AN ACT TO ESTABLISH PHARMA-QUÉBEC

THE PARLIAMENT OF QUÉBEC ENACTS AS FollowS:

CHAPTER I
ESTABLISHMENT

1. A corporation (in this Act referred to as “the corporation”) is established under the name “Pharma-Québec”.

   The corporation is a legal person, a mandatary of the State whose mission and powers are provided for by this Act.

   Its property forms part of the domain of the State, but the execution of its own obligations may be levied against its property.

   It binds none but itself when it acts in its own name.

2. The corporation has its head office at the place determined by the Government; a notice of the address or change of address of the head office is published in the Gazette officielle du Québec.

CHAPTER II
MISSION AND POWERS

3. The corporation’s mission is to reduce the procurement costs of medications, vaccines and medical supplies and ensure their availability to enable Québec to achieve self-sufficiency.

   For the purposes of this Act, “medical supplies” means any consumables, supplies, devices or equipment that may be used to diagnose, treat, mitigate or prevent a disease, symptom or abnormal physical state.

4. The corporation has the power to do all that is necessary to carry out its mission, including

   (1) providing medication, vaccine and medical supplies procurement services to health and social services institutions and pharmacies;
(2) determining the reimbursement schedule for patented products after establishing the amount reimbursable for each therapeutic class, based on the price of the medication offering the best cost–therapeutic benefit ratio, according to the assessment conducted by the Institut national d’excellence en santé et en services sociaux within the scope of its mission;

(3) with the Government’s authorization, establishing and operating factories or other facilities, under public control, for manufacturing generic medications, vaccines and medical supplies;

(4) investing at least five percent of its budget in research and development devoted to new medications, vaccines and medical supplies; and

(5) controlling the quality and safety of medications, vaccines and medical supplies in accordance with the recommendations of the Institut national d’excellence en santé et en services sociaux.

5. The corporation may enter into an agreement with any person for the carrying out of its mission.

The corporation may, in particular, enter into agreements with volunteer and community groups as well as private enterprises to ensure their active participation at all levels of decision-making and of the planning, management and evaluation of the services it provides.

6. The Minister and the corporation may enter into an agreement under which they undertake to carry out, on each other’s behalf, specific operations related to the corporation’s mission or the Minister’s functions.

The agreement also defines the duties, powers and responsibilities of the partners in the medication and medical supplies field, in particular the Régie de l’assurance maladie du Québec, the Institut national d’excellence en santé et en services sociaux, the Minister and the institutions established under section 79 of the Act respecting health services and social services (chapter S-4.2) and section 64 of the Act respecting health services and social services for Cree Native persons (chapter S-5), and of the corporation.

The agreement must be approved by order of the Government.

7. Subject to the applicable legislative provisions, the corporation may enter into an agreement with a government other than that of Québec, with a department of such a government, with an international organization or with a body of such a government or such an organization.

8. With the Government’s authorization, the corporation may acquire or establish any subsidiary that may be useful in the pursuit of its mission.
A legal person all of whose voting shares are held directly or indirectly by the corporation is a subsidiary of the corporation. The subsidiary is a mandatary of the State and the third and fourth paragraphs of section 1 apply to it.

The Act respecting Access to documents held by public bodies and the Protection of personal information (chapter A-2.1) applies to any subsidiary of the corporation.

CHAPTER III
ORGANIZATION AND OPERATION

16. The remuneration, employee benefits and other conditions of employment of the president and chief executive officer are determined by the Government.

The other board members receive no remuneration except in the cases, on the conditions and to the extent determined by the Government. They are entitled, however, to the reimbursement of expenses incurred in the exercise of their functions in the cases, on the conditions and to the extent determined by the Government.

17. The quorum at meetings of the board of directors is the majority of its members.

Decisions of the board are made by a majority vote of the members present. In the case of a tie vote, the person presiding over the meeting has a casting vote.

18. A deed, document or writing is binding on and may be attributed to the corporation only if it is signed by the chair, the president and chief executive officer, the vice-chair, the secretary or a member of the corporation’s personnel but, in the latter case, only to the extent determined by by-law of the corporation.

19. The corporation may, by by-law, determine the mode of operation of the board of directors, form an executive committee, a scientific committee or any other committee, and delegate to it the exercise of powers conferred on the board.

20. The corporation adopts standards of ethics and professional conduct for its personnel. The standards must contain provisions that include, as a minimum, the requirements for public servants under the Public Service Act (chapter F-3.1.1). The standards are published by the corporation in its activity report.
21. The members of the corporation’s personnel are appointed in accordance with the staffing plan established by by-law of the corporation.

Subject to the provisions of a collective agreement, the standards and scales of remuneration, employee benefits and other conditions of employment of the members of the personnel are determined by by-law of the corporation in accordance with the conditions defined by the Government.

22. The Minister may issue directives concerning the policies and general objectives to be pursued by the corporation.

Directives are submitted to the Government for approval and come into force on the day they are approved. Once approved, they are binding on the corporation, which must comply with them.

25. The Government may, on the conditions and in the manner it determines,

(1) guarantee payment of the principal and interest on any loan contracted by the corporation or any of its subsidiaries and guarantee its obligations; and
