Secrétaire : Marie-Odile Apria

THE GAME HAS CHANGED

DP World London Gateway combines one of Europe's largest logistics parks with the UK's most advanced deep-sea port - a gateway to the world, creating the ultimate in Portcentric logistics.

Supply chains will always seek to flow through the most cost effective, efficient and reliable channels. Making the supply chain more efficient is an opportunity to add value, reduce costs and maximise sustainability. **DP World London Gateway** does all this, providing exceptional benefits and market advantage for supply chains into London, the South East, the Midlands and across the UK.

- Logistics park adjacent to the UK's most advanced deep-sea port
- On site rail terminal connects directly to the UK's strategic rail freight network (W10)
- Connected to an 8 lane motorway
- Fast and efficient Portcentric distribution opportunities with a single management team for both port and logistics park
- Tri-modal infrastructure via sea, rail and road
- Situated closer to the Midlands and the North than competing ports, reducing supply chain costs

A UNIQUE PROPOSITION...

QUALITY

World-class infrastructure bringing unrivalled reliability and efficiency

SCALE

Development order secured for up to 9 million sq ft

PROXIMITY

Just minutes from Europe's largest consumer market

CONNECTIVITY

Closer to the Midlands and the North than directly competing ports
