- Examination of the 2013 evaluation report – Photo radar devices and red light camera systems.

Order in compliance with the Standing Orders

Surveillance of public bodies and accountability:

- Hearing the Société de l'assurance automobile du Québec on its administrative management, activities and policy directions.

Part 5

WRITTEN QUESTIONS

Questions already placed on the Order Paper
are published each Wednesday

- (225) Mr. Traversy (Terrebonne) – **14 March 2017**
To the Minister of Minister of Tourism

The Olympic Stadium is one of Québec's undeniable assets. Owing to its size, it is the only place where large-scale events can be held. But for the past few years – since the first tear in the roof in 1999, in fact – it has been very difficult to hold activities there between 1 November and mid-April, for safety reasons. As a result of this situation, the Régie des installations olympiques (RIO) holds approximately four exhibitions per year, whereas with a safe roof, it could hold twelve. This reduction in activities represents an income loss of over \$50 million annually.

Over a year ago, on 3 November 2015, the RIO tabled its opportunity study on the replacement of the roof. In order to move forward to the implementation phase and prepare the business file, the RIO is still waiting for the Minister's reply. We would therefore like to know:

- Will the Minister give the green light to the RIO so that it may implement the recommendations included in its opportunity study?
- Is this project a priority for the Minister and will it be included in the Québec infrastructure plan, whose update will be published in the next budget?

(226) Mr. Gaudreault (Jonquière) – **14 March 2017**

To the Minister of Transport, Sustainable Mobility and Transport Electrification

On 20 February 2017, the Minister of Transport, Sustainable Mobility and Transport Electrification sent the Committee on Public Administration a document entitled "Sommes du Fonds vert virées au FORT dans le cadre du Plan d'action 2013-2020 sur les changements climatiques – Suivi de la recommandation 7.6 du 34e rapport de la Commission de l'administration publique".

Concerning the graph "Sommes virées du Fonds vert au FORT dans le cadre du Plan d'action 2013-2020 sur les changements climatiques – Effets sur la réduction des émissions de GES » (p. 5):

- How does the Ministère identify the projects that the "Programme d'aide gouvernementale au transport collectif des personnes (PAGTCP) – FORT" would have funded, had it not been for the existence of the Green Fund?

Concerning table 2 "Programmes et mesures financées par le FORT à partir des sommes virées du Fonds vert" (p. 8):

- Why is the Programme d'aide au développement du transport collectif (PADTC) (action 13.7) for 2017 still not in effect?

Concerning table 3 "Quantification de la réduction des émissions de GES – Programme d'aide gouvernementale au transport collectif des personnes (PAGTCP) (action 13.2)" (p. 9):

- What are the Ministère's criteria to establish which "projects having a direct impact on the reduction of GHG emissions" can receive sums transferred from the Green Fund to the FORT?
- Is the "direct impact on the reduction of GHG emissions" criterion the only determining factor for the Ministère's use of the Green Fund sums over the course of the 2013-2020 Climate Change Action Plan?
- What are the direct impact indicators allowing to determine a project's qualification in relation to another project?

(227) Mr. Pagé (Labelle) – **14 March 2017**

To the Minister of Education, Recreation and Sports

On 13 February 2017, the Minister of Education, Recreation and Sports announced a \$57-million grant for the implementation of 80 projects within the framework of the Programme de soutien pour le remplacement ou la modification des systèmes de réfrigération fonctionnant aux gaz R-12 ou R-22 : arénas et centres de curling. The financial assistance granted to the applicants concerns the use of several refrigeration technologies, including CO₂, ammonia and HFO R-513A.

According to the mathematical information contained in the minister's various press releases in relation to this announcement, applicants (particularly municipalities) largely opted for HFO R-513, a refrigerant that goes against the MDDELCC notice issued on 7 December 2015. This notice specifies that to produce an icy surface, the use of this substance should be conditional on the PRP remaining at a level that compares with CO₂'s PRP level, that is, equivalent to one.

The Government decided to subsidize projects that will in large part use a refrigerant that not only pollutes, but also goes against the MDDELCC notice in a ratio of 600 to 1.

Here are the questions:

- Do all of the announced projects observe the condition stipulated by the MDDELCC in its notice of 7 December 2015, namely that refrigerants used systematically have a PRP that compares with CO₂'s PRP level?
- How can the Government justify its decision to subsidize these systems, whose ownership cost is more expensive, in addition to going against a MDDELCC notice?

- On 25 November 2016, the Minister of Sustainable Development, the Environment and the Fight Against Climate Change announced that PureSphera will receive an amount of \$5 million for two technologies: first, a project to recover refrigeration system gases and blowing agents used in the insulating foam of refrigerators; and another to safely destroy refrigerants and gases. How can the Government justify the reasons behind its decision to subsidize a type of polluting refrigerant rather than natural refrigerants?
