## Part 5

### WRITTEN QUESTIONS

Questions already placed on the Order Paper  
are published each Wednesday

- (284) Mr. Turcotte (Saint-Jean) – **6 February 2018**  
To the Minister of Health and Social Services

On 18 August 2015, construction on Hôpital du Haut-Richelieu's expansion project was halted via a letter issued by your department. At that time, we were informed that your department had considerably changed Hôpital du Haut-Richelieu's major expansion plans to exclude the construction of a real laboratory on the 3<sup>rd</sup> floor. When you visited Saint-Jean-sur-Richelieu to inaugurate Hôpital du Haut-Richelieu, you presented your Optilab project as being an "opportunity" for my constituents. Optilab is not only a loss of expertise for the Haut-Richelieu region, but it is mostly risks involved in transporting laboratory samples from Hôpital du Haut-Richelieu laboratories to Hôpital Charles-Lemoyne. You don't seem to have given any consideration to my proposal to divide the server laboratory into two centres, a proposal that makes sense since, on the one hand, the entities are located in the same administrative unit, namely the Centre intégré de santé et de services sociaux (CISSS) de la Montérégie-Centre, and, on the other hand, this would have resulted in savings since we would have made efficient use of the spaces that are already available by avoiding the construction of a new mega laboratory. My constituents are under the impression that you chose Charles-Lemoyne at the expense of the Haut-Richelieu region. We know that the Hôpital Charles-Lemoyne site is already used to full capacity.

- Can you still confirm that the construction of the Montérégie server laboratory will take place on the Hôpital Charles-Lemoyne site? If so, at what cost? If not, where will the Montérégie server laboratory be built? Will this laboratory be in your electoral division or in that of a Member belonging to the parliamentary group forming the Government?

(287) Mr. Villeneuve (Berthier) – **22 February 2018**  
To the Minister of Agriculture, Fisheries and Food

On 19 February 2018, the Producteurs de grains du Québec contacted your department regarding the "seven mistakes that need to be corrected" to maintain their sector's competitiveness:

1. Abolition of financial protection against grain's low price cycles;
2. Unjustified misappropriation of the Farm Income Stabilization Insurance program's remaining balance;
3. Lack of financial programs required to help producers meet their environmental obligations;
4. Lack of compensation for riparian buffer planting restrictions;
5. Carbon taxation and lack of compensation program reciprocity;
6. Broken promise regarding a working table on grain sector competitiveness;
7. Abusive reform of the pesticides regulation.

We would like to know what actions will be taken by your department to address the concerns of the Producteurs de grains du Québec.

(288) Mr. Villeneuve (Berthier) – **22 February 2018**  
To the Minister of Sustainable Development, the Environment and the Fight Against Climate Change

On 19 February 2018, the Producteurs de grains du Québec contacted your department regarding the "seven mistakes that need to be corrected" to maintain their sector's competitiveness:

(289) Mr. Bourcier (Saint-Jérôme) – **22 February 2018**  
To the Minister of Economy, Science and Innovation

On 21 February 2018, the Minister of Economy, Science and Innovation stated that the Arion Technologies Automobiles joint venture, created in March 2016 by Peugeot-Citroën (PSA), Exagon Motors, Investissement Québec and Hydro-Québec (IndusTech subsidiary) to carry out a feasibility study on the construction of a high-performance electric car assembly plant in Québec, decided not to go ahead with the project.

The Premier stated that the feasibility study indicated that the experience had to be discontinued, while the minister gave reasons for this decision, indicating that a large amount of public funds would have been needed to support this project, in addition to its being quite risky.

The minister also indicated that she had not received a letter from Peugeot-Citroën asking for the retraction of public comments made by the Government a few weeks earlier: "[Translation] I did not receive a letter requesting the Government's retraction".

My questions are the following:

- Will you release the findings of the feasibility study carried out by Arion Technologies Automobiles?
- Would you indicate whether another member of the Cabinet (or his or her home department), Investissement Québec or Hydro-Québec received a letter from Peugeot-Citroën demanding the Government's retraction in this matter? If so, will you release the said letter?
- Did Investissement Québec and Hydro-Québec members on Arion Technologies Automobiles' board of directors vote in favour of stopping the project?
- Did Arion Technologies Automobiles' board of directors vote unanimously in favour of stopping the project?
- Did you or your department, other members of the Cabinet, Investissement Québec or Hydro-Québec approach Innovation, Science and Economic Development Canada to obtain funding for this project within the framework of the Automotive Innovation Fund (AIF)?

(290) Mr. Bourcier (Saint-Jérôme) – **13 March 2018**

To the Minister of Transport, Sustainable Mobility and Transport Electrification

In February 2017, Cie des Laurentides Inc. and the company 9274-5173 Inc, two taxi companies working in Saint-Jérôme and Prévost, sent the Commission des transports du Québec a request to merge jurisdictions.

A year later, the Commission still hasn't ruled on this matter while the concerned parties have expressed the need to merge jurisdictions to provide better service to the citizens of the Laurentides region.

I would like the Minister to indicate why this matter is still suspended and when specifically the Commission des transports intends to make its decision known. In the event that the request is denied, we would like the Commission des transports to publicly disclose its motives.

(291) Mrs. Massé (Sainte-Marie–Saint-Jacques) – **13 March 2018**

To the Minister of Employment and Social Solidarity

Disabled persons living in poverty in intermediate resources and family-type resources were denied the monthly \$73 increase in social solidarity benefits that came into force last 1 February.

The Régie de l'assurance maladie du Québec (RAMQ) increased the required contribution of residents receiving social solidarity benefits from \$747 to \$820, since the monthly expense allowance is capped at \$215, when it should have been adjusted according to the anti-poverty plan.

This allowance is established under the Regulation respecting the contribution of users taken in charge by intermediate resources (CQLR, chapter S-4.2, r. 7), while the financial contribution of users in family-type resources is established under sections 376, 377 and 377.1 of the Regulation respecting the application of the Act respecting health services and social services for Cree Native persons (CQLR, chapter S-5, r. 1).

The amounts taken into consideration in calculating the contribution of users and indexed annually in accordance with the annuity index are established in pursuance of section 117 of the Act respecting the Québec Pension Plan (CQLR, chapter R-9).

It is reasonable to ask ourselves why the Minister of Employment and Social Solidarity and the Minister of Health and Social Services did not harmonize the anti-poverty plan with the Act respecting health services and social services and its regulations, by, among other things, tabling a new regulation, so as to make adjustments and thus ensure fair treatment of all.

After having been strongly criticized in this regard, the Liberal Government subsequently opened the door to an upward revision of the personal expense allowance. In light of the elements brought to the attention of the Minister of Employment and Social Solidarity and the Minister of Health and Social Services, I would like to know:

- 1) How and when do both ministers intend to harmonize the anti-poverty plan with the Act respecting health services and social services and the regulations setting the contribution of users?
- 2) Will the thousands of persons affected by this lack of harmonization between the two departments be able to retroactively receive the monthly \$73 increase in social solidarity benefits that has been denied them thus far?

It goes without saying that actions must be taken without delay to better support the thousands of disabled persons taken in charge by intermediate resources.

(292) Mrs. D'Amours (Mirabel) – **15 March 2018**  
To the Minister of Agriculture, Fisheries and Food

Québec agriculture needs support to develop and double our agricultural product exports.

This support cannot take place without substantial help from the Government, which is being everything but proactive in this regard.

Let us recall that Québec suffers from a chronic lack of infrastructure investment, especially when you consider the gap with Ontario and the rest of Canada.

Not only is public investment not forthcoming, but the Government is not doing anything to make farmers' lives easier.

Take for instance the case of relations with Hydro-Québec.

Why do farmers who want to expand their operations and whose farms require an electricity system upgrade have to cover the costs in order for Hydro-Québec to connect a farm to its network?

It's just not logical to hear the Government talk about development and not see any actions being taken to this end.

I would therefore like to know if the Minister of Energy and the Minister of Agriculture are aware of these situations in which Hydro-Québec requires farmers to cover the costs of upgrading their infrastructures.

I would also like to know if they intend to rectify the situation so that farmers are supported and aren't required to cover the costs related to upgrading Hydro-Québec's infrastructures when they want to expand their operations.

(293) Mr. LeBel (Rimouski) – **20 March 2018**

To the Minister responsible for Consumer Protection and for Housing

Last 8 February, the report from the interdepartmental committee tasked with documenting problems caused by dry rot fungus was tabled in the National Assembly, but it does not propose any financial assistance to victims of this fungus.

Considering that the number of cases in Québec has soared, that insurance does not cover this type of contamination, that the techniques used to demolish houses infested by dry rot fungus are not yet fully adapted to the situation and that the SHQ still does not know what to do with the contaminated waste, I feel it is urgent to act.

My questions are the following:

- Has the Minister responsible for Consumer Protection and for Housing provided for the financing of the victims of dry rot fungus within the framework of the Government's next budget?
- If so, what amount has the Minister responsible for Consumer Protection and for Housing set aside for the financing of the victims of dry rot fungus within the framework of the Government's next budget?

(294) Mr. Bonnardel (Granby) – **21 March 2018**

To the Minister of Justice

Sometimes unfortunate situations come about in which persons suddenly and unexpectedly become psychologically incompetent. Be it following a traffic accident, a work-related accident or a sport injury, a person might end up in a coma or sustain a major concussion that could render him or her incapable of making decisions for a period of time that might be longer than expected.

Unfortunately, often these persons are not adequately prepared to deal with such events, which could significantly complicate their lives and those of their family members. While persons are unable to take care of themselves, families can't replace them administratively, since they don't have a power of attorney allowing them to do so. Be it to pay monthly bills, access the accident report or suspend telephone service, since the incompetent person is of full age, without a power of attorney, the caregiver can't carry out these procedures in his or her place.

Owing to the existing delays in the justice system, this situation rapidly becomes a complicated burden for caregivers. The Government must re-examine this procedure to facilitate the lives of those who only want to help.

Within this context where there seems to be an administrative breach as regards persons who suddenly become incompetent and who don't have a power of attorney, does the Government of Québec plan to re-examine the current way of doing things in order to improve and make more accessible the temporary measures that may be taken before a protection plan is opened?

(295) Mrs. Massé (Sainte-Marie–Saint-Jacques) – **21 March 2018**  
To the Minister responsible for the Status of Women

In 2015, I introduced Bill 399, An Act to exclude child support payments from income calculation under various social laws

The content of this bill stems from a request made by several groups and organizations for close to 15 years. Two similar bills had already been introduced in the past: one in 2008, by Lisette Lapointe (Bill 394) and another, in 2012, by my former colleague Françoise David (Bill 195).

Simple logic applies: child support should be used for children and not to fill Government coffers. This measure is aimed at the most vulnerable among us and I believe that our Government must respond positively to this reasonable request.

The question is addressed to the Minister responsible for the Status of Women because this retrograde measure, which ensures that child support is calculated as income for persons on welfare, mainly discriminates against women.

Can the Minister responsible for the Status of Women intervene with the Minister of Finance to finally rectify this injustice?
