

NATIONAL ASSEMBLY

FIRST SESSION

THIRTY-SIXTH LEGISLATURE

Bill 124

**An Act to amend the Act respecting
municipal territorial organization and
other legislative provisions**

Introduction

**Introduced by
Madam Louise Harel
Minister of Municipal Affairs and Greater Montréal**

**Québec Official Publisher
2000**

EXPLANATORY NOTES

The bill provides for various measures to foster, in particular, the amalgamation of territories of local municipalities.

The Minister of Municipal Affairs and Greater Montréal is empowered to require, where authorized to do so by the Government, that certain local municipalities file with the Minister a joint application for amalgamation within the time prescribed. The bill provides that the Minister may appoint a conciliator to assist the municipalities in fulfilling that obligation. It also provides that if the Minister does not receive any application within the prescribed time, the Minister may request the appointed conciliator or, if there is none, the conciliator appointed by the Minister, to make a report on the situation.

The bill provides that the Minister may have the Commission municipale du Québec carry out an opportunity study in respect of amalgamations of municipal territories. The intervention of the Commission may be requested as well by local municipalities whose number and aggregate population are greater than half of the number and aggregate population of the local municipalities affected by the amalgamation. The bill indicates that the Commission must file a report in which it makes a recommendation concerning the amalgamation that was studied.

The Government is authorized to order, following the filing of the report of the conciliator or of the Commission containing the recommendation, the constitution of a local municipality resulting from the amalgamation of the territories of the local municipalities studied in the report.

The bill includes provisions to ensure expeditious determination of bargaining units and certified associations and to facilitate the resolution of difficulties arising from the simultaneous application of conditions of employment that differ for groups of employees of municipalities that ceased to exist on amalgamation or total annexation. It also establishes rules to facilitate the negotiation and signing of first collective labour agreements in the municipalities concerned.

The Minister of Municipal Affairs and Greater Montréal is authorized by the bill to request the Commission municipale du Québec to carry out a study for the purpose of determining the local or supralocal nature of equipment, a service or activity, the municipal body that is to be responsible for managing the equipment, service or activity, and how the related revenues and expenditures are to be shared. The Minister may, following the report of the Commission, request that the municipal bodies concerned enter into an agreement in relation to the equipment, service or activity. Failing an agreement, the Government may adopt any measure regarding the management and financing of the equipment, service or activity.

Lastly, the bill provides for adjustments to the equalization scheme in respect of certain municipalities.

LEGISLATION AMENDED BY THIS BILL :

- Act respecting the Commission municipale (R.S.Q., chapter C-35);
- Act respecting municipal taxation (R.S.Q., chapter F-2.1);
- Act respecting the Institut de la statistique du Québec (R.S.Q., chapter I-13.011);
- Act respecting municipal territorial organization (R.S.Q., chapter O-9).

Bill 124

AN ACT TO AMEND THE ACT RESPECTING MUNICIPAL TERRITORIAL ORGANIZATION AND OTHER LEGISLATIVE PROVISIONS

THE PARLIAMENT OF QUÉBEC ENACTS AS FOLLOWS :

ACT RESPECTING MUNICIPAL TERRITORIAL ORGANIZATION

1. The Act respecting municipal territorial organization (R.S.Q., chapter O-9) is amended by inserting the following division after section 125 :

“DIVISION IX

“INITIATIVES OF THE MINISTER OR OF LOCAL MUNICIPALITIES

“§1. — *Object*

“125.1. The object of subdivisions 2 to 4 is the constitution of local municipalities resulting from amalgamations, in particular as a means of achieving greater fiscal equity and of providing citizens with services at lower cost or better services at the same cost.

“§2. — *Time limit for the filing of a joint application*

“125.2. The Minister may, with the authorization of the Government and by means of a writing transmitted by registered or certified mail to certain local municipalities whose territories may be amalgamated, require the municipalities to file with the Minister a joint application for amalgamation within the time prescribed by the Minister.

For the purpose of assisting the municipalities in fulfilling the obligation to file such a joint application, the Minister may appoint a conciliator.

“125.3. If the joint application with any document the Minister may require is not received within the time prescribed, the Minister may request the conciliator appointed under section 125.2, or if there is no such conciliator, the conciliator the Minister appoints, to make a report to the Minister on the situation.

The conciliator shall submit the report within the time prescribed by the Minister, who may grant an extension.

“§3. — *Study by the Commission municipale du Québec*

“125.4. This subdivision does not apply in respect of the local municipalities whose territory is situated in any of the census metropolitan areas of Montréal, Québec and the Outaouais defined by Statistics Canada.

“125.5. The Minister may request the Commission municipale du Québec to carry out a study into the advantages and disadvantages of amalgamation as regards certain local municipalities whose territories may be amalgamated.

Such a request may also be made by local municipalities if their number and aggregate population are greater than half of the number and aggregate population of the local municipalities concerned.

The Commission shall transmit a copy of the request to every local municipality concerned, to every regional county municipality in which the territory of such a local municipality is situated and, where the request is made by local municipalities, to the Minister.

“125.6. Before commencing its study, the Commission shall publish a notice in a newspaper circulated in the territory of the local municipalities concerned stating

(1) that a request has been made and identifying the local municipalities concerned;

(2) the right provided for in section 125.7;

(3) the place to which the opinion referred to in section 125.7 must be sent.

“125.7. Any interested person may, within 30 days after publication of the notice, submit in writing to the Commission an opinion on the amalgamation in respect of which the request has been made.

“125.8. The Commission may hold a public hearing on the request.

“125.9. The Commission shall make a report to the Government containing a recommendation, with reasons, concerning the amalgamation it has studied.

The Commission shall transmit its report to the Minister.

“§4. — *Effects of initiatives on the local municipalities*

“125.10. Section 111 applies to any local municipality that receives the writing transmitted pursuant to section 125.2 or that is mentioned in the notice published pursuant to section 125.6, as of the day of receipt of the

writing or of publication of the notice, as if the local municipality were a party to a joint application for amalgamation the text of which is published on that day.

However, where the text of a joint application for amalgamation to which the local municipality is a party is published before or after the day referred to in the first paragraph, the day to be considered for the purposes of the application of section 111 is the day of publication of the text.

“125.11. The Government may, after the report of the conciliator or of the Commission containing a recommendation for amalgamation has been made, order the constitution of a local municipality resulting from the amalgamation of the territories of the municipalities referred to in the report, as if the municipalities had filed a joint application for amalgamation, and sections 113 to 125 shall apply.”

2. The said Act is amended by inserting the following section after section 173:

“173.1. The officers and employees of a municipality whose territory is annexed in its entirety shall become, without salary reduction, officers and employees of the annexing municipality and shall retain their seniority and employee benefits.

No officer or employee may be laid off or dismissed by reason of the annexation.”

3. The said Act is amended by inserting the following chapter after section 176:

“CHAPTER V.1

“EFFECTS OF AMALGAMATION OR TOTAL ANNEXATION ON LABOUR RELATIONS

“176.1. The purpose of this chapter is to ensure, in applying the Labour Code (chapter C-27), expeditious determination of bargaining units and certified associations following an amalgamation, to facilitate the resolution of difficulties arising, in particular, from the simultaneous application of conditions of employment that differ for the groups of employees of municipalities that ceased to exist on the amalgamation and to establish general rules concerning the negotiations and arbitration of disputes relating to the making of the first collective agreements to which the municipality resulting from the amalgamation is a party.

The provisions of the Labour Code apply with the necessary modifications to the extent that the provisions are not inconsistent with the provisions of this chapter.

“176.2. A comprehensive agreement on the description of the bargaining units may be made by the municipality resulting from the amalgamation, the associations certified in respect of the employees of the municipalities that ceased to exist on the amalgamation and, where applicable, any association of employees having presented, within the time applicable under any of paragraphs *c* to *e* of section 22 of the Labour Code (chapter C-27) and in respect of a group of employees of a municipality that ceased to exist on the amalgamation, an application for certification that is pending on the date of the coming into force of the order relating to the amalgamation.

No such agreement shall operate to include firefighters in a bargaining unit that is not composed exclusively of firefighters.

“176.3. The associations described in section 176.2 may agree on the designation of one of them to represent a group of employees covered by a bargaining unit described in an agreement made under that section.

“176.4. An agreement made under section 176.2 or 176.3 must be evidenced in writing and a copy of the agreement must be transmitted as soon as possible to the labour commissioner general.

“176.5. The labour commissioner to whom an agreement made under section 176.3 is referred shall certify the association designated in the agreement.

If, however, the agreement concerns a bargaining unit in which at least 40% of the employees were not represented by a certified association on the date of the coming into force of the order, the commissioner must ascertain the representativeness of the designated association before granting certification.

The labour commissioner shall render a decision within 120 days after the date of the coming into force of the order.

“176.6. If no agreement on the description of the bargaining units is made within the 30-day period following the date of the coming into force of the order, the municipality may make an application to the labour commissioner general requesting that a labour commissioner determine the description.

“176.7. During the 30-day period following the date of the coming into force of the order, only an association described in section 176.2 may solicit the employees of the municipality to join the association.

“176.8. An association described in section 176.2 may, within the 30-day period following the date of the coming into force of the order, make an application to the labour commissioner general requesting certification in respect of a group of employees of the municipality. However, where an agreement is made under that section, the application is receivable only if the group of employees it covers corresponds to a bargaining unit described in the agreement.

The application must be accompanied by a copy of the decision, if any, granting the certification, before the date of the coming into force of the order, to the association in respect of all or part of the group of employees covered by the association's request, or by the application for certification previously made for that purpose by the association before that date.

"176.9. Where the labour commissioner general considers it appropriate to do so, the labour commissioner general may at any time designate a person and request that person to attempt to bring the municipality and the associations concerned to agree on the description of the bargaining units and the associations concerned to agree on the designation of an association to represent a group of employees covered by a bargaining unit.

"176.10. The labour commissioner to whom an application made to the labour commissioner general is referred pursuant to section 176.6 or 176.8 shall render a decision within 120 days from the date of the coming into force of the order.

The labour commissioner's decision may, in particular, address a matter relating to the inclusion of persons in or the exclusion of persons from a bargaining unit.

Before rendering a decision, the labour commissioner shall allow the interested parties to make representations in the manner the labour commissioner considers appropriate. The labour commissioner is not bound to call the parties to a hearing.

The municipality and the association of employees having presented an application for certification in respect of the group of employees covered by a bargaining unit are the interested parties in relation to any matter concerning the description of the bargaining unit or the persons it covers.

In rendering a decision, the labour commissioner is bound by any agreement under section 176.2.

The labour commissioner general may, having regard to the circumstances and the interests of the parties, extend the time period provided for in the first paragraph.

"176.11. As of the date of the coming into force of the order,

(1) the following are terminated:

(a) any procedure to obtain certification in respect of a group of employees of a municipality that ceased to exist on amalgamation;

(b) any dispute arbitration and any negotiation to make, renew or review a collective agreement involving a municipality that ceased to exist on amalgamation;

(2) the conditions of employment of the employees concerned by the procedure, arbitration or negotiation are the conditions of employment maintained pursuant to section 59 of the Labour Code (chapter C-27); and

(3) the application of section 22 of the Code is, subject to section 176.8 of this Act, suspended as regards every group of employees of the municipality.

In the case of paragraph *a* of section 22, the suspension terminates 30 days after the date of the coming into force of the order; in the case of the other provisions of section 22, the suspension terminates nine months after the first anniversary of that date.

“176.12. Where an interested party makes a motion to the labour commissioner general seeking a ruling on a question or the settlement of a difficulty referred to in section 46 of the Labour Code (chapter C-27) arising out of the simultaneous application of conditions of employment that differ for the groups of employees of municipalities that ceased to exist on amalgamation, the labour commissioner general must give priority to the matter.

The labour commissioner to whom the matter is referred may make a ruling on the question or settle the difficulty in the manner the labour commissioner considers most appropriate. The decision of the labour commissioner cannot be appealed.

“176.13. As of the date of the coming into force of the order, the exercise by the employees of the municipality of their right to strike is suspended until the 90th day following either the receipt by the addressee of the notice referred to in section 176.15 or the date agreed upon between the parties under that section for the start of negotiations to make a collective agreement.

“176.14. Every collective agreement binding upon a municipality that ceased to exist on amalgamation expires on the date provided for its expiry or on the date of the first anniversary of the coming into force of the order, whichever is earlier.

Where a collective agreement expires on the latter date, the only conditions of employment to be maintained pursuant to section 59 of the Labour Code (chapter C-27) are the conditions of employment in force on that date.

“176.15. Unless the parties agree to start negotiations to make a new collective agreement on an earlier date, the notice provided for in section 52 of the Labour Code (chapter C-27) may not be given before the date of the first anniversary of the coming into force of the order and section 52.2 of the Code shall not apply in its respect.

Such an agreement must be evidenced in writing and a copy of the agreement must be transmitted as soon as possible to the Minister of Labour.

“176.16. At any time after a conciliator has intervened, a party to the negotiations to make a first collective agreement in respect of a group of employees of the municipality may request the Minister to refer the dispute to an arbitrator.

In such a case, the Minister may, where the Minister is of the opinion that the conciliator’s intervention has been unsuccessful, request the conciliator to make a recommendation to the parties in an endeavour to settle the dispute or may entrust an arbitrator with settlement of the dispute.

The recommendation of the conciliator must be submitted to the municipality for approval and be submitted to the group of employees concerned for a secret ballot to be held in accordance with the provisions of Division II of Chapter II of the Labour Code (chapter C-27).

The Minister may, if the recommendation is rejected by either party, entrust an arbitrator with settlement of the dispute.

Sections 75 to 78, 80 to 93, 93.2 and 93.4 to 93.7 of the Labour Code and sections 176.18 to 176.20 of this Act apply to the arbitration.

Notwithstanding section 92 of the Code, the arbitration award is binding upon the parties for a period of not more than three years.

“176.17. Section 176.16 does not apply to a dispute relating to the negotiation to make a first collective agreement for a group of employees made up of police officers or firefighters.

The settlement of such a dispute is governed by sections 94 to 99.4 and 99.7 to 99.9 of the Labour Code (chapter C-27) and by sections 176.18 to 176.20 of this Act.

“176.18. In making an award, the arbitrator must take into consideration, on the basis of the evidence collected at the inquiry, the conditions of employment of the other employees of the municipality, the conditions of employment prevailing in similar municipalities or in similar circumstances, the situation in Québec and the wage and economic prospects for Québec.

No arbitration award shall operate to guarantee a minimum workforce for a group of employees that did not have such a guarantee, to increase the minimum workforce guaranteed for a group of employees that had such a guarantee or to increase the workforce formed by the employees covered by the bargaining unit.

While in effect, no arbitration award shall operate, in harmonizing different conditions of employment applied to the employees covered by the award, to increase the total of the municipality’s annual expenditures related, in respect of those employees, to remuneration and to employee benefits of the following nature :

- (1) wages, bonuses, allowances and income replacement indemnities;
- (2) contributions of the municipality, as an employer, to pension plans and group insurance plans and to public plans such as health insurance, employment insurance and the Québec Pension Plan;
- (3) contributions paid to the Commission de la santé et de la sécurité du travail and to the Commission des normes du travail;
- (4) other employee benefits such as redemption of sick-leave days, vacation bonuses, moving costs, and free room and board.

“176.19. Where the arbitrator considers it appropriate to do so, the arbitrator may merge into the same pension plan all or part of the assets and liabilities of several plans in which the employees covered by the award are participating. In such a case,

- (1) sections 194 and 196 of the Supplemental Pension Plans Act (chapter R-15.1) do not apply to the merger, except for the third paragraph of section 196 which applies with the necessary modifications;
- (2) only the terms of the absorbing plan are, for matters concerning the allocation of surplus assets in case of termination of the plan, applicable to the members and beneficiaries of an absorbed plan.

“176.20. The provisions of the award relating to a pension plan shall operate to amend the plan and are binding, without condition, delay or formality, upon every person who has rights or obligations under the plan.

Where the award contains such provisions, the arbitrator shall transmit a copy to the administrator of the plan and to the Régie des rentes du Québec. The Régie shall register the award and notify the plan administrator.

“176.21. The Régie des rentes du Québec may fix the terms and conditions which, in addition to those of the arbitration award, apply to a merger under section 176.19. To ensure compliance with the terms and conditions it has fixed and with the provisions of the Supplemental Pension Plans Act (chapter R-15.1) that remain applicable, the Régie may also order the administrator of a pension plan affected by the merger to furnish to the Régie any document or information it considers necessary or to take any corrective measure it indicates.

“176.22. The provisions of this chapter apply, with the necessary modifications, in the case of a total annexation.

“176.23. The provisions of this chapter apply in the case of an amalgamation or a total annexation that comes into force before (*insert here the date corresponding to the fourth anniversary of assent to this Act*).”

4. Section 289 of the said Act, amended by section 13 of chapter 43 of the statutes of 1999, is again amended by inserting “except the provisions of

Chapter V.1 of Title II, which are under the administration of the Minister of Labour” after “Act” in the second line.

ACT RESPECTING THE COMMISSION MUNICIPALE

5. Section 6 of the Act respecting the Commission municipale (R.S.Q., chapter C-35), amended by section 65 of chapter 40 of the statutes of 1999, is again amended by replacing “the members” in the first line of the second paragraph by “each member”.

6. Section 7 of the said Act is amended by adding “where a matter has been referred to two or more members” after “Commission” in the first paragraph.

7. Section 24.2 of the said Act is amended by replacing “Notwithstanding section 7, arbitration” in the first line of the first paragraph by “Arbitration”.

8. The said Act is amended by inserting the following division after section 24.4 :

“DIVISION IV.1

“EQUIPMENT OF A SUPRALocal NATURE

“24.5. Where an application is made to the Minister by a local municipality owning equipment that may be used by citizens and ratepayers of local municipalities whose aggregate population is at least half of the population of the regional county municipality on whose council the mayors of those municipalities sit, the Minister may request the Commission to carry out a study for the purpose of determining, in particular, the local or supralocal nature of the equipment.

An application may be made to the Minister by a local municipality if such equipment is owned by one of its mandataries.

The Minister may, on the Minister’s own initiative and if in the Minister’s opinion negotiations to settle a dispute on the local or supralocal nature of such equipment have been unsuccessful, request the Commission to carry out the study provided for in the first paragraph.

“24.6. The Commission shall report to the Minister on completion of its study.

Where the Commission is of the opinion that the equipment is of a supralocal nature, its report must contain a recommendation stating which municipal body is to be responsible for managing the equipment.

In such a case, the report must determine the local municipalities that are to participate in the financing of the expenditures related to the equipment and in the sharing of the revenue generated by the equipment, and provide the rules enabling each municipality’s share to be established.

“24.7. If the Commission’s report states that the equipment is of a supralocal nature, the Minister may request the interested bodies to enter into an agreement on the management and financing of the equipment and to transmit the agreement to the Minister within the time prescribed.

For the purposes of the first paragraph, an interested body is

(1) the local municipality that owns the equipment or whose mandatory owns the equipment;

(2) the mandatory referred to in subparagraph 1;

(3) any other local municipality determined in the Commission’s report as a local municipality that is to participate in the financing of the expenditures related to the equipment and in the sharing of the revenue generated by the equipment;

(4) any other municipal body determined in the Commission’s report as a municipal body that is to be responsible for managing the equipment.

For the purpose of facilitating agreement among the interested bodies, the Minister may appoint a conciliator.

At the request of an interested body or of the conciliator, the Minister may grant an extension to enable an agreement to be reached and transmitted to the Minister.

“24.8. If a copy of the agreement is not received within the time prescribed, the Minister may request the conciliator appointed under section 24.7 or, if there is no such conciliator, the conciliator the Minister appoints, to make a report to the Minister on the situation.

“24.9. In the absence of an agreement, the Government may adopt any measure related to the management and financing of the equipment.

“24.10. The order comes into force on the day of its publication in the *Gazette officielle du Québec* or on any later date indicated therein.

The order may be revoked without a new study under section 24.5 being carried out in relation to the equipment.

“24.11. The Minister may, if new circumstances justify it, request the Commission to carry out a new study in respect of the equipment determined by the Minister.

“24.12. The provisions of this division also apply, with the necessary modifications, in respect of a service or an activity.”

ACT RESPECTING MUNICIPAL TAXATION

9. Section 261 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1), amended by section 133 of chapter 40 of the statutes of 1999, is again amended by replacing “every” in the third line by “a”.

10. Section 262 of the said Act, amended by section 133 of chapter 40 of the statutes of 1999, is again amended by inserting “declare a local municipality ineligible for payments under the scheme provided for in section 261 ;” after “category ;” in the eighth line of paragraph 7.

ACT RESPECTING THE INSTITUT DE LA STATISTIQUE DU QUÉBEC

11. The Act respecting the Institut de la statistique du Québec (R.S.Q., chapter I-13.011) is amended by inserting the following section after section 4 :

“4.1. Where the Government so requests, the Institut shall also inform the public on the comparative state and evolution of the total remuneration of the employees governed by a collective agreement of the municipalities and on the total remuneration of any other category of persons employed in Québec that it determines.”

TRANSITIONAL AND FINAL PROVISIONS

12. On or before 30 September 2000, every regional county municipality shall make an inventory of the equipment, services or activities at the disposal of the citizens or ratepayers of the local municipalities whose territory is situated in the territory of the regional county municipality and whose aggregate population is at least half of the population of the regional county municipality, and shall transmit to the Minister of Municipal Affairs and Greater Montréal any intermunicipal agreement relating to the financing of such equipment, services or activities.

The Minister may, at the request of a regional county municipality, grant an extension to enable the inventory to be made and any agreement to be transmitted to the Minister.

If no agreement is received within the time prescribed, the Minister may request the Commission municipale du Québec to make such an inventory. In such a case, sections 24.6 to 24.12 of the Act respecting the Commission municipale (R.S.Q., chapter C-35), enacted by section 8, apply as if the inventory were a study carried out under section 24.5 of that Act.

13. The Government shall establish a list of local municipalities from among those to which Volet I of the Politique de consolidation des communautés locales applies.

The following municipalities shall not be included in that list :

(1) a municipality that adopted, before 1 July 1999, a resolution by which, in the opinion of the Government, it has signified its true intention of being a party

to a joint application for amalgamation the text of which was to be published, in accordance with section 90 of the Act respecting municipal territorial organization (R.S.Q., chapter O-9), not later than 15 September 1999;

(2) a municipality that was a party to a joint application for amalgamation which, in the opinion of the Government, is consistent with the objectives of the Politique de consolidation des communautés locales and the text of which was published not later than 1 December 1999;

(3) a municipality whose territory is situated in a census agglomeration or a census metropolitan area defined by Statistics Canada.

For the purpose of determining the true intention of the municipality, the Government may consider any acts or omissions, even those subsequent to the adoption of the resolution referred to in subparagraph 1 of the second paragraph, of members of the council.

14. For a municipality included in the list and a local municipality whose territory is situated in a census agglomeration or a census metropolitan area, other than those listed in the schedule, the equalization amount referred to in section 17 or 23, as the case may be, of the Regulation respecting the equalization scheme, made by Order in Council 1087-92 (1992, G.O. 2, 4065), is deemed to be

(1) for the fiscal year 2001, an amount equal to 50% of the amount established in accordance with section 16 or 22 of the said regulation, as the case may be; and

(2) for any subsequent fiscal year, nil.

Subject to the third paragraph, where the territory of a municipality included in the list is subsequently amalgamated or is annexed in its entirety, the municipality resulting from the amalgamation or the annexing municipality is not affected, notwithstanding section 114 or 166 of the Act respecting municipal territorial organization (R.S.Q., chapter O-9), by the operation of the first paragraph.

For the purposes of the first paragraph, where a municipality resulting from an amalgamation has a territory situated in a census agglomeration or a census metropolitan area, or has annexed such a territory in its entirety, the municipality is deemed to be a local municipality whose territory is situated in such an agglomeration or area. That presumption applies until the amalgamation or annexation is reflected in the data compiled by Statistics Canada.

15. The amount of the equalization payment payable to a municipality for a fiscal year shall be computed on the basis of the list and the data compiled by Statistics Canada as they exist on 15 July of that fiscal year.

16. This Act comes into force on *(insert here the date of assent to this Act)*.
