint with the Authority about the tendering process for a public contract if, after complaining to the public body that the tender documents contain conditions that do not ensure the honest and fair treatment of tenderers, do not allow tenderers to compete although they are qualified to meet the stated procurement requirements or are otherwise not compliant with the normative framework, the person, partnership or representative disagrees with the public body’s decision.

The complaint must be filed with the Authority not later than three days after the complainant receives the public body’s decision.

§2.—Awarding process

34. An interested person or partnership or the person’s or partnership’s representative may file a complaint with the Authority about the awarding process for a public contract if, after expressing interest in carrying out the contract to the public body that published the notice of intention required by law, the person, partnership or representative disagrees with the public body’s decision.

The complaint must be filed with the Authority not later than three days after the complainant receives the public body’s decision.

DIVISION II
COMPLAINTS NOT RESULTING FROM A PUBLIC BODY’S DECISION

§1.—Tendering process

35. An interested person or partnership or the person’s or partnership’s representative may file a complaint with the Authority about the tendering process for a public contract if, after complaining as described in section 33, the person, partnership or representative has still not received the public body’s decision two days before the tender closing date.

The complaint must be filed with the Authority not later than one day before the tender closing date indicated on the electronic tendering system.
36. An interested person or partnership or the person’s or partnership’s representative may also file a complaint with the Authority about the tendering process for a public contract if, after being informed of an amendment made to the tender documents during the period starting two days before the complaint filing deadline indicated on the electronic tendering system, the person, partnership or representative is of the opinion that the amendment contains conditions that do not ensure the honest and fair treatment of tenderers, do not allow tenderers to compete although they are qualified to meet the stated procurement requirements or are otherwise not compliant with the normative framework.

The complaint must be filed with the Authority not later than two days before the tender closing date indicated on the electronic tendering system.

§2. — Awarding process

37. An interested person or partnership or the person’s or partnership’s representative may file a complaint with the Authority about the awarding process for a public contract if, after an expression of interest referred to in section 34, the person, partnership or representative has still not received the public body’s decision two days before the projected contract date.

The complaint must be filed with the Authority not later than one day before the projected contract date indicated on the electronic tendering system.

38. An interested person or partnership or the person’s or partnership’s representative may also file a complaint with the Authority about the awarding process for a public contract if the notice of intention required by law was not published on the electronic tendering system.

DIVISION III
EXCLUSION

39. Despite Divisions I and II, no complaint may be filed concerning an amendment made to the tender documents in accordance with an order of the Authority or concerning tender documents for a contract whose object is such that it must be performed entirely outside Québec.

DIVISION IV
COMPLAINT PROCESSING

40. A complaint must be filed electronically with the Authority in the form it determines and in accordance with the procedure that it establishes. The procedure must, in particular,

(1) specify how a complaint must be filed and how complaints are processed;
(2) indicate the information the complaint must include; and

(3) allow the complainant and the chief executive officer of the public body referred to in the complaint to submit observations.

The Authority must publish the procedure on its website.

41. The Authority may, on summary examination, dismiss any complaint that it considers abusive, frivolous or clearly unfounded, as well as any complaint that is made by a complainant who clearly does not have the required interest, that is received late or that has not been sent in accordance with section 40.

If the Authority dismisses a complaint, it must inform the complainant and give the reasons for its decision.

42. If the Authority considers that a complaint under Division I or II is admissible, the Authority informs the public body, which must in turn, without delay, submit its observations to the Authority and, as applicable, send the Authority a copy of the reasons for its decision on the complaint or the expression of interest that it processed.

43. In the case of a complaint about a tendering process, the Authority must, if need be, defer the submission of bids until a new tender closing date is set by the public body in accordance with the second paragraph of section 46.

In the case of a complaint about an awarding process, the Authority must, if need be, defer the projected contract date.

In the cases referred to in the first and second paragraphs, the Authority informs the public body concerned and the complainant of the deferment, and requires the operator of the electronic tendering system to make an entry to that effect on the system without delay.

44. The Authority has 10 days from the time it receives the public body’s observations to make its decision.

If the complaint cannot be processed within the time period specified in the first paragraph, the Authority must agree with the public body on an additional time period to allow the Authority to finish processing the complaint. The Authority must inform the complainant of the new deadline.

However, if the body and the Authority cannot agree on an additional time period, the Authority has only an additional period of five days to make its decision. If the Authority fails to make a decision before the expiry of that additional 5-day period, it is deemed to have decided that the tendering or awarding process for the contract complies with the normative framework.
45. The Authority dismisses a complaint if

(1) the complainant does not have the required interest;

(2) the complaint concerns an amendment made to the tender documents in accordance with an order of the Authority;

(3) the complaint concerns a contract whose object is such that it must be performed entirely outside Québec;

(4) the complainant should have first filed a complaint with or expressed its interest to the public body;

(5) the complainant refuses or neglects to provide, within the time specified by the Authority, the information or documents that the Authority requires; or

(6) the complainant has pursued a judicial remedy based on the same facts as those set out in the complaint.

In all cases, the Authority sends the decision with reasons in writing to the complainant and the public body concerned.

46. When the examination of a complaint under Division I or II is concluded, the Authority sends its decision with reasons in writing to the complainant and the public body concerned.

If the Authority’s decision on a complaint referred to in section 33, 35 or 36 allows the tendering process to continue, the public body must ensure that a time period of at least seven days is granted for tendering a bid if the decision results in an amendment to the tender documents. The time period must be of at least two days if the decision does not result in an amendment to the tender documents. The public body enters on the electronic tendering system a new tender closing date, as the case may be, that allows for those time periods.

47. It is forbidden to take a reprisal in any manner whatever against a person or partnership that files a complaint with the Authority or again to threaten to take a reprisal against a person or partnership so that he, she or it will abstain from filing a complaint with the Authority.

A person or partnership who believes himself, herself or itself to be a victim of a reprisal may file a complaint with the Authority so that the Authority may determine if the complaint is substantiated and make any recommendations it considers appropriate to the chief executive officer of the public body concerned by the reprisals. Sections 41 and 45 apply to the follow-up of the complaint, with the necessary modifications.

When the examination is concluded, the Authority informs the complainant of its findings and, if applicable, its recommendations.
No civil action may be instituted against a person or partnership for or as a consequence of a complaint that the person or partnership filed in good faith under this chapter, whatever the Authority’s conclusions, or for or as a consequence of the publication of a report by the Authority under this Act.

Moreover, nothing in this Act restricts a complainant’s right, after the Authority has processed the complainant’s complaint, to pursue a remedy based on the same facts as those set out in the complaint.

Subject to the fourth paragraph of section 29 and section 60 and despite sections 9 and 83 of the Act respecting Access to documents held by public bodies and the Protection of personal information, the Authority may not communicate any document or information contained in a complaint record without the authorization of the public body that sent the record to the Authority.

CHAPTER V
INTERVENTION

The Authority may, on its own initiative or on the request of the Chair of the Conseil du trésor, examine a tendering or awarding process for a public contract if the public body concerned does not appear to be acting, in respect of that process, in compliance with the normative framework.

Chapter III and sections 43, 44 and 46 apply to the Authority’s intervention, with the necessary modifications.

The Authority may also examine a tendering process for a public contract on the request of any person or partnership that has tendered a bid or on the request of the person’s or partnership’s representative if the process did not ensure the honest and fair treatment of tenderers, did not allow tenderers to compete although they are qualified to meet the stated procurement requirements or was otherwise not carried out in accordance with the normative framework.

A request under the first paragraph must be filed with the Authority within three months of the awarding of the tender.

Chapter III applies to the Authority’s intervention, with the necessary modifications.

The Authority informs the public body’s chief executive officer of the reasons for its intervention and invites him or her to submit observations.
CHAPTER VI
COMMUNICATION OF INFORMATION TO THE AUTHORITY

53. A person may communicate to the Authority information calling into question the compliance of a public body's contract management with the normative framework.

54. The Authority must take all measures necessary to protect the identity of persons who have communicated with it. The Authority may nonetheless communicate the identity of such persons to the Anti-Corruption Commissioner.

55. It is forbidden to take a reprisal against a person on the ground that the person has, in good faith, communicated information or cooperated in an audit or investigation conducted on the grounds of such a communication.

   It is also forbidden to threaten to take a reprisal against a person so that the person will abstain from communicating information or cooperating in an audit or investigation conducted on the grounds of such a communication.

56. The demotion, suspension, dismissal or transfer of a person referred to in section 55 or any other disciplinary measure or measure that adversely affects such a person's employment or working conditions is presumed to be a reprisal within the meaning of that section.

57. Any person who believes himself or herself to be a victim of a reprisal may file a complaint with the Authority so that the Authority may determine whether the complaint is substantiated and make any recommendations it considers appropriate to the chief executive officer of the public body concerned by the reprisals. Sections 41 and 45 apply to the follow-up of the complaint, with the necessary modifications.

   When the examination is concluded, the Authority informs the complainant of its findings and, if applicable, its recommendations.

CHAPTER VII
CANCELLATION BY OPERATION OF LAW

58. Subject to section 25.0.1 of the Act respecting contracting by public bodies, any public contract entered into after a tendering or awarding process continued by a public body before the Authority has made a decision on a complaint filed under Division I or II of Chapter IV, or in contravention of an order made by the Authority under subparagraph 1 or 2 of the first paragraph of section 27, is cancelled by operation of law from the time the body and its contractor receive notification from the Authority to that effect.

   In addition, a contract entered into by mutual agreement by a public body without the prior publication of the notice of intention required by law is
cancelled by operation of law from the time the body and its contractor receive notification from the Authority to that effect.

CHAPTER VIII
MISCELLANEOUS PROVISIONS

59. Chapters III to V, when they concern a tendering process, apply to a process for the certification of goods or the qualification of service providers or contractors, with the necessary modifications.

60. If the Authority considers that information brought to its attention may potentially be disclosed under section 26 of the Anti-Corruption Act (chapter L-6.1), the Authority sends the information to the Anti-Corruption Commissioner as soon as possible.

61. Nothing contained in an audit or investigation record under this Act, including the resulting conclusions with reasons, may be construed as a declaration, recognition or extrajudicial admission of misconduct capable of establishing the civil liability of a party in a judicial proceeding.

62.
