### **Order in compliance with the Standing Orders**

#### Surveillance of public bodies and accountability:

- Hearing the Société de l'assurance automobile du Québec on its administrative management, activities and policy directions.

Part 5

**WRITTEN QUESTIONS**

Questions already placed on the Order Paper  
are published each Wednesday

- (189) Mr. Traversy (Terrebonne) – **7 June 2016**  
To the Minister of Sustainable Development, the Environment and the Fight  
Against Climate Change

Within the framework of the Programme de soutien à la mission des organismes nationaux (PSM-N), the Government pledged financial support to environmental community organizations. Such funding allows them to fulfill their environmental and sustainable development mission more efficiently. Thanks to this stable and recurrent funding, environmental community groups were able to put their efforts into protecting the environment and promoting sustainable development.

Since 2013, the Government has not renewed the three-year agreements on mission support for national organizations. Though certain agreements were renewed individually, they were renewed at different times throughout the year and with reduced amounts in 2015.

Also in 2013, an all-party committee on environmental group funding had been established to move group recognition guidelines forward and to give groups predictable funding. The committee was composed of the Minister's office, of a working group under the authority of one of the department's assistant deputy ministers, and of environmental group representatives. However, this committee has not met since April 2014, despite requests from environmental groups.

1. When does the Government expect to consult the environmental community groups within the framework of an all-party committee to launch a new program to support the mission of environmental groups?

Although there are some funding programs per project, they do not meet the aforementioned objectives as would a mission funding program. Contrary to watershed organizations and regional environmental councils, other independent community action organizations for the environment do not benefit from enhanced and recurrent support following a foreseeable schedule.

Environmental groups are the intermediaries between Government policies and citizen action. Their efforts are essential at the local, regional and national levels to implement the Québec Government's commitments regarding climate change.

2. When will a recurrent program to support the mission of environmental groups be updated and improved? What is the Government's proposed timeline?

Since 1 April 2016, independent community action organizations for the environment have been in the dark. The financial impacts are very real and today they threaten the survival of these organizations. While waiting for an environmental group mission support program to be restored, organizations need financing comparable to that of previous agreements.

3. Can we expect a payment to support the mission of environmental groups by the end of summer 2016?

## Part 6
