**ORDERS OF THE DAY**

**BUSINESS HAVING PRECEDENCE**

- (1) Resuming the debate, adjourned in the name of the Member for Fabre on **10 April 2018**, on the motion by the Minister of Finance, –That this Assembly approves the budgetary policy of the Government,

And on the motions stating a grievance moved by:

**The Member for Rousseau:**

THAT the National Assembly severely censure the Liberal Government for having presented a completely irresponsible, pre-electoral budget.

**The Member for Granby:**

THAT the National Assembly severely censure the Liberal Government for its pre-electoral budgetary policy designed to artificially inflate the expenditures resulting from the increased tax burden on Québec families since beginning its term of office in 2014.

**The Member for René-Lévesque:**

THAT the National Assembly severely censure the Liberal Government for having presented a budget that consolidates Air Canada's monopoly, that favours the high cost of airfares in the regions and that penalizes citizens who want to travel throughout Québec at a reasonable price.

**The Member for La Peltrie:**

THAT the National Assembly severely censure the Liberal Government for the 4-year delay in carrying out work related to the third link between Québec City and Lévis and for misleading the people of Québec City and its environs about its true intentions regarding realization of the third link project.

**The Member for Chicoutimi:**

THAT the National Assembly severely censure the Liberal Government for having presented a pre-electoral budget funded by using a stabilization reserve accounting entry to avoid having to post a deficit.

**The Member for Saint-Jérôme:**

THAT the National Assembly severely censure the Liberal Government for having presented a budget that contains no measures to improve electric fast-charging infrastructure.

**The Member for Berthier:**

THAT the National Assembly severely censure the Liberal Government for having presented a budget that ignores the next generation of Québec farmers.

**The Member for Sainte-Marie–Saint-Jacques:**

THAT the National Assembly censure the Liberal Government for its 2018–2019 budget, which perpetuates the unfair tax treatment of Québec businesses compared to digital platforms based abroad as concerns collection of the Québec sales tax.

**The Member for Pointe-aux-Trembles:**

THAT the National Assembly severely censure the Liberal Government for presenting a budget that will bring about a return to austerity after the general election.

**The Member for Levis:**

THAT the National Assembly severely censure the Liberal Government for underinvesting in health, thereby cutting direct services to persons who are vulnerable, for the alarming state of hospital buildings, long-term senior care facilities and youth centres, and for paying unjustified salary increases to medical specialists while more important needs are not being met.

**The Member for Gouin:**

THAT the National Assembly censure the Liberal Government for its 2018–2019 budget which, as a result of the tax reductions granted since the beginning of this Legislature, has deprived public finances of over \$3.5 billion per year.

**The Member for Chambly:**

THAT the National Assembly severely censure the Liberal Government for underinvesting in education, thereby cutting direct services to students, and for the alarmingly decrepit state of Québec schools.

**The Member for Saint-Jean:**

THAT the National Assembly severely censure the Liberal Government for presenting a budget that leaves out persons with special needs.

**The Member for Jonquière:**

THAT the National Assembly severely censure the Liberal Government for presenting a budget that does not make up for cuts made to environment spending since 2014.

### Part 5

### **WRITTEN QUESTIONS**

Questions already placed on the Order Paper  
are published each Wednesday

(290) Mr. Bourcier (Saint-Jérôme) – **13 March 2018**

To the Minister of Transport, Sustainable Mobility and Transport Electrification

In February 2017, Cie des Laurentides Inc. and the company 9274-5173 Inc, two taxi companies working in Saint-Jérôme and Prévost, sent the Commission des transports du Québec a request to merge jurisdictions.

A year later, the Commission still hasn't ruled on this matter while the concerned parties have expressed the need to merge jurisdictions to provide better service to the citizens of the Laurentides region.

I would like the Minister to indicate why this matter is still suspended and when specifically the Commission des transports intends to make its decision known. In the event that the request is denied, we would like the Commission des transports to publicly disclose its motives.

(292) Mrs. D'Amours (Mirabel) – **15 March 2018**  
To the Minister of Agriculture, Fisheries and Food

Québec agriculture needs support to develop and double our agricultural product exports.

This support cannot take place without substantial help from the Government, which is being everything but proactive in this regard.

Let us recall that Québec suffers from a chronic lack of infrastructure investment, especially when you consider the gap with Ontario and the rest of Canada.

Not only is public investment not forthcoming, but the Government is not doing anything to make farmers' lives easier.

Take for instance the case of relations with Hydro-Québec.

Why do farmers who want to expand their operations and whose farms require an electricity system upgrade have to cover the costs in order for Hydro-Québec to connect a farm to its network?

It's just not logical to hear the Government talk about development and not see any actions being taken to this end.

I would therefore like to know if the Minister of Energy and the Minister of Agriculture are aware of these situations in which Hydro-Québec requires farmers to cover the costs of upgrading their infrastructures.

I would also like to know if they intend to rectify the situation so that farmers are supported and aren't required to cover the costs related to upgrading Hydro-Québec's infrastructures when they want to expand their operations.

(294) Mr. Bonnardel (Granby) – **21 March 2018**  
To the Minister of Justice

Sometimes unfortunate situations come about in which persons suddenly and unexpectedly become psychologically incompetent. Be it following a traffic accident, a work-related accident or a sport injury, a person might end up in a coma or sustain a major concussion that could render him or her incapable of making decisions for a period of time that might be longer than expected.

Unfortunately, often these persons are not adequately prepared to deal with such events, which could significantly complicate their lives and those of their family members. While persons are unable to take care of themselves, families can't replace them administratively, since they don't have a power of attorney allowing them to do so. Be it to pay monthly bills, access the accident report or suspend telephone service, since the incompetent person is of full age, without a power of attorney, the caregiver can't carry out these procedures in his or her place.

Owing to the existing delays in the justice system, this situation rapidly becomes a complicated burden for caregivers. The Government must re-examine this procedure to facilitate the lives of those who only want to help.

Within this context where there seems to be an administrative breach as regards persons who suddenly become incompetent and who don't have a power of attorney, does the Government of Québec plan to re-examine the current way of doing things in order to improve and make more accessible the temporary measures that may be taken before a protection plan is opened?

(296) Mr. Leclair (Beauharnois) – **22 March 2018**  
To the Minister responsible for Labour

The electricity supply contract between the Government, Hydro-Québec and Aluminerie de Bécancour (ABI) indicates that the company enjoys a preferential tariff.

Within the framework of the lockout announced last 11 January, ABI management had confirmed that only one production line out of three would be in operation. The aluminum plant therefore consumes one third of the electricity that it must usually consume.

- What is the total amount, per day, of Hydro-Québec's shortfall due to Aluminerie de Bécancour (ABI)'s decline in production since the beginning of the lockout?

(297) Mr. Bonnardel (Granby) – **10 April 2018**  
To the Minister of Justice

Sometimes there are unfortunate situations where persons pass away following treatment or hospitalization. Unfortunately, if loved ones suspect a medical error and want to consult the deceased person's medical record, if this person was 14 years of age or older, access thereto is refused by medical authorities as well as by the Commission d'accès à l'information.

Owing to the existing delays in the justice system, this situation can quickly become a complicated and expensive burden.

Within this context, does the Government of Québec plan to add a document to the admission record in which the patient would name a person responsible for verifying this in the event of his or her death following treatment or hospitalization?

(298) Mr. Bonnardel (Granby) – **10 April 2018**  
To the Minister of Health and Social Services

(299) Mr. Turcotte (Saint-Jean) – **11 April 2018**  
To the Minister responsible for Higher Education

Since 2011, the Ordre des pharmaciens du Québec has been working on various documents concerning the development of pharmacy technician skills upgrading. Furthermore, two documents, "Projet de révision du rôle des assistants techniques en pharmacie (ATP)", released in February 2014, and "Profil de compétences personnel technique", released in March 2014, report on the progress of work to that effect.

In July 2014, the Ministère de l'Éducation et de l'Enseignement supérieur (MEES) mandated a consulting firm to carry out a sector study focussing on pharmacists and experts in the field of pharmacy. The main objective of this mandate was to "[Translation] assess adequacy between the current and projected situation (manpower requirements) in community pharmacies and health establishments and the provision of training in the pharmacy industry". A sub-objective was to gather information that would allow the concerned departments to decide what initial training is required to practice pharmacy technician professions. This 176-page report was released in 2016.

You replied to my latest written question on this issue by mentioning that the Ministère de la Santé et des Services sociaux (MSSS) had recently decided on the need to carry out an analysis on hospital pharmacies.

- How many analyses and studies will be required for a decision to be taken?
- How much have these and will future studies cost?
- Have you consulted the Ordre des pharmaciens du Québec and the Association québécoise des assistants techniques en pharmacie?

Finally, in your reply to my previous written question, you mentioned that "[Translation] in accordance with the approach adopted by the MSSS, the MESS will then be able to establish the best training arrangements to meet pharmacy industry workplace needs, in accordance with the needs [...]. Well, it will establish the appropriate timetable, where necessary".

- What is this timetable?
