EXPLANATORY NOTES

This bill amends the Act to modify the organization and governance of the health and social services network, in particular by abolishing the regional agencies to take into account the special geographic status of the Mauricie et Centre-du-Québec health region.

To that end, the bill provides that the president and executive director of an integrated health and social services centre may be assisted by two assistant president and executive directors if such a centre is located in a health region whose territory corresponds to the entire territory of two administrative regions of Québec. In addition, in such a case, a people's forum may be established for each of those administrative regions.

Lastly, the bill contains consequential amendments.

LEGISLATION AMENDED BY THIS BILL:

– Act to modify the organization and governance of the health and social services network, in particular by abolishing the regional agencies (chapter O-7.2).
