### **BUSINESS STANDING IN THE NAME OF MEMBERS IN OPPOSITION**

##### **(47) 4 February 2020**

Motion by the Member for Pontiac:

THAT the National Assembly acknowledge that there  
are currently not enough health professionals in the majority of  
Québec's health care institutions;

THAT it recognize that the shortage of health  
professionals is having an impact on the quality of care  
provided to patients;

THAT it recognize that health professionals experience dissatisfaction, distress and burnout, and that they are more often absent and at greater risk of workplace accidents;

THAT it take note that “sit-ins” have been held in numerous health care institutions in different regions of Québec to deplore staff shortages and heavy workloads;

THAT it note that the pilot projects designed to test the implementation of new staff-to-patient ratios have been completed and that their findings are conclusive, for both staff and patients;

THAT the National Assembly ask that the CAQ Government implement the new staff-to-patient ratios immediately and that it include the necessary funding in the 2020–2021 budget.

#### **WRITTEN QUESTIONS**

*Questions already placed on the Order Paper  
are published each Wednesday*

- (117) Ms. Ghazal (Mercier) – 4 February 2020  
To the Minister of Finance

Montréal pour tous is an organization in my riding that brings volunteers from across Montréal together to work to keep residents in their neighbourhoods. Since September 2018, they have been seeking a commitment from the Ministère des Finances that the Grant for Seniors to Offset a Municipal Tax Increase be adjusted in line with the skyrocketing increases in property taxes likely to displace homeowners who are seniors or whose income is not on the same upward trajectory. An initial letter submitted on 15 September 2018 was left unanswered by the outgoing Minister of Finance. A second letter sent on 14 December 2018 received nothing more than an acknowledgement of receipt.

The 2020–2022 property tax roll published by Ville de Montréal shows the average increases by borough. In the Plateau-Mont-Royal neighborhood, the variation in property values is approximately 16.7%, which is 4% more than the Montréal average. This significant variation, combined with municipal and borough tax increases, is making it more difficult for people whose income or pensions are increasing little or not at all. In this context of overheated property values, the existing grant is insufficient and must therefore be increased.

In light of this situation, which is untenable for a growing number of residents, my question for the Minister of Finance is the following:

- Does the Minister plan to increase the grant for seniors to offset a municipal tax increase in order to adapt it to current realities marked by sharp increases in property assessments in the most sought-after areas of the market that are forcing many citizens to have to leave their homes?

(118) Mr. Zanetti (Jean-Lesage) – **4 February 2020**

To the Minister of Health and Social Services

As the Public Protector (Québec Ombudsperson) pointed out in her 11 October 2018 report on the Centre intégré de santé et des services sociaux de l'Outaouais – Hôpital de Hull: “. . . every person has the right to receive appropriate health care services in a personalized, safe manner . . .” Following the investigation, the Ombudsperson recommended that “a complete ban on wearing perfume apply to the emergency room staff of Hôpital de Hull”.

Many ingredients used in the composition of fragrances can cause or exacerbate health issues such as asthma, eczema, multiple chemical sensitivity, sinusitis and migraines. For example, some people who are ill experience difficulty accessing health care because they cannot tolerate the chemicals in various products such as cologne, aftershave, hairspray, soap and perfume.

In 2015, Statistics Canada identified 173,500 persons diagnosed as suffering from MCS/HCM in Québec alone. By 2016, this number had climbed to 230,500.

The Commission des droits de la personne et des droits de la jeunesse du Québec has declared that “. . . the definition of handicap in the Charter of human rights and freedoms that our Commission has adopted and the way it has been interpreted by the courts of Québec is sufficiently broad and open for people suffering from environmental hypersensitivity to invoke it”.

In its 3 November 2015 issue, the Canadian Medical Association Journal (CMAJ) published an editorial in which the authors wrote: “There are many practices that are acceptable outside hospitals — but not inside. One of these is the application of artificial scents to our bodies. . . There is little justification for continuing to tolerate artificial scents in our hospitals. . . Hospital environments free from artificial scents should become a uniform policy, promoting the safety of patients, staff and visitors alike.”

According to the Environmental Health Association of Québec (EHAQ): “Policies have been implemented in several government and hospital facilities in Canada where visitors, patients, health-care professionals, and other staff members are asked to refrain from using any products containing fragrances.”

The EHAQ recently asked the Ministère de la Santé et des Services sociaux to create fragrance-free health care services in Québec. Last 13 November, Ms. Lucie Opatrny, Assistant Deputy Minister, responded that employers were responsible for adopting fragrance-free policies. On 2 December 2019, the EHAP received a new letter, signed by Mr. Yvan Gendron, Deputy Minister, refusing to meet with them under the pretext that the department had just given the “Institut national de santé publique du Québec the mandate to do a rigorous analysis of the scientific literature”.

My questions to the Minister of Health and Social Services are the following:

- Does the Minister acknowledge that at least 3.2% of Quebecers suffer from environmental hypersensitivity?
- Does the Minister believe it is wise to rely solely on employers when the health of many citizens of Québec is at stake?
- Could the Minister envisage establishing fragrance-free policies for Québec’s health care institutions?
- If so, what reasons would the Minister give for not moving forward with such a policy that could facilitate appropriate access to health care for such people?
- If not, what measures does the Minister intend to take so that these vulnerable people can have access to health care system?
- In 2012, the Minister of Health, Mr. Yves Bolduc, gave Dr. Gaétan Carrier of the INSPQ the mandate to prepare a literature review on multiple chemical sensitivity; can the Minister inform us of what stage the writing of that review has reached?
- Can the Minister inform us of the deadline the Institut national de santé publique du Québec must comply with for filing its report?
- Since expertise in this field is rare and it is vital that the literature review be peer reviewed, can the Minister give us the names and areas of expertise of the reviewers?

(119) Ms. Fournier (Marie-Victorin) – **4 February 2020**  
To the Minister of Justice

I have been made aware of a fact concerning the recycling of automobile parts. Considering that the purchase and use of a vehicle is a significant household expense, it seems justified that auto repair shops be required to systematically offer their clients a choice between purchasing new auto parts and purchasing recycled or re-used auto parts, particularly given that the two latter options are more ecological choices in the climate crisis context.

Today, there are no norms or standards in this sense, leaving this choice to the discretion of the auto repairer, whereas it should be systematically left to the consumer. The possibility of choosing a new or a second-hand part would allow consumers to better manage their household budgets and would be consistent with circular economy principles.

My question is the following:

- Will the Minister of Justice commit to incorporating into the *Consumer Protection Act*, for obvious economic and ecological reasons, an obligation to offer consumers functional recycled or second-hand products when repairing their vehicles?

(120) Ms. Ghazal (Mercier) – **5 February 2020**  
To the Minister of the Environment and the Fight Against Climate Change

Last January, Conservation de la nature Québec (CNQ), a non-profit organization whose mission is to preserve Québec's natural settings, asked the Government of Québec to participate in the Héritage naturel Québec nature conservancy project (PHNQ 2019–2023), which aims to take advantage of \$100 million in matched funds from CNQ partners, provided \$100 million is invested by the provincial government in its land conservation project.

My question for the Minister of the Environment is the following:

To meet the commitments made in the context of the Convention on Biological Diversity (CBD), namely to protect 17% of Québec's land and inland waters, will the Government of Québec, which currently protects just under 10% of its land and inland waters, seize the opportunity offered by the CNQ to protect the equivalent of \$200 million of territory for only \$100 million?
