(99) Mrs. Ghazal (Mercier) – 12 Novembre 2019
To the Minister of the Environment and the Fight Against Climate Change

In your reply to the petition signed by 8,252 citizens of Québec on reducing advertising flyer annoyance, you recognize that we must be more responsible with regard to our consumption of short-lived and single-use products. I am delighted to read that we share the same desire to reduce the perverse effects of this mass distribution.

You are aware that the city of Mirabel has taken a position on this issue by prohibiting the distribution of printed advertising flyers when there is no pictogram authorizing it. For its part, since 25 October, the city of Montréal has been hearing opinions on the topic in the context of citizen-initiated public consultations on regulating flyers. Clearly, there is no longer consensus on the method of systematic distribution. Sooner or later these municipalities and others considering taking action must be able to count on a clear universal directive, which could be incorporated into the Municipal Powers Act in order to better regulate this practice throughout Québec.
You also mention that, in the 2019–2020 Budget, you announced $100 million over five years to improve waste management in Québec. These monies were expected and will be welcome. However, determining how flyers should be packaged by making a regulation under section 53.28 of the Environment Quality Act would reduce the inefficiency of our sorting centres at the expense of the companies concerned.

In this context and in light of this information, my questions for the Minister of the Environment and the Fight Against Climate Change are the following:

1. Will the Minister commit to rapidly standardizing the regulations on distributing flyers so as to reduce waste?

2. Does the Minister plan to set out clear guidelines to regulate advertising flyer packaging?

3. In the event that these proposals are not considered by the Minister and considering the importance of this issue, what are the Minister’s intentions and when does he plan to transform his intentions into actions?
