Toward a new pluri-annual immigration planning for the 2017–2019 period

This consultation provides the public with an opportunity to comment on proposed policy orientations for the new pluri-annual immigration planning for 2017 to 2019.

To stimulate your reflection, we urge you to read the *Québec Immigration Planning for the 2017–2019 Period* consultation booklet before completing this questionnaire.

Two other documents may complement the above reading:

- The *Recueil de statistiques sur l'immigration et la diversité au Québec* handbook (in French only)
- The *L'immigration au Québec — Le rôle du ministère de l'Immigration, de la Diversité et de l'Inclusion* reference document (in French only)

Your responses will be forwarded to the members of the Committee on Citizen Relations. However, no personal information will be made public.

The following questions concern the pluri-annual immigration planning and specifically pertain to the proposed policy orientations for the 2017-2019 period. These orientations determine the number of immigrants to be admitted, as well as the composition and characteristics of Québec's immigration for the 2017–2019 period. Immigration planning is an essential tool for achieving Québec's objectives, which include : prosperity, ensuring the vitality of French language, attracting and retaining strategic talents, ensuring dynamism in Québec's regions and, finally, affirming Québec's international solidarity.

Indicate whether you strongly agree, agree, disagree, or strongly disagree with each of the following policy orientations.

	Strongly agree	Agree	Disagree	Strongly disagree	I have no opinion
1. Stabilize immigration admission levels at 51,000 immigrants for the first two years, then slightly increase levels during the third year to reach 52,500 in 2019					
2. Gradually increase the proportion of economic immigration to 63% by the end of the period					
3. By 2019, increase to at least 40% the proportion of immigrants aged 18 years and older in the skilled worker subclass who are selected as international students, or were temporary workers at the time of their selection					
4. Ensure that the proportion of adults in the skilled worker subclass who declare knowing French at the time of their admission is at least 85%					
5. Ensure that the proportion of candidates with in-demand training who are selected in the skilled worker subclass is at least 70%					
6. Ensure that at least 65% of annual admissions are individuals under 35 years of age					
7. Contribute, alongside economic and regional stakeholders, to the development of Québec's regions through permanent and temporary immigration					
8. Continue to foster diverse migratory movements by encouraging immigration from different parts of the world in an effort to support Québec's economic dynamism and ensure the vitality of French language					
9. Annually reaffirm Québec's humanitarian commitment by welcoming refugees and other people in need of international protection					

You may use this space to share your comments regarding the number of immigrants to be admitted and the composition and characteristics of migratory flows for the 2017–2019 period.
