Part 5

WRITTEN QUESTIONS

*Questions already placed on the Order Paper
are published each Wednesday*

(198) Mr. Zanetti (Jean-Lesage) – **9 March 2021**

To the Minister of the Environment and the Fight Against Climate Change

Sollio Groupe Coopératif (formerly La Coop fédérée) operates a grain terminal on the site of the Port of Quebec, at Anse au Foulon. The Québec Port Authority (QPA), operates a rail yard next to it. The port activities planned for this sector will not all be fully operational until early 2022. The final project includes conversion of the wood pellet terminal, construction of four 15,000 tonne (t) silos, four smaller 1,000-tonne silos, covered conveyors, two grain handling and cleaning towers, a grain grading laboratory, two electrical substations and one grain car unloading station. The marine and land terminal will have the capacity to accommodate two moored ocean-going vessels, 110-car trains in sections in a rail yard, and around 100 trucks a day. The grain storage capacity will increase from 75,000 tonnes to 109,000 tonnes. The project's anticipated export volume is 1,290,000 tonnes of grain per year via 47 ships. The terminal's annual supply will be transported by 23 ships, 45 110-car trains, and 4,210 30-tonne trucks.

Nearly 1,200 homes are located less than one kilometre from the project. Although the project has not yet been carried out to its full potential, the area's residents have already been suffering from the noise and air pollution for two years. The environmental impact analyses paid for by Sollio Cooperative Group and the Quebec Port Authority clearly show that, once the project is 100% operational, noise levels will exceed standards and fine particles will almost exceed standards. It should be noted that the analyses do not include all the fine particles or all the noise that will be emitted by the terminal. And the completed impact studies do not take into account the noise from ships that will be docked at the wharf. Despite all these omissions, the study clearly indicates that the guideline values used will be exceeded. The noise from railway activities will almost always be above the standards (variance between +3 and +5). During train handling and railcar unloading—for approximately 12 hours—the noise levels for residents on Champlain Boulevard would be two times higher than the guideline values, while at the Jardins Mérici complex, the noise would exceed the guideline values. The impact assessment data shows that total fine particle concentrations will be just below Québec's environmental standard. In fact, the report states that there will be 29.3 µg/m³ while the standard of the Ministère de l'Environnement et de la Lutte aux changements climatiques is 30 at the limits of the

industrial zone. Moreover, and what is most worrisome, the assessment report takes into account only particles emitted from grain handling and cleaning. If the fine particles emitted by ships, trains and trucks on the project site are included, the current environmental standards will surely be exceeded. We would like to point out that as a result of this project, in a single day, there may be two ships moored at the wharf, as many as 100 trucks, and the dismantling of a 110-car train in the rail yard. And we know nothing at all about the fine dust emitted by the current Sollio Cooperative Group facilities located nearby, which will be linked to the project.

The ruling by the Court of Appeal in the case of the *Attorney General of Québec vs. IMTT-Québec inc* (2019 QCCA 1598) clearly specifies the applicability of provincial environmental legislation to activities or enterprises governed by a federal authority: “[278] In principle, until proven otherwise, provincial laws and regulations of general application aimed at controlling contaminants apply within the port of Quebec. The same is true of the general prohibition set out in s. 20 EQA, which deals with the release of contaminants into the environment likely to adversely affect the health of human beings or cause damage to or otherwise impair the quality of the environment, and of the Quebec civil law doctrine of neighbourhood annoyances with which this general prohibition accords. [238] Citizens of Quebec have just as much of a right to an environment free of contaminants within the port of Quebec as they do elsewhere in Quebec. [279] It is appropriate, within this context, to point out that the federal legislation underscores the importance of effective and harmonious cooperation among all levels of government when dealing with environmental protection. In this area, collaboration rather than confrontation is needed.”

In light of the information brought to the attention of the Minister of the Environment and the Fight Against Climate Change, my questions are as follows:

1. Can the Minister confirm that the project under way at Anse au Foulon complies with Québec environmental standards?
2. If it does not, why is the Minister not demanding compliance with Québec laws, in particular the Environment Quality Act, on the Anse au Foulon territory within the framework of the project developed by the Québec Port Authority and Sollio Groupe Coopératif?
3. After being alerted by citizens in the sector, as early as June 2020, why did the Minister of the Environment and the Fight Against Climate Change not send his own experts into the field to verify if the environmental standards were being complied with?
4. Considering that the Government recently petitioned the Supreme Court to have its law applied to the Port of Québec, how can the Minister justify his inaction in the Anse au Foulon sector given the Québec Court of Appeal ruling validating Québec's jurisdiction in the matter?

Despite all these omissions, the study clearly indicates that the guideline values used will be exceeded. The noise from railway activities will almost always be above the standards (variance between +3 and +5). During train handling and railcar unloading—for approximately 12 hours—the noise levels for residents on Champlain Boulevard would be two times higher than the guideline values, while at the Jardins Mérici complex, the noise would exceed the guideline values. The impact assessment data shows that total fine particle concentrations will be just below Québec's environmental standard. In fact, the report states that there will be 29.3 µg/m³ while the standard of the Ministère de l'Environnement et de la Lutte aux changements climatiques is 30 at the limits of the industrial zone. Moreover, and what is most worrisome, the assessment report takes into account only particles emitted from grain handling and cleaning. If the fine particles emitted by ships, trains and trucks on the project site are included, the current environmental standards will surely be exceeded. We would like to point out that as a result of this project, in a single day, there may be two ships moored at the wharf, as many as 100 trucks, and the dismantling of a 110-car train in the rail yard. And we know nothing at all about the fine dust emitted by the current Sollio Cooperative Group facilities located nearby, which will be linked to the project.

Furthermore, the total cost of the grain terminal and rail yard project is estimated at \$100 million. The Québec government has announced a financial contribution of \$30 million, which includes a \$10 million investment from Capital Logistique Québec and a \$20 million subsidy from the Ministère des Transports (MTQ) Programme de soutien aux investissements dans les infrastructures de transport maritime. However, one of the conditions of the subsidy program is compliance with Québec laws and regulations, failing which the subsidies may be withdrawn: “[Translation] Program beneficiaries must comply with the laws, regulations and standards in force and obtain the required authorizations before carrying out the project. The MTQ may withdraw from its commitment, reduce its contribution or require repayment of amounts paid if the applicant fails to comply with the conditions of the program or with Québec laws and regulations.”

In light of the matters brought to the attention of the Minister of Transport, we would like him to answer the following questions:

1. Why is the Minister of Transport not enforcing the rules of the subsidy program he administers by withdrawing the subsidies allocated to this project since it does not comply with Québec's current environmental regulations?
2. What use are the rules of his Programme de soutien aux investissements dans les infrastructures de transport maritime if it is possible to fail to comply with them without consequences and still receive subsidies?
3. How does the Minister of Transport justify that the task of ensuring compliance with the laws in force in Québec is left to the subsidy recipients, and that the government is not conducting any compliance audits?
4. Considering that citizens alerted the Ministère des Transports as early as February 2020, how does the Minister justify his inaction on this matter?
5. How does the Minister respond to citizens in the area who denounce the fact that public money is allocated to developers who then cause harm to citizens?

(200) Mr. Fontecilla (Laurier-Dorion) – **9 March 2021**
To the Minister of Municipal Affairs and Housing

In 1995, following proposals made by the Association des groupes de ressources techniques du Québec (AGRTQ) and the Confédération québécoise des coopératives d'habitation (CQCH), the Programme d'achat-rénovation en coopératives et OSBL (PARCO) was created.

A little over 1,000 housing units have been developed through the PARCO program. However, most of the agreements with the Société d'habitation du Québec for these housing projects will expire at the end of 2022, along with the rent supplement (PSL) subsidies that make it possible for those who are most vulnerable to live in these homes.

At a time when Québec is experiencing one of the worst housing crises in decades, with skyrocketing rents and an alarming vacancy rate, and when the current health crisis and resulting confinement have once again revealed the importance of having adequate housing, it is more important than ever that low-income households, and especially those living in housing created through the PARCO program, be able to have peace of mind about their future housing situation.

In light of the above, my question for the Minister of Municipal Affairs and Housing is the following:

Will the Minister immediately commit to maintaining the rent subsidies for co-operatives and non-profit housing, in particular those granted through the PARCO program?

(201) Ms. Ghazal (Mercier) – **9 March 2021**
To the Minister of Transport

The Ministère de l'Environnement et de la Lutte contre les changements climatiques issued an order in council (890-2010) for the Turcot Complex reconstruction project in the cities of Montréal, Montréal-Ouest and Westmount to ensure that this major project is carried out properly from an environmental perspective.

One component of the Order in Council, condition 8 regarding the Saint-Jacques Escarpment, requires mitigation of the damages that will be caused to the wetland and trees in the area.

Instead of creating basins and a pond as presented to the public, the department wants to create a ditch that would require the removal of between 400 and 625 trees, even though most of them are healthy. The MTQ's explanations that this work is necessary “[Translation] to facilitate maintenance, ensure adequate drainage and guarantee the long-term stability of the Saint-Jacques Escarpment and the mound of the green strip” are confusing because the trees’ roots play an important role in maintaining soil stability.

The Escarpment is a major route for migratory birds, for which these trees are essential, and home to 65 species of birds, including species such as the wood thrush and the barn swallow, which are threatened, as well as the brown snake, which is on the way to becoming threatened.

In light of these points, we would like the Minister to answer the following questions:

1. Why is the Minister of Transport not complying with condition 8 of Order in Council 890-2010, as regards the Saint-Jacques Escarpment?
2. Why was the group Sauvons la falaise not notified about the Minister of the Environment's approval of tree removal or the start of work, despite a promise to do so?

What does the Minister intend to do to comply with condition 8?

To the Minister Responsible for the Status of Women

On 27 October 2020, the Minister of Labour, Employment and Social Solidarity tabled Bill 59, An Act to modernize the occupational health and safety regime. Various groups representing women, as well as all bodies representing the rights of Quebecers and Québec, condemned the Government's haste to move forward with a reform that will have significant impacts on the health and safety of women.

As regards this bill, please tell us whether the Secrétariat à la Condition féminine or the Ministère de l'Emploi et de la Solidarité sociale have conducted a gender-based analysis, or any other analysis to take into account the impacts on women?

Will the Minister also table the opinion produced by the Secrétariat à la condition féminine regarding this bill or any comments made before the tabling of this bill?

(203) Ms. Melançon (Verdun) – **9 March 2021**

To the Minister responsible for the Status of Women

On 10 December 2020, the Minister of Justice tabled Bill 84, An Act to assist persons who are victims of criminal offences and to facilitate their recovery. Various groups representing women condemned the Government's haste to move forward with a reform that could have significant impacts for women.

As regards this Bill, can the Minister tell us if the Secrétariat à la condition féminine or the Ministère de la Justice has conducted a gender-based analysis?

Can the Minister also table the opinion produced by the Secrétariat regarding this bill or any comments made before the tabling of this bill?

(204) Ms. Melançon (Verdun) – **9 March 2021**

To the Minister responsible for the Status of Women

For victims of domestic and family violence, the pandemic has been a major ordeal that has brought to light all the suffering and isolation of victims.

Can the Minister tell us, since the start of the pandemic in March 2020, how many additional places have been opened for women who are victims of domestic violence and their children, broken down by region?

Can the Minister also tell us how many additional places have been offered to women who are homeless since the start of the pandemic, broken down by region, and tell us whether these places are exclusively for women?

(205) Ms. Rizqy (Saint-Laurent) – **9 March 2021**

To the Minister of Education

In April 2020, the Premier affirmed that herd immunity was one of the reasons for students' return to the classroom.

Can the Minister table the public health notices on this subject?

(206) Ms. Rizqy (Saint-Laurent) – **9 March 2021**
To the Minister of Education

On 8 January 2021, the Minister of Education announced that a mobile application would be created to give young people access to resources, testimonials, videos, etc. The Minister also announced that discussion forums on themes designed to meet the needs of young people would be set up to help mitigate feelings of isolation and offer ways to manage stress, in addition to a messaging service (chat) to be accessible throughout Québec.

For each of these announcements, can the Minister specify the progress of the work, the deadlines, the partner organizations responsible for implementing these measures and the contracts awarded to the organizations?

(207) Ms Rizqy (Saint-Laurent) – **9 March 2021**
To the Minister of Education

On 8 January 2021, the Minister of Education announced the implementation of a tutoring program and, according to the press release, the launch of various tutoring programs slated to begin at the end of January.

Can the Minister specify the list of tutoring programs put in place, the amounts allocated, the dates of allocation and a breakdown of the amounts by school service centre?
