2015-2016 BUDGET EXPENDITURES AND 2016-2017 EXPENDITURE BUDGET

1. 2015-2016 BUDGET EXPENDITURES

For the 2015-2016 fiscal year, the Government's budget expenditures amount to \$74,478.7 million. Program spending is \$66,460.0 million and debt service is \$8,018.7 million.

Evolution in the 2015-2016 Expenditure Budget (millions of dollars)

	Program Spending	Debt Service	Budget Expenditures
2015-2016 Expenditure Budget	66,460.0	8,330.7	74,790.7
Variation	-	(312.0)	(312.0)
2015-2016 Probable Expenditure	66,460.0	8,018.7	74,478.7

1.1 VARIATION IN BUDGET EXPENDITURES IN 2015-2016

Program spending amounts to \$66,460.0 million. Strict management and tight controls throughout the fiscal year allowed the initial objective set when tabling the 2015-2016 Expenditure Budget to be met.

The general fund's debt service was revised downwards by \$312.0 million in 2015-2016. This revision is mainly due to the lower-than-expected interest rates and to the higher-than-expected return of the Retirement Plans Sinking Fund (RPSF) in 2014-2015, thereby affecting the debt service as of 2015-2016. RPSF revenues are presented as a deduction from debt service.

1.2 EVOLUTION IN THE GOVERNMENT'S BUDGET EXPENDITURES IN 2015-2016

Program spending increased by 1.7% for a total of \$66,460.0 million in 2015-2016, compared with \$65,341.8 million in 2014-2015.

Debt service amounts to \$8,018.7 million, a decrease of \$131.2 million or 1.6% from 2014-2015.

Thus, the Government's budget expenditures for the 2015-2016 fiscal year amount to \$74,478.7 million, an increase of \$987.0 million or 1.3% from the previous fiscal year.

Budget Expenditures	74,478.7	73,491.7	987.0	1.3

2. 2016-2017 EXPENDITURE BUDGET

Program spending amounts to \$68,238.4 million in 2016-2017, an increase of \$1,778.4 million, or 2.7% from the 2015-2016 fiscal year.

Debt service amounts to \$8,317.5 million, an increase of \$298.8 million from 2015-2016, and is mainly due to the expected increase in interest rates.

In total, the Government's budget expenditures for the 2016-2017 fiscal year represent a 2.8% increase from 2015-2016, amounting to \$76,555.9 million.

2.1 VARIATION IN PROGRAM SPENDING IN 2016-2017

Program spending will increase by \$1,778.4 million in 2016-2017, up 2.7% from the 2015-2016 probable expenditure. This increase is due to the following variations:

- An increase of \$775.0 million or 2.4% in the "Santé et Services sociaux" portfolio;
- An increase of \$418.0 million or 3.0% in the "Éducation et Enseignement supérieur" portfolio;
- An increase of \$291.0 million or 1.2% in the other portfolios;
- An increase of \$294.4 million in the Contingency Fund.

¹ The variation percentage was calculated by including transfers from the provision for activities supporting the integration and francization of immigrants of the Ministère de l'Immigration, de la Diversité et de l'Inclusion in the 2016-2017 expenditure budget.

² The variation percentage was calculated by excluding, from the 2016-2017 expenditure budget, transfers from the provision for activities supporting the integration and francization of immigrants to the Ministère de l'Éducation et de l'Enseignement supérieur and to the Ministère de la Santé et des Services sociaux that the Ministère de l'Immigration, de la Diversité et de l'Inclusion will carry out during the 2016-2017 fiscal year.

³ To fund unexpected expenditures that may arise in any government program, costs pertaining to certain measures announced in the 2016-2017 Budget Speech, as well as forecast expenditures in department portfolios that have not been broken down.

SANTÉ ET SERVICES SOCIAUX

\$775.0-million increase in the 2016-2017 expenditure budget

The increase allocated to the Ministère de la Santé et des Services sociaux is \$775.0 million for 2016-2017, up 2.4% from 2015-2016. This growth allows for, in particular:

- Salary adjustments scheduled for April 1, 2016, the increase in the Government's employer contributions and retirement plans, the indexation of expenditures other than payroll, the increase in the budget allocated to the blood system and the financing of cross-regional equity priorities for certain cases;
- Planned pay increases for healthcare professionals as well as agreements with medical federations;
- Debt service payments resulting from investments in the healthcare network;

- Increase in services to the population, especially in-home services, the development of services for children and adults with autism spectrum disorder, the encouragement of healthy lifestyles, access to surgery and support to drug treatment centres.

The growth of this portfolio also takes into account savings due to optimization measures aimed at improving the relevance and efficiency of physical health services and of joint procurement.

ÉDUCATION ET ENSEIGNEMENT SUPÉRIEUR

\$418.0-million increase in the 2016-2017 expenditure budget

The expenditures of the Ministère de l'Éducation et de l'Enseignement supérieur increase by \$418.0 million for 2016-2017.

Taking into account the \$78.5 million from the provision for the integration of immigrants from the Ministère de l'Immigration, de la Diversité et de l'Inclusion, which will be added to this budget during 2016-2017, the increase in the Department's expenditures total \$496.5 million, or 3.0%.

The 2016-2017 expenditure budget provides funding for the following:

- Measures of the education and higher education success plan;
- The primary growth factors for the education networks, in particular salary parameters, enrollment effects, and subsidized debt;
- Increases in the costs of the Financial Assistance for Education.

The 2016-2017 expenditure budget also funds programs in the recreation and sports sector and supports the operation of bodies reporting to the ministers and of various education bodies.

OTHER DEPARTMENTS

Overall increase of 1.2%

Excluding the Contingency Fund, the main variations in other departments are as follows:

- The **National Assembly** budget is up \$6.3 million. This variation is mainly due to the indexation of operating expenses and the increase in salary expenditures, the support of ministers' constituency offices and the increase in depreciation expense;
- The budget for **Persons Appointed by the National Assembly** is up \$1.6 million. This variation is mainly due to the indexation of operating expenses and the increase in salary expenditures;

- The budget for the Ministère des **Affaires municipales et de l'Occupation du territoire** is up \$12.7 million. This increase is mainly due to the variation in costs related to the debt service repayment of infrastructure programs, the expansion of the natural resources royalty-sharing measure included in the Partnership Agreement with municipalities for the 2016-2019 period and support for Montréal's 375th Anniversary Celebrations. This increase was partially offset by various measures;
- The budget for the Ministère de l'**Agriculture, des Pêcheries et de l'Alimentation** is down \$20.4 million from the 2015-2016 probable expenditure. This variation is mainly due to the decrease in the government contribution paid to La Financière agricole du Québec following the prevailing favourable outlook in the agricultural product markets and to the ending of certain programs in 2015-2016;
- Not including the Contingency Fund, the budget for the **Conseil du trésor et de l'Administration gouvernementale** is down \$3.0 million. This variation is mainly due to the end of the Commission of Inquiry on the Awarding and Management of Contracts in the Construction Industry and by the application of cost-control measures;
- The budget for the Ministère du **Conseil exécutif** is up \$17.4 million. This variation is mainly due to indexing obligations associated with agreements concluded with Aboriginal nations and communities and to the variation in the allocations for the Aboriginals Initiative Fund II program;
- The budget for the Ministère de la **Culture et des Communications** is up \$13.9 million. This variation is mainly due to the granting of additional appropriations to support creators and cultural initiatives geared to children from 4 to 11 years old, to promote the French language and increase its presence as the language of work in small and mid-sized businesses in Greater Montréal and to cover the operating costs and debt service associated with the expansion of the Musée national des beaux-arts du Québec;
- The budget for the Ministère du **Développement durable, de l'Environnement et de la Lutte contre les changements climatiques** is \$147.1 million, similar to the 2015-2016 probable expenditure;
- The budget for the Ministère de l'**Économie, de la Science et de l'Innovation** is up \$137.1 million from the 2015-2016 probable expenditure. This increase is mainly due to the downward revision in provisions for losses on financial initiatives guaranteed by the Gouvernement du Québec in 2015-2016, combined with an expected increase in costs associated with this type of intervention in 2016-2017, and by the budget increase to the Québec Aluminium Development Strategy and the Maritime Strategy for 2016-2017;
- The budget for the Ministère de l'**Énergie et des Ressources naturelles** is down \$0.3 million from the 2015-2016 probable expenditure. This variation is primarily due to the elimination of the measure announced in the 2014-2015 Budget Speech for carrying out strategic hydrocarbon environmental assessments in Québec, which was offset by the salary adjustments scheduled for April 1, 2016;
- The budget for the Ministère de la **Famille** is down \$13.0 million from the 2015-2016 probable expenditure. This variation is mainly due to the implementation of a new funding structure for childcare services;

- Not including debt service, the budget for the Ministère des **Finances** is \$158.0 million, up \$66.1 million from the 2015-2016 probable expenditure. This variation is mainly related to the provision for revenue initiatives and the provision to modernize information systems in the healthcare sector, whose expenditure in 2015-2016 was recognized in other departments;
- The budget for the Ministère des **Forêts, de la Faune et des Parcs** is up \$9.8 million from the 2015-2016 probable expenditure. This variation is mainly due to an increase in the amount allocated to the program to combat the spruce budworm and a rise in the sums allocated to debt service for investments of the Société des établissements de plein air du Québec and salary adjustments scheduled for April 1, 2016;
- The budget for the Ministère de l'**Immigration, de la Diversité et de l'Inclusion** is up \$129.7 million from the 2015-2016 probable expenditure. This variation is mainly due to the fact that the probable expenditure is down by \$165.7 million transferred to the Ministère de l'Éducation et de l'Enseignement supérieur, the Ministère de la Santé et des Services sociaux and the Ministère du Travail, de l'Emploi et de la Solidarité sociale for francization and immigrant integration support activities, but also includes amounts related to the net voted appropriation. Excluding this factor, the 7.3% increase is mainly due to the measures in the Budget Speech;
- The budget for the Ministère de la **Justice** is up \$13.1 million from the 2015-2016 probable expenditure. This increase is mainly due to financing the rising cost of compensating victims of crime and the expenditure associated with raising the legal aid eligibility thresholds;
- The budget for the Ministère des **Relations internationales et de la Francophonie** is down \$0.7 million from the 2015-2016 probable expenditure. This variation is mainly due to the reorganization of offices abroad;
- The expenditure budget allocated to the Ministère de la **Sécurité publique** is \$1,350.6 million, comparable to the 2015-2016 probable expenditure. This is due to the combined effect of the opening of new detention facilities, the introduction of savings measures and the transfer of funds in 2015-2016 from the provision for revenue initiatives of the Ministère des Finances for various crime-fighting initiatives;
- The budget for the Ministère du **Tourisme** is \$138.0 million, up \$15.5 million from the 2015-2016 probable expenditure. The variation mainly stems from the capital expenditure plan of the Régie des installations olympiques;
- The expenditure budget for the Ministère des **Transports, de la Mobilité durable et de l'Électrification des transports** is \$654.5 million, comparable to the 2015-2016 probable expenditure;
- Lastly, the \$97.0-million drop for the Ministère du **Travail, de l'Emploi et de la Solidarité sociale** is mainly due to \$75.0 million received in 2015-2016 from the provision for carrying on activities supporting the integration and francization of immigrants of the Ministère de l'Immigration, de la Diversité et de l'Inclusion as well as the integration of the Commission de l'équité salariale into the new Commission des normes, de l'équité, de la santé et de la sécurité du travail, and to administrative optimization measures. The reduction is partially offset by the impact of indexing last-resort financial assistance benefits.

REFERENCES

- ¹ For the purposes of this table, debt service is excluded from the expenditures of the "Finances" and "Culture et Communications" portfolios.
- ² The variation percentage was calculated by excluding the Contingency Fund program from the 2016-2017 expenditure budget and the 2015-2016 probable expenditure.
- ³ The variation percentage was calculated by including transfers from the provision for activities supporting the integration and francization of immigrants of the Ministère de l'Immigration, de la Diversité et de l'Inclusion in the 2016-2017 expenditure budget.
- ⁴ The variation percentage was calculated by excluding the provision for revenue initiatives and the provision to modernize information systems in the healthcare sector from the 2016-2017 expenditure budget.
- ⁵ The variation percentage was calculated by excluding the provision for activities supporting the integration and francization of immigrants from the 2016-2017 expenditure budget, and by excluding the amounts related to the net voted appropriation from the probable expenditure.
- ⁶ The variation percentage was calculated by excluding transfers from the provision for revenue initiatives of the Ministère des Finances from the probable expenditure.
- ⁷ The variation percentage was calculated by excluding transfers from the provision for activities supporting the integration and francization of immigrants of the Ministère de l'Immigration, de la Diversité et de l'Inclusion and by excluding transfers from the provision for revenue initiatives of the Ministère des Finances from the probable expenditure.

With regard to references 2, 3, 4, 5, 6, and 7, a provision is a program element for which appropriations legislation gives the Conseil du trésor the power to authorize the transfer of part of an appropriation between programs or portfolios for the purposes of and, if applicable, according to the conditions determined in the **Estimates of the Departments and Bodies** volume.

RESULTS OF CONSOLIDATED ENTITIES

1. RESULTS OF CONSOLIDATED ENTITIES IN 2016-2017

For the 2016-2017 fiscal year, the forecast revenues and expenditures of the consolidated entities are set at \$82,964.8 million and \$80,652.0 million respectively, before consolidation adjustments, for a favourable impact of \$2,312.8 million on the Government's financial results. These results represent a decline of \$86.2 million from 2015-2016, broken down as follows:

- An improvement of \$78.8 million in the forecast results of special funds;
- A decline of \$173.3 million in the forecast results of the bodies other than budget-funded bodies;
- An improvement of \$22.0 million in the forecast results of the entities of the health and social services and education networks;
- A downward variation of \$13.7 million in the forecast results of defined-purpose accounts.

¹ The results of consolidated entities are presented before consolidation adjustments. These adjustments have the effect of eliminating inter-entity transactions within the Government's reporting entity to the General Fund, harmonizing the accounting policies in use in the consolidated entities with those applied by the Government, and applying the appropriate reclassifications.

² The data are presented in accordance with the 2016-2017 structure.

³ Including the results of the Generations Fund.

⁴ The results of defined-purpose accounts are presented on a cash basis, which can lead to significant fluctuations based on cash inflows and outflows. The results of defined-purpose accounts are presented in Appendix 4 before consolidation adjustments. The effect of consolidation adjustments is to adjust these results, so that they are balanced and can be presented on an accrual basis.

Changes to the allocation of the bodies other than budget-funded bodies and special funds by portfolio are presented in Appendix 1.

2. RESULTS OF SPECIAL FUNDS IN 2016-2017

The special funds show a forecast surplus of \$2,173.7 million before consolidation adjustments for the 2016-2017 fiscal year, representing an upward variation of \$78.8 million, compared with 2015-2016. Excluding the \$597.0-million improvement in the results of the Generations Fund, the results of the special funds are down by \$518.2 million. This decrease is largely due to the following factors:

- A forecast deficit of \$2.7 million in the Green Fund in 2016-2017, compared with a forecast surplus of \$441.1 million in 2015-2016. This \$443.8-million downward variation in the results is due to the implementation of the 2013-2020 Climate Change Action Plan and to measures announced in the 2016-2017 Budget Speech;
- A surplus of \$389.1 million in the Land Transportation Network Fund in 2016-2017, compared with the forecast surplus of \$215.9 million in 2015-2016. This \$173.2-million upward variation in the results is mainly due to a forecast increase in revenues from duties and permits, and by a change in schedule for local road authority assistance payments;
- A forecast deficit of \$130.4 million in the Fund to Finance Health and Social Services Institutions in 2016-2017, compared with a forecast deficit of \$32.0 million in 2015-2016. This \$98.4-million downward variation in the results is due to the gradual phasing out of the health contribution;
- A forecast deficit of \$87.1 million in the Northern Plan Fund in 2016-2017, compared with a surplus of \$10.5 million in 2015-2016. This \$97.6-million downward variation in the results is due to a forecast increase in transfers to the Société du Plan Nord;
- A forecast deficit of \$18.8 million in the Territories Development Fund in 2016-2017, compared with a surplus of \$18.8 million in 2015-2016. This \$37.6-million downward variation is mainly due to the payment in 2016-2017 of financial assistance granted in 2015-2016;
- A forecast surplus of \$37.5 million in the Highway Safety Fund in 2016-2017, compared with a surplus of \$1.2 million in 2015-2016. This \$36.3-million upward variation is mainly due to the addition of 39 new automated test devices between October 2015 and June 2016;
- A \$27.3-million decline in the results of the Caregiver Support Fund in 2016-2017, compared 2015-2016 due to the resumption of subsidy payments to the Société de gestion pour le soutien aux proches aidants as of April 1, 2016, including part of the amounts withheld due to the suspension of payments between January 1, 2013 and March 31, 2016;
- A deficit of \$23.9 million is forecast in the Labour Market Development Fund in 2016-2017, compared with a deficit of \$0.1 million in 2015-2016. This \$23.8-million variation in the net results is mainly due to increased use of public employment services, which ultimately increases the number of participants in employment assistance measures;
- A \$20.3-million decline in the results of the Fund for the Promotion of a Healthy Lifestyle in 2016-2017, compared with 2015-2016, due to the payment in 2016-2017 of \$20.0 million that was initially slated for 2013-2014, in order to fulfill the Government's commitment regarding the total amount that must be remitted to Québec en Forme by March 31, 2017.

¹ The results of the special funds are presented in Appendix 2.**3. RESULTS OF THE BODIES OTHER THAN BUDGET-FUNDED BODIES IN 2016-2017**

The forecast results of the bodies other than budget-funded bodies show a surplus of \$160.1 million in 2016-2017 before consolidation adjustments, compared with an anticipated surplus of \$333.4 million 2015-2016. This \$173.3-million decline in the forecast net results is largely due to the following factors:

- La Financière agricole du Québec is forecasting a surplus of \$113.9 million in 2016-2017, compared with a forecast surplus of \$234.3 million in 2015-2016. This \$120.4-million variation is mainly due to a forecast increase in expenditures in insurance and income protection programs;
- The Société du Plan Nord shows a \$98.8-million surplus in 2016-2017, compared with a \$0.1-million surplus in 2015-2016. This \$98.7-million improvement in the results is mainly due to additional funding from the Northern Plan Fund to acquire shares in a limited partnership, anticipated for 2016-2017;
- The Société de financement des infrastructures locales du Québec shows a deficit of \$24.5 million for the 2016-2017 fiscal year, compared with a forecast surplus of \$22.9 million in 2015-2016. This \$47.4-million variation is due to an increase in the completion of local infrastructure projects that receive financial assistance from the organization;

Results of Consolidated Entities

- The Société d'habitation du Québec shows a deficit of \$41.5 million in 2016-2017, compared with a forecast deficit of \$7.7 million in 2015-2016. The bulk of this deficit will be funded by a \$29.6-million cumulative surplus on March 31, 2016;
- The Agence du revenu du Québec shows a deficit of \$43.1 million in 2016-2017, compared with a deficit of \$21.9 million in 2015-2016. This \$21.2-million variation is mainly due to the weaker increase in the contribution from the Tax Administration Fund, coupled with an increase in expenditures due mainly to the growth in payroll and the depreciation of fixed assets. The decrease in revenues allocated to Revenu Québec by the Tax Administration Fund effectively reduces the accumulated surplus of Revenu Québec.

5. EVOLUTION IN FORECAST RESULTS OF CONSOLIDATED ENTITIES IN 2015-2016

The forecast results of consolidated entities, before consolidation adjustments, are \$388.2 million higher than those presented in the 2015-2016 Expenditure Budget:

- The forecast results of special funds and the bodies other than budget-funded bodies increased by \$400.4 million;
- The forecast results of entities of the health and social services and education networks decreased by \$22.0 million;
- The results of defined-purpose accounts are up \$9.8 million.

¹ Including the results of the Generations Fund.

More specifically, the main variations in the forecast results of special funds and the bodies other than budget-funded bodies, before consolidation adjustments, are due to the following factors:

- The Green Fund forecasts a surplus of \$441.1 million in 2015-2016, compared with a forecast deficit of \$0.6 million in the 2015-2016 Expenditure Budget. This \$441.7-million improvement in the results is due to the increase in revenues from the carbon market as well as a delay in implementing the 2013-2020 Climate Change Action Plan;
- La Financière agricole du Québec forecasts a surplus of \$234.3 million in 2015-2016, compared with a forecast surplus of \$133.0 million in the 2015-2016 Expenditure Budget. This \$101.3-million improvement in the results is due to the favourable outlook that prevailed in the agricultural product markets in 2015-2016;
- A surplus of \$215.9 million is forecast in the Land Transportation Network Fund in 2015-2016, compared with a surplus of \$298.7 million in the 2015-2016 Expenditure Budget. This \$82.8-million decline in the results is mainly due to a decrease in revenues from the fuel tax and from duties and permits;

Results of Consolidated Entities

- A surplus of \$22.9 million is forecast for the Société de financement des infrastructures locales du Québec in 2015-2016, compared with an anticipated deficit of \$12.7 million in the 2015-2016 Expenditure Budget. This \$35.6-million improvement in the results is mainly due to the public transportation infrastructure transfer expenditures, which were much lower than anticipated;
- A deficit of \$0.1 million is forecast in the Labour Market Development Fund, compared with a forecast deficit of \$34.9 million. The \$34.8-million improvement in the results from the 2015-2016 Expenditure Budget is due to lower-than-forecast expenditures in employment assistance measures;
- A deficit of \$32.0 million in the Fund to Finance Health and Social Services Institutions, due to the gradual phasing out of the health contribution.

STAFFING LEVEL WITHIN GOVERNMENT DEPARTMENTS, PUBLIC SECTOR BODIES AND NETWORKS, AND GOVERNMENT CORPORATIONS

1. STAFFING CONTROL RESULTS FOR 2015-2016

For 2015-2016, the Government announced ambitious staffing control objectives, as follows:

- An overall downsizing of 2% in the staffing level over the utilized staff level in 2013-2014 for the public service;
- An overall staffing freeze over the utilized staff level in 2014-2015 for public bodies whose staff are not appointed under the Public Service Act (CQLR, chapter F-3.1.1), and which are subject to staffing control for the period from January 1, 2015 to March 31, 2016 under the Act respecting workforce management and control within government departments, public sector bodies and networks and state-owned enterprises (CQLR, chapter G-1.011).

According to the actual data from April to December 2015 and the provisional data established based on staff consumption from January to March 2015, paid hours within public bodies amount to 871.2 million hours. Compared to the 2014-2015 fiscal year, total paid hours are down 13.1 million, or 1.5%, for a reduction of 7,158 full-time equivalent (FTE) employees on an annual basis. This drop consists of a reduction of:

- 2,268 FTEs, due to public bodies whose staff are subject to the Public Service Act;
- 4,890 FTEs related to public bodies whose staff are not appointed under this Act.

For the public service, this represents a reduction of 3,705 FTEs or 5.3% over the 2013-2014 fiscal year.

The Government is on track to surpass its staffing control objectives, despite the fact that total staffing was up an annual average of more than 5,000 FTEs in recent years. This represents a trend reversal and significant effort by the entire Government.

Furthermore, staffing numbers in public bodies from January 1 to December 31, 2015 are presented in Appendix 1 of this chapter. Definitions related to staffing are also presented in Appendix 2.

¹ From a workforce control perspective, the National Assembly and persons appointed by the National Assembly, Université du Québec and its constituent universities, research institutes and superior schools, school boards for Cree, Inuit and Naskapi Native persons as well as the Anti-Corruption Commissioner are excluded.

2. DETERMINING THE STAFFING LEVEL IN PAID HOURS

Since the adoption of the Act respecting workforce management and control within government departments, public sector bodies and networks and state-owned enterprises, when a control period applies, staffing control within public bodies whose personnel are not appointed under the Public Service Act is calculated in paid hours. Unlike the FTE concept used until now for the control of staff subject to the Public Service Act, the concept of paid hours includes:

- Overtime;
- Personnel in pre-retirement.

For the sake of consistency, the public service staffing level will also be determined in paid hours as of the 2016-2017 fiscal year. The new measure ensures an overview more closely linked with the actual cost of staffing. It is also better adapted to the situation of the departments and bodies where a lack of resources was compensated by an increase in overtime hours, which should translate into improved efficiency for certain activities. For personnel subject to the Public Service Act, the Conseil du trésor will determine over the coming weeks a staff level target in paid hours.

As for public bodies whose personnel are not appointed under the Public Service Act, the Government will continue staffing control measures for the period April 1, 2016 to March 31, 2017. Thus, the Conseil du trésor will establish over the next few weeks the staffing level available to each Minister for all the public bodies he is responsible for. The Conseil du trésor will also establish a separate staffing level for four specific government corporations¹.

Total	891,608.6	488,205

From a head count perspective, public bodies include:

- Departments and budget-funded bodies as well as bodies other than budget-funded bodies subject to or not subject to the Public Service Act;
- Université du Québec and its constituent universities, as well as research institutes and superior schools;
- CEGEPs;
- School boards, including school boards for Cree, Inuit and Naskapi Native persons;
- Integrated health and social services centres, integrated university health and social services centres, public and private health and social services establishments as well as the regional council constituted by the Act respecting health services and social services for Cree Native persons (CQLR, chapter S-5);
- Government corporations.

The data exclude the head count for the National Assembly and persons appointed by the National Assembly.

Data for the 2014-2015 fiscal year were used for the head count for Université du Québec and its constituent universities, research institutions and superior schools as well as for the school boards for Cree, Inuit and Naskapi Native persons.

Furthermore, in December 2015, the number of salaried employees of public bodies was 579,377. This number is a snapshot taken on a given date and is thus susceptible to the seasonality effect.

APPENDIX 2

GLOSSARY

Staff level target or target for the utilized staff level:

Maximum level to be respected by a public body.

Paid hours:

Number of hours worked and number of overtime hours.

Hours worked:

Number of hours associated with a job class under the conditions of employment from which periods of leave without pay (other than those described in the following paragraph) and periods of reorganized working time resulting in a reduction in the number of hours are deducted. For personnel where the deputy minister or the chief executive officer of a public body determines the work schedule, the number of hours worked is considered to be 35 hours per week.

For greater precision, periods are counted as hours worked where the employee receives employment insurance or compensation for occupational injury or disease, as well as periods where the employee is on preventive withdrawal, parental leave, or on full or partial pre-retirement.

Overtime hours worked:

Paid hours that exceed the normal hours of the job class. Hours paid at a premium rate are calculated in the same manner as overtime hours paid at a straight-time rate.

Converted into FTEs:

Number of paid hours converted into full-time equivalent employees (FTEs) on the basis of a 35-hour week. To do this, the total number of paid hours is divided by 1,826.3.

2016-2017 EXPENDITURE BUDGET BREAKDOWN BY MAJOR CATEGORY AND BENEFICIARY

1. OVERVIEW OF EXPENDITURE BREAKDOWN

For the 2016-2017 fiscal year, the Government's expenditure budget amounts to \$76,555.9 million, of which \$68,238.4 million, or 89.1%, is allocated to program spending and \$8,317.5 million, or 10.9%, to debt service.

BREAKDOWN OF PROGRAM SPENDING BY CATEGORY

Program spending for 2016-2017 is broken down mainly among the following categories:

- \$40,109.2 million, or 58.8%, for remuneration expenditures;
- \$9,838.8 million, or 14.4%, for operating expenditures and other;
- \$14,198.2 million, or 20.8%, for support expenditures for individuals, municipalities, businesses and other government partners.

¹ The expenditure categories make it possible to present expenditures by type and relative importance. They are shown in Appendix 1. The breakdown of the expenditure budget by major category is presented by portfolio in Appendix 2.

² Includes operating expenditures of \$9,279.6 million, expenditures related to provisions for doubtful accounts and other allowances of \$164.6 million, and a negative amount of \$181.2 million for unexpended appropriations.

BREAKDOWN OF PROGRAM SPENDING BY BENEFICIARY

The main beneficiaries of program spending are health and social services establishments, with \$21,733.8 million, and educational institutions, with \$16,440.6 million; together, they account for 56.0% of total program spending.

The balance of the program spending, \$30,064.0 million, is divided among the following beneficiaries:

- \$7,977.2 million, or 11.7%, for health professionals;
- \$6,782.7 million, or 9.9%, for individuals;
- \$6,696.1 million, or 9.8%, for the departments;
- \$8,608.0 million, or 12.6%, for spending allocated to various other beneficiaries, such as businesses, municipalities, non-profit organizations, and government corporations and bodies.

2016-2017 Program Spending by Beneficiary¹

¹ The breakdown of the expenditure budget by beneficiary is presented by portfolio in Appendix 3.

² Including non-profit organizations, and government corporations and bodies.

2. REMUNERATION EXPENDITURES

For the 2016-2017 fiscal year, remuneration expenditures amount to \$40,109.2 million, broken down as follows:

- 37.7% for health and social services establishments;
- 32.4% for educational institutions;
- 19.9% for health professionals;
- 10.0% for departmental staff and other beneficiaries.

An overall increase of \$818.2 million is forecast for remuneration expenditures, compared with 2015-2016 comparative expenditures, divided mainly among the following sectors:

- An increase of \$345.6 million is forecast in the "Santé et Services sociaux" portfolio, mainly due to salary adjustments scheduled for April 1, 2016, adjustments arising from employer contributions by the Government and retirement plans for health and social service network staff and for health professionals, including agreements with medical federations, offset in part by cost-cutting measures;
- An increase of \$418.2 million is forecast for the "Éducation et Enseignement supérieur" portfolio, mainly due to the measures of the education and higher education success plan, scheduled salary adjustments for April 1, 2016, clientele effects and wage progression of education network staff;
- An increase of \$54.4 million is projected for the other departments and for other beneficiaries, mainly due to the scheduled salary adjustments for April 1, 2016.

3. OPERATING EXPENDITURES

Operating expenditures amount to \$9,626.8 million 2016-2017, broken down as follows:

- 48.5% for health and social services establishments, or \$4,673.3 million, and 16.8% for educational institutions, or \$1,613.8 million;
- 30.0% allocated to the departments, or \$2,886.0 million, and 4.7% to other beneficiaries, or \$453.7 million.

The 2016-2017 operating expenditures increased by \$347.2 million from comparative expenditures in 2015-2016. This increase is mainly due to the following variations:

- In the "Santé et Services sociaux" portfolio, the increase of \$92.2 million from 2015-2016 stems from the indexation of non-salary expenditures and the operation of new facilities. Expected savings relating to the relevance and efficiency of physical health services and to the joint procurement for consolidated purchases is slowing the growth of operating expenditures;
- In the "Sécurité publique" portfolio, the increase of \$25.9 million is largely due to the planned opening of new detention facilities;
- In the "Éducation et Enseignement supérieur" portfolio, the increase of \$18.1 million is mainly due to the measures of the education and higher education success plan;
- In the "Conseil du trésor et Administration gouvernementale" portfolio, the increase of \$217.2 million of the Contingency Fund.

4. CAPITAL EXPENDITURES

Forecast capital expenditures increased by \$143.3 million, from \$2,865.8 million in 2015-2016 to \$3,009.1 million in 2016-2017.

Capital expenditures are allocated to the three types of intervention used by the Government: repayment of principal, subsidies for fixed assets, and capital expenditures of special funds.

EXPENDITURES FOR REPAYMENT OF PRINCIPAL

In 2016-2017, expenditures for repayment of principal on subsidized debt represent 91.2% of total capital expenditures.

These expenditures are 2,745.5 million in 2016-2017 compared with \$2,555.1 million in 2015-2016. This represents an increase of \$190.4 million, which is mainly explained by a rise in authorized investments in the health and social services network and the education networks.

SUBSIDIES FOR FIXED ASSETS

Subsidies for fixed assets account for 6.8% of total capital expenditures in 2016-2017. These subsidies are primarily intended for educational institutions, businesses and other beneficiaries.

These subsidies amount to \$205.3 million in 2016-2017 compared with \$261.4 million in 2015-2016, down \$56.1 million. This variation is mainly due to a decrease in the "Affaires municipales et Occupation du territoire" portfolio for the application of various measures by the Société d'habitation du Québec.

SPECIAL FUND CAPITAL EXPENDITURES

The capital expenditures for which the departments allocate money to special funds represent 2.0% of aggregate capital expenditures in 2016-2017. Thus, the departments, through their special funds, are the sole beneficiaries of these expenditures.

These expenditures are \$58.3 million in 2016-2017 compared with \$49.3 million in 2015-2016, up \$9.0 million.

5. INTEREST EXPENDITURES

For the 2016-2017 fiscal year, interest expenditures incurred by the Government amount to \$9,400.6 million compared with \$9,126.0 million for 2015-2016.

INTEREST ON THE DEBT OF THE GENERAL FUND OF THE CONSOLIDATED REVENUE FUND

The 2016-2017 expenditures allocated to debt service are \$8,317.5 million, a \$298.8-million increase from 2015-2016. This increase is mainly due to expected higher interest rates.

INTEREST ON THE DEBT ATTRIBUTABLE TO PROGRAM SPENDING

Interest on the debt attributable to program spending decreased by \$24.2 million to \$1,083.1 million, due to a change in authorized investments in the health and social services network and the education networks.

6. SUPPORT EXPENDITURES

Support expenditures encompass support and assistance programs intended mainly for individuals, non-profit organizations, businesses and municipalities. Nearly half the support expenditures are disbursed to individuals.

Support expenditures amount to \$14,198.2 million in 2016-2017, up \$265.3 million from 2015-2016, including:

- In the "Santé et Services sociaux" portfolio, the increase of \$136.4 million from 2015-2016 is due to the indexing of residence, foster home and community organization expenditures, the increase in the cost of medication and by the partial compensation for the drop in revenue of the Fund to Finance Health and Social Services Institutions arising from the gradual end of the health contribution;
- In the "Affaires municipales et Occupation du territoire" portfolio, a \$74.5-million increase, mainly due to the rise in compensation in lieu of taxes, the expansion of the natural resources royalty-sharing measure included in the Partnership Agreement with Municipalities for the 2016-2019 period and by the support for Montréal's 375th Anniversary Celebrations. Also, additional amounts at the Société d'habitation du Québec for the recurring measures in the 2015-2016 Budget Speech and for social housing;
- In the "Éducation et Enseignement supérieur" portfolio, the \$49.6-million increase is mainly due to the increase in costs of the Financial Assistance for Education resulting from the forecast growth in the number of eligible persons and by the indexation of funding parameters.

7. EXPENDITURES RELATED TO PROVISIONS FOR DOUBTFUL ACCOUNTS AND OTHER ALLOWANCES

Expenditures related to provisions for doubtful accounts and other allowances consist of the variations in the provisions for doubtful accounts, the provisions for losses on financial interventions guaranteed by the Government, and in provisions for valuation allowances for loans, investments and advances.

For the 2016-2017 fiscal year, these expenditures are up \$47.4 million to \$212.0 million:

- Expenditures attributable to the variation in the provisions for doubtful accounts are \$16.9 million, up \$2.0 million from 2015-2016;
- Expenditures related to other allowances are \$195.1 million in 2016-2017, an increase of \$45.4 million from 2015-2016. This increase is mainly in the "Économie, Science et Innovation" portfolio and essentially stems from the growth in provisions for losses on financial initiatives guaranteed by the Gouvernement du Québec.

APPENDIX 1

NATURE OF EXPENDITURE CATEGORIES

Remuneration

Remuneration expenditures encompass the fees of health professionals and the salaries of employees of the health and social services network, the education networks and the public service. It also includes salaries and allowances for Members of the National Assembly, all persons named or appointed by the National Assembly, the personnel directed by the National Assembly, judges and members of the Sûreté du Québec. Finally, it includes all employee benefits as well as other contributions by the Government in its role as employer.

Operating

Operating and other expenditures include the support and administration expenditures of the departments and bodies, including the Contingency Fund, those of the health and social services network and those of the education networks. Also included are the expenditures related to depreciation of fixed assets of departments and bodies, including information resources.

Capital

Capital expenditures include subsidized fixed assets and allocations to special funds to meet the commitments associated with their fixed assets. The Government subsidizes the cost of beneficiaries' fixed assets or repayment of the principal of loans contracted by its partners, as the case may be.

Expenditures for repayment of principal cover the funding of the Government's share with respect to fixed assets subsidized by debt service. This type of intervention applies to investments made by educational institutions, by health and social services establishments, by municipalities for public transportation and water treatment facilities, and by cultural institutions for cultural facilities.

For these sectors, completed capital projects are financed by long-term borrowing. The repayment schedule may extend over a 25-year period in some cases. To cover its share, the Government undertakes to repay all or part of the principal.

Interest

Interest expenditures include expenditures allocated to service subsidized debt. These are accounted for in program spending and in expenditures to pay interest on government debt.

Support

Support expenditures include various other subsidies intended to provide different forms of financial assistance to individuals, businesses, government and parapublic bodies, and other government partners, but not consisting for the Government of a direct acquisition of goods or services, a loan or an investment.

APPENDICES

APPENDIX A

2016-2017 EXPENDITURE BUDGET BY MISSION

Government budget expenditures are broken down into six major government missions, namely: Health and Social Services, Education and Culture, Economy and Environment, Support for Individuals and Families, Administration and Justice, and Debt Service.

Three missions account for more than three quarters of budget expenditures:

- The Health and Social Services mission is 44.1% of budget expenditures;
- The Education and Culture mission, representing 23.8% of budget expenditures;
- The Debt Service mission, which accounts for 10.9% of budget expenditures.
