The purpose of this bill is to improve support to entrepreneurs and farmers in relation to mental health.

To that end, the bill amends the Act respecting Investissement Québec in order to, in particular, ensure that Investissement Québec offers guidance services at each of its offices for the available mental health resources.

Furthermore, the bill provides for the establishment of a committee responsible for advising the Minister of Economy and Innovation and the Minister of Agriculture, Fisheries and Food on the support measures to be offered to entrepreneurs and farmers to promote their mental health. It also provides for the creation of such committees for every administrative region of Québec, to study the mental health needs of entrepreneurs and farmers in those regions.

The bill also establishes the Fund to Promote Farmers' Well-Being and the Fund to Promote Entrepreneurs' Well-Being, dedicated to financing the implementation and management of measures and programs to promote the well-being of farmers and entrepreneurs respectively. The bill also provides that these funds may be used to grant financial assistance to a person or body that promotes the development of mental health support services for entrepreneurs and farmers.

Lastly, the bill amends the Act respecting the Ministère de l'Agriculture, des Pêcheries et de l'Alimentation so that its mission includes seeing that farmers obtain adequate mental health support. In addition, the Act respecting the Ministère de l'Économie et de l'Innovation is amended so that its mission is also to implement measures to promote entrepreneurs' physical and psychological well-being.
