## **EXPLANATORY NOTES**

*The purpose of this bill is to expressly provide, in the Act respecting the Québec correctional system, for the cases where, for public security reasons, it may be required that an offender be connected to a device that allows the offender's whereabouts to be known, in particular an anti-approach bracelet to increase the safety of a person who is a victim.*

*More precisely, the bill allows the correctional services to require that an offender in respect of whom they exercise community supervision be connected to such a device as a control intervention to ensure compliance with the conditions imposed on the offender. The director of a correctional facility may also require it as a condition attached to a temporary absence for reintegration purposes that the director grants to the person. Lastly, the Commission québécoise des libérations conditionnelles may require it as a condition attached to a temporary absence or conditional release that the Commission grants to the person.*
