EXPLANATORY NOTES

The main purpose of this bill is to make certain children whose parents’ migratory status is precarious eligible for the health insurance plan and the prescription drug insurance plan.

To that end, the bill amends the Health Insurance Act and the Regulation respecting eligibility and registration of persons in respect of the Régie de l’assurance maladie du Québec to allow all unemancipated minor children who meet certain conditions and who have one of the statuses specified in that Act, in particular Canadian citizenship, to be considered domiciled in Québec and thus covered by the health insurance plan as residents. To do so, the latter must however be able to demonstrate their intention to stay in Québec for a period of more than six months following their registration with the Régie de l’assurance maladie du Québec. In addition, the Regulation is amended to allow all minor children who have been granted entry by Canadian immigration authorities for a stay of more than six months to be covered by the plan, as temporary residents of Québec, regardless of their parents’ status.

The bill amends the Act respecting prescription drug insurance and the Regulation respecting the basic prescription drug insurance plan to make all children thus covered by the health insurance plan eligible for coverage under the basic prescription drug insurance plan. In addition, minor children already covered by the health insurance plan only, that is, dependent children accompanying persons who are temporary residents of Québec and who are themselves covered by that plan, are now eligible for coverage under the basic prescription drug insurance plan.

Also, the bill specifies that to be considered residents of Québec for the purposes of the health insurance plan, children born to a parent who is a resident of Québec, during a stay outside Québec, must, subject to certain other conditions, be minors and have lived with such a parent on a permanent basis since birth. The bill facilitates coverage for such children on their arrival in the province by providing that they may, to register with the Board, submit an authorization issued by Canadian immigration authorities for a stay of more than six months.
The bill also allows the Government to determine, by regulation, after consultation with the Board or on its recommendation, the cases in which an application for registration, for renewal of registration or for the replacement of a health insurance card or eligibility card must be authenticated.

Lastly, the bill contains various transitional and consequential provisions.
