### **WRITTEN QUESTIONS**

Questions already placed on the Order Paper  
are published each Wednesday

- (31) Mr. Nadeau-Dubois (Gouin) – **2 April 2019**  
To the Minister of Education and Higher Education

In 2017, the Couillard Government undertook to offer 250 \$25,000 scholarships per year to graduating doctoral students in psychology who choose to complete their mandatory internship in the public or parapublic sector. The program has been so successful that demand now exceeds supply. The result: a large number of these students will not have access to the scholarship that they are entitled to according to the program's criteria. Universities will have to improvise to determine the criteria for allocating financial assistance, by opting for the random draw or by delivering partial scholarships, for example.

Last February, we found out that the Université de Sherbrooke took the decision, owing to insufficient funding, to allocate the \$25,000 scholarships promised by the Québec Government by random draw to the doctoral students in psychology having chosen the public and parapublic sector internships. The Université de Sherbrooke is not the only institution to find itself in this situation: Next year, this lack of funding will affect Université Laval and Université du Québec à Trois-Rivières in particular.

This underfunding of psychology graduates, who are preparing to take up the reins of a profession that is experiencing a major shortfall of services in the public and parapublic network, is unacceptable. Student bodies are unanimous: It is simply unrealistic to have a job during this internship. Without a scholarship, few options are available to the persons who are excluded from the program. They must live off of their savings, ask their families for help or go into debt.

My questions to the Minister of Education and Higher Education are the following:

- Will the Minister commit to sustaining the scholarship program for doctoral students in psychology who choose to complete their mandatory 1600-hour internship in the public and parapublic sectors?
- Will the Minister commit to increasing the number of scholarships offered within the framework of this program to ensure that all of these graduates receive this financial assistance that is essential to completing their internship?

(32) Mrs. Lessard-Therrien (Rouyn-Noranda–Témiscamingue) – **2 April 2019**  
To the Minister of Transport

In 2006, the Government launched the Village-Relais program, which involves 41 municipalities located throughout Québec on main national roads or tourist routes, including the town of Témiscaming located in my riding, Rouyn-Noranda–Témiscamingue. This program has two main objectives: counter fatigue at the wheel by providing safe stopping areas and contribute to the local development of certified municipalities. The agreement between the certified municipalities and the Ministère des Transports consists of commitments made on both sides. The “villages-relais” must adhere to a quality charter by providing basic services throughout the year to maintain their certification. In this regard, several investments are made each year in the different municipalities to improve and design areas to make them more accessible and safe.

However, over the past ten years, the network has benefitted from only three major promotional campaigns from 2012 to 2014. To fully carry out their role as a “village-relais”, certified municipalities must be promoted in order to make them better known to the general public.

This program's implementation and success cannot be achieved without the full participation of the "villages-relais" and their local businesses and that of the Minister of Transport. Lastly, note that this program is perfectly in line with the 2018-2022 government strategy and that of its Ministère des Affaires Municipales et de l'Habitation to ensure land occupancy.

It is with this in mind that the town of Témiscaming urged me to ask the Government:

- 1) How does the Minister intend to help the "villages-relais" maintain their role, which offers more services than a road park?
- 2) When does the Minister intend to launch a major promotional campaign to make the network's services better known and what amount does he intend to invest in it?
- 3) Specifically, how will the Minister show his support and that of the partner departments, Tourism and Municipal Affairs and Housing, for carrying out projects that allow the "villages-relais", and their Federation, to fully play their role as safe stopping areas for road users?

(35) Mr. Gaudreault (Jonquière) – **9 April 2019**  
To the Minister of Health and Social Services

Since its creation, in 2010, the Regroupement québécois des maladies orphelines (RQMO), which represents close to 30 associations, has been calling for the adoption of a Québec national plan for rare diseases. In 2015, the RQMO organized a summit on rare diseases to propose a strategy. For Québec patients and their informal caregivers, emphasis was placed on the improvement of diagnosis and the management of rare diseases, as well as access to treatment and social services.

On 19 November 2018, the Ministère de la Santé et des Services sociaux (MSSS) du Québec established a rare diseases working group. The RQMO, which advocates on behalf of 500,000 Quebecers affected by a rare disease, as well as other organizations, such as Cystic Fibrosis Canada helping the 1200 Quebecers with cystic fibrosis, were excluded from the initiative. These groups denounce the attitude of the MSSS, which most likely does not wish to hear from them about their collective experience.

Furthermore, it should be noted that the MSSS announced, on International Rare Disease Day, last 28 February, that the Institut national d'excellence en santé et services sociaux (INESSS) had been mandated to develop a Québec rare disease strategy.

My questions are as follows:

- Considering their exclusion from the MSSS working group, will the RQMO and Cystic Fibrosis Canada be invited to participate actively in the work of the INESSS?
- At what stage of the INESSS' and the working group's initiative will the RQMO's proposal, arising from years of consultation, be taken into consideration?
- Treatments for rare and orphan diseases consist of innovative and increasingly personalized therapies in line with the patient's genetic makeup. The INESSS' evaluation process for so-called orphan drugs is starting to recognize promise for therapeutic value as a basic criterion supporting the registration of these drugs. Does the Minister intend to maintain this initiative and facilitate access to these drugs for persons affected by a rare disease, with the objective of improving their quality of life?

(36) Mrs. Dorion (Taschereau) – **9 April 2019**  
To the Minister of Culture and Communications

The 2018–2023 government action plan on culture, arising from the new Québec cultural policy, unveiled by the Liberals in June 2018, contained 41 measures.

Measure 16 stipulates the “[Translation] implementation of concrete solutions to address the issues of employment, remuneration and the social protection of professional artists and cultural workers”.

Short-term actions were planned to implement this measure, including reviewing both Acts respecting the status of artists:

- Act respecting the professional status of artists in the visual arts, arts and crafts and literature, and their contracts with promoters
- Act respecting the professional status and conditions of engagement of performing, recording and film artists

Of course, the fact that the Liberals, in 2018, unveiled this policy a few days prior to the adjournment of the House leads us to believe that they had no real intention of reviewing these Acts, so important to artists.

But considering that the Minister mentioned on several occasions that she would maintain this policy and considering that the Government included funds for this policy in the last budget, can the Minister of Culture tell us when these two bills will be introduced?

(37) Mr. Zanetti (Jean-Lesage) – **9 April 2019**  
To the Minister of Health and Social Services

Today I draw the attention of the Minister of Health and Social Services to the special situation of Social Solidarity Program (SSP) recipients who are living in intermediate (IR) and family-type resources (FTR).

Last 8 February, four national organizations for disabled persons wrote to the Minister to denounce certain measures deemed to discriminate against persons living in IR-FTRs. This is what they had to say:

“[Translation] As the Minister surely knows, the Social Solidarity Program is enhanced each year. Since 2018, additional increases to SSP benefits have been added in pursuance of the Government Action Plan to Foster Economic Inclusion and Social Participation 2017-2023. Since February 2018, SSP recipients living in IR-FTRs had received \$1035 per month, from which the RAMQ deducted \$747 as a contribution of users. The amount left to users is the personal spending allowance, which was \$288 as at 1 February 2018. The calculation of the personal spending allowance is a topic that year after year creates a certain amount of concern among persons living in these resources and their families.

On 1 January 2019, a new increase in the SSP benefits occurred. For the first time, persons who had been SSP recipients for at least 66 months out of a total of 72 months were entitled to a greater increase than the other SSP recipients (increasing from \$1035 per month to \$1123 instead of \$1035 to \$1061 for the other recipients). This differentiated increase is linked to the gradual coming into force of the Basic Income Program, adopted unanimously by the National Assembly in 2018. It should be recalled that under its enabling legislation, the Basic Income Program concerns social inclusion and the economic participation of persons with a severely limited capacity for employment and that, as such, it is not last-resort financial assistance, which distinguishes it from the SSP.

Unfortunately, since 1 February 2019, the personal spending allowance of persons living in these resources has been reduced from \$288 to \$245 per month, regardless of whether or not they had been SSP recipients for 66 months out of 72 months. These persons therefore have become poorer in comparison with 2018, while the Government's efforts were intended to help them overcome poverty and improve their living conditions. At present, these efforts are instead being used to finance housing resources rather than to help the people themselves. It is difficult to understand such a contradiction between different State guidelines."

Accordingly, my questions to the Minister of Health and Social Services are the following:

- Does the Minister intend to reconsider her department's decision by increasing the minimum personal spending allowance threshold to ensure that persons living in IR-FTRs and who are SSP recipients will be entitled to the measures provided for in the Government Action Plan to Foster Economic Inclusion and Social Participation 2017-2023?
- Considering that a good number of persons living in these resources are seeking autonomy and not losing autonomy, how does the Minister justify cutting off a portion of their personal allowance, while this same amount is directly linked to these persons regaining the power to act?

- (39) Mrs. Fournier (Marie-Victorin) – **30 April 2019**  
To the Minister of Health and Social Services

A labour shortage as well as an endemic work overload have been plaguing the health sector for several years. Nurses are the first to be affected in their daily work and demand for their services continues to grow.

On 16 December 2015, the previous government adopted order-in-council 1072-2015. This order acknowledged the Ordre des infirmières et infirmiers auxiliaires du Québec's decision to create a special temporary status for candidates to the nursing profession (CEPIA). CEPIAs have been able to practice in public or private institutions under agreement and perform specific acts since its implementation.

Considering the current work overload in the health care sector, will the Minister commit to:

- Re-evaluating the authorizations and provisions concerning acts performed by Ordre des infirmières et infirmiers auxiliaires du Québec CEPIA individuals so as to maximize the public network's use of their newly acquired skills?
- Extending the number of institutions that are authorized to hire Ordre des infirmières et infirmiers auxiliaires du Québec CEPIA individuals?

- (40) Mrs. Fournier (Marie-Victorin) – **30 April 2019**  
To the Premier

The Lieutenant-Governor has the power to recommend bills introduced in the National Assembly.

We would like to have:

- A copy of each brief having led to the approval or refusal of the Lieutenant-Governor's recommendation of a bill during the 42<sup>nd</sup> Legislature;
- The documentation supporting this approval or refusal of a recommendation for each of the bills;
- A copy of each of the recommendations for bills during the 42<sup>nd</sup> Legislature;
- The number of hours and the financial and human resources involved in the approval or refusal of a recommendation.

(41) Mrs. Lessard-Therrien (Rouyn-Noranda–Témiscamingue) – **1 May 2019**  
To the Minister of Health and Social Services

On 10 April 2019, the Minister of Health and Social Services announced a reorientation of the OPTILAB project. This reform was intended to reorganize medical biology laboratories in health institutions. The Minister's announcement concentrates on general principles, referring in particular to the number of analyses sent to server laboratories without qualifying the scope. That being said, several questions remain.

It is with this in mind that the Alliance du personnel professionnel et technique de la santé et des services sociaux urged me to ask the Government:

1. What percentage of the analyses will actually be sent to the server laboratories?
2. The reorientation provides that several conditions will need to be met before any "significant" transfer of analyses takes place. What does the word "significant" mean?
3. What specific mechanisms does the reorientation intend to implement in institutions to improve communications about the project and when will they be put in place?
4. What specific mechanisms does this reorientation intend to establish so that medical technologists may henceforth be involved in the OPTILAB process and when will they be put in place?

5. Will this reorientation result in medical technologists—particularly those in the regions—losing their jobs? If so, by when and how will they be informed thereof?
6. What specific mechanisms does this reorientation contain to address the inherent work overload and burnout in this project and when will they be put in place?

(42) Mrs. Lessard-Therrien (Rouyn-Noranda—Témiscamingue) – **1 May 2019**  
To the Minister of Agriculture, Fisheries and Food

The Ministère de l'Agriculture, des Pêcheries et de l'Alimentation du Québec (MAPAQ) does not provide financial support to independent community organizations. The MAPAQ is therefore, along with the Ministère de l'Énergie et des Ressources naturelles and the Ministère du Tourisme, one of three departments that do not have any funding program for independent community organizations. In other departments, the amount set aside for these programs is approximately 1% of the department's overall budget.

It is with this in mind that the Union paysanne urged me to ask the Government:

- 1) When does the Minister of Agriculture, Fisheries and Food intend to establish a funding program for independent community organizations?
- 2) Which organizations does the Minister of Agriculture, Fisheries and Food intend to include in the funding program for independent community organizations?
- 3) What amount does the Minister of Agriculture, Fisheries and Food intend to invest in the funding program for independent community organizations?
- 4) Specifically, how does the Minister of Agriculture, Fisheries and Food intend to show his support to the independent community organizations under his jurisdiction?

(43) Mr. Ouellette (Chomedey) – **2 May 2019**  
To the Minister of Finance

The Minister is well aware of my interest in the protection of whistleblowers and the fight against corruption. I was mentioning this to him a few weeks ago while pointing out that several department employees were opposed to certain ways of doing things and had for the past few years condemned some of the Agence du revenu's practices.

Which general directorate is responsible for the Agence du revenu's whistleblower protection program?

During the 2018–2019 fiscal year, 42 tax auditors handed in their resignation and 5 were dismissed. I would like to know the reasons for these resignations and dismissals, considering that certain employees of the State are victims of reprisals in several Government departments and bodies.

Since the fight against corruption remains an important part of my political involvement, that I expressed my interest and concern in this regard to the Conseil du trésor in the implementation of a pilot project announced by the previous Government in June 2018, and since Revenu Québec is not a part of it;

I would like clarification on the awarding of two untendered professional services contracts, including the date, the content of the contract, who asked for it and from which general directorate and for what purpose these contracts were granted:

- Gestion Jean Bourdeau – Training in connection with the ISO37001 standard (anti-bribery management system) – \$3,600
- Accuracy Canada inc. – Securities rating – \$20,000

(44) Mrs. Nichols (Vaudreuil) – **8 May 2019**  
To the Minister of Municipal Affairs and Housing

Section 3 of the *Act respecting land use planning and development* (LUPD) provides that every regional county municipality (RCM) must maintain in force, at all times, a land use and development plan applicable to its whole territory.

These land use plans deal mainly with urbanization perimeters and flood risk mapping, two topical issues following the spring floods of 2017 and 2019.

Despite the efforts made in recent years, several RCMs still have so-called “first generation” land use plans whose adoption sometimes dates back thirty years.

Does the Minister intend to put in place an exceptional and accelerated support procedure for regional county municipalities to update their land use plans?

Can the Minister confirm the specific timeline for the updating of all so-called “first generation” land use plans?

To the Minister of Municipal Affairs and Housing

The 2014-2018 Québec tax gas funding program (TECQ) has expired.

This program makes available to Québec municipalities amounts arising from the revenues of the Federal gasoline excise tax and the Government of Québec’s contribution.

The details of the next version of the program for 2019-2023 are currently available for consultation at the municipal level. It is quite clear from this consultation that several municipalities are very concerned about the eligibility of municipal buildings to the program.

During the consideration of the 2019-2020 estimates of expenditure of the Ministère des Affaires municipales et de l’Habitation – Municipal Affairs component, reference was made, during an exchange between the Minister and the Member for Rousseau, to correspondence exchanged between the Government of Québec and the Federal Government regarding the renewal of the TECQ program.

For the sake of transparency, will the Minister of Municipal Affairs commit to providing Members with all of this correspondence as well as the terms that are currently the subject of consultations at the municipal level?

Likewise, will the Minister of Municipal Affairs provide us with the specific timeline of the TECQ program renewal for 2019-2023?

To the Minister of Municipal Affairs and Housing

The purpose of the Fonds pour l'eau potable et le traitement des eaux usées (FEPTEU) program is to accelerate municipal investments in the short term while supporting the implementation or the rehabilitation of drinking water, wastewater and rainwater infrastructures, as well as the planning and designing of future installations and upgrading of existing networks.

This program relies on \$363.8 million from the Federal Government and \$300 million from the Government of Québec. With an assistance rate of up to 83%, this program has been very popular among municipalities.

Unfortunately, the amounts set aside for the FEPTEU program have all been incurred, with the result that the program has closed.

As part of the 2011-2017 Québec strategy for drinking water conservation, 77% of Québec's municipalities achieved the leak reduction goal for their entire drinking water distribution network, which was a maximum of 20% of the total volume of water distributed. Despite these encouraging results, it is important to continue efforts in this direction.

Consequently, can the Minister indicate whether negotiations are underway with the Federal Government to renew the FEPTEU program, the Government's specific timeline and the main goals sought by the Government of Québec in the context of this negotiation?

Can the Minister also indicate whether she intends to develop or improve other programs in order to stimulate municipal investments in drinking water infrastructures?

To the Minister of Municipal Affairs and Housing

The Coalition avenir Québec Government made a commitment, in the recent election campaign, to transfer the equivalent of one percent of the Québec Sales Tax (QST) to municipalities, a commitment estimated at \$1.6 billion.

During the examination of the 2019-2020 estimates of expenditure of the Ministère des Affaires municipales et de l'Habitation – Municipal Affairs component, the Minister stated that the transfer of this one percent of the QST would be cost neutral. As a result, current programs and transfers set aside for municipalities will be abolished in order to make the amounts available to achieve this commitment.

Can the Minister release the analyses relevant to the transfer of one percent of the QST?

Can the Minister indicate which programs will be abolished to fund this commitment?

To the Minister of Families

On 20 February 2019, the Minister of Families announced that the development of 11,000 childcare places would be accelerated. The Minister affirmed having sent 400 letters to the promoters of projects that were already authorized to check whether they still intended to go ahead with their projects.

Can the Minister provide a list of the promoters who received his letter in February and indicate which ones have committed to implementing their project within a 24-month timeline, as requested by the Minister, while specifying the number of places, the type of childcare facility and the region in which it will be implemented?

Can the Minister also provide us with a list of the promoters who returned their places to the Ministère, indicating the number of places, the type of childcare facility and the region in which it was to be implemented, as well as a list of the promoters who have not replied to the Minister's request as of 14 May 2019?

To the Minister of Families

On 9 April 2019, during a press briefing on family-work-school balance, the Minister of Families stated that: “Families’ well-being and improving their living environments are priorities for our Government.”

Can the Minister provide us with all the documents, reports, situation reports, minutes, studies, notes or analyses produced by the Ministère de la Famille on family-work-school balance since 18 October 2018?

To the Minister Responsible for Seniors and Informal Caregivers

On 24 August 2018, the CAQ issued a press release stating that “a Coalition avenir Québec Government will undertake, during its first mandate, an extensive consultation with users, staff and architects to build some thirty Maisons des aînés and thus compensate for the lack of residential places.”

As a follow-up to this commitment to hold extensive consultations on the Maisons des aînés, we would like to have:

- the specified consultation method;
- the consultation period;
- the list of persons consulted, indicating their title and organization;
- the dates of the meetings;
- the agenda for the meetings;
- the documents or briefs tabled with reference to the Maisons des aînés.

- (51) Mrs. Sauvé (Fabre) – **15 May 2019**  
To the Minister Responsible for Seniors and Informal Caregivers

In the last election campaign, the Coalition avenir Québec promoted a major commitment by producing a video that states the following:

“The CAQ introduces a new concept intended to replace the dreaded CHSLDs: the Maisons des aînés.

We want to give to those who worked selflessly and who gave their all to build our society the welcoming, peaceful and comfortable living environment they so deserve.

The Maisons des aînés will be smaller seniors' homes equipped with air-conditioned rooms that will accommodate a maximum of 70 to 130 persons, including safe and lush circulation areas providing a comfortable place to live. The homes will have a human dimension, where meals will be adapted and sufficient staff will have time to take good care of their residents.

The Maisons des aînés, the project of a generation. To do more and better, now, for our parents and our grandparents”.

Can the Minister Responsible for Seniors and Informal Caregivers table a copy of the plan for the implementation of the Maisons des aînés to which she referred during the consideration of her department's estimates?

(52) Mrs. Sauvé (Fabre) – **15 May 2019**

To the Minister Responsible for Seniors and Informal Caregivers

Last 20 March in the Assembly, the Minister Responsible for Seniors and Informal Caregivers stated that she had asked for a population-based assessment to determine where the Government will establish the Maisons des aînés to fill the 2,600 places that the Government must make by 2021.

Can the Minister table a copy of the said population-based plan?

(53) Mr. Ouellette (Chomedey) – **15 May 2019**

To the Premier

The Minister of Public Security is aware of my passion for law enforcement, public security, the fight against criminal organizations and everything the latter represent: organized crime, drug trafficking, procuring and border security.

Our American neighbours also share this passion for safe communities and are taking the measures necessary to protect their population.

Everybody knows that, in Canada, tobacco trafficking is a serious issue that impacts health, security and tax revenues. Organized criminal groups participate in the production, distribution and sale of contraband cigarettes in all manner of formats, including the infamous and mind-boggling 200-cigarette “baggies”.

These contraband cigarettes are manufactured at the border limits between Québec, Ontario and the State of New York, in a border zone where jurisdictions are uncertain, where nighttime crossings are commonplace and where criminal activity is carried on with impunity.

While Québec is a leader in repressing tobacco contraband thanks to its dedicated unit, led by the Sûreté du Québec, and to the “ACCÈS Tabac” program implemented by Revenu Québec in partnership with our national and municipal police forces, Québec’s neighbours have done a poor job in this area. Ontario, New Brunswick and the rest of Canada are struggling with tobacco contraband issues that they are barely managing to control due to a lack of political will, means and expertise on the matter.

The Americans, however, have the political will to act. Tabled in the House of Representatives last month by the Democratic Representative for Texas Mrs. Sheila Jackson Lee and the Republican Representative for North Carolina Mr. Richard Hudson, Bill H.R. 1642 “Combating the Illicit Trade in Tobacco Products Act: To authorize actions with respect to foreign countries engaged in illicit trade in tobacco products or their precursors, and for other purposes” aims to put the screws on the countries that participate in or that are an important source of illicit tobacco, such as Canada.

The Prime Minister will soon travel to Washington DC to talk about the economy and trade. If the United States passes the Bill, I fear that it will undermine our credibility with the Americans as a reliable trade partner due to Canada’s lack of action and to the limited action taken by Ontario and New Brunswick on the issue, New Brunswick having, just last Wednesday, shut down its tobacco contraband-fighting unit.

As leader of the fight against tobacco contraband in Canada, does the Premier intend to make representations to the American leaders to alert them to the consequences that such exclusionary measures will have on trade with Québec?

Does the Premier intend to speak with his counterparts: the Premier of Ontario, the Premier of New Brunswick and the Prime Minister of Canada at the next Council of the Federation meeting in July 2019, so that they, too, may deploy efforts equaling ours to counter the burgeoning trade of illicit tobacco in our country?
