BUSINESS STANDING IN THE NAME OF MEMBERS IN OPPOSITION

(58) 10 November 2020

Motion by the House Leader of the Second Opposition Group

THAT the National Assembly acknowledge the scientific advances on the topic of COVID-19 aerosol transmission and note that this risk factor is now officially recognized by Health Canada;

THAT it be concerned about statistics showing that a significant portion of COVID-19 outbreaks have occurred in school environments;

THAT it recognize that a majority of schools in Québec are in poor to very poor condition, which, among other things, results in inadequate ventilation;

THAT it take note that proper ventilation of indoor spaces is one of the best means, along with mask wearing, to combat aerosol transmission;

THAT it ask the Government to take all necessary measures to make Québec schools safer;

THAT, to that end, the National Assembly call on the Québec government to provide CO2 detectors and portable air purifiers to all classes as soon as possible and wherever necessary.

Part 5

WRITTEN QUESTIONS

*Questions already placed on the Order Paper
are published each Wednesday*

- (166) Mr. Zanetti (Jean Lesage) – **17 September 2020**
To the Minister of Health and Social Services

On 18 August 2020, the Government announced a \$106 M investment in public health.

To hire 1,000 new full-time employees in the Public Health Directorate in order to increase tracing capacity in preparation for the second wave. Their work will involve responding to outbreaks and conducting contact investigations of infected individuals.

My questions for the Minister are the following:

For each CISSS-CIUSSS:

- How many individuals were assigned to this task as of 1 March 2020?
- How many individuals were assigned to this task as of 17 August 2020, before the announcement on 18 August 2020?
- Between 18 August and 15 September, how many individuals were hired and began working?

- (173) Mr. Gaudreault (Jonquière) – **8 October 2020**
To the Minister of Finance

We have received a citizen's testimony regarding certain aspects of exchange traded funds, mutual funds and defined contribution pension funds—aspects that he considers to be anomalies. In his opinion, certain income distributions (capital distributions, capital gains and dividends) are not made. We can provide all the documents supporting his claims.

The issue we want to bring to the Minister of Finance's attention is the transparency of discount brokerage firms and financial institutions. The current regulations allow these institutions to display only certain information on the detailed statements sent to investors and retirees, which makes it more difficult

to monitor the different movements of capital in their accounts. Discount brokerage firms and financial institutions therefore seem able to avoid displaying certain amounts that, often, would be relevant for investors and retirees to know. This situation is all the more worrisome in that it potentially affects a large number of people who do not regularly monitor their investments or pension funds. For example, it is not possible to know the income distribution details, whether it be regarding capital distributions, capital gains, Canadian-source interest income or dividends.

Given this situation, our questions to the Minister of Finance are as follows:

Will the Minister of Finance commit to shedding light on these aspects of exchange traded funds, mutual funds and defined contribution pension funds?

(174) Mr. Arcand (Mont-Royal–Outremont) – **21 October 2020**
To the Minister of Transport

Ever since the "pausing" last fall, many public transit authorities have experienced a major decline in ridership. For example, the Réseau de transport de la Capitale (RTC), the Société de transport de Lévis (STLévis), the Société de transport de Montréal (STM) and numerous others have seen their ridership cut in half compared to last fall. The Autorité régionale de transport métropolitain (ARTM) is currently expecting below-average ridership until at least 2021. In light of the government's upcoming decisions, the second wave and its potential complications, it would appear that this trend will continue.

The pandemic has forced citizens to rethink their habits. Many have doubts and are afraid of being infected, and they prefer to drive their cars alone. According to one survey, 75% of Québec's public transit users plan to go back to buses once the crisis is over, while 25% say they will never take a bus again. According to the experts, after a breakdown of trust in public transportation, for example as in the case of the Madrid and Brussels attacks, it takes approximately one year to return to similar levels of ridership.

The overall decline has caused financial losses, which have been amplified because similar service levels have been maintained. In the greater Montréal region alone, there is a shortfall of nearly \$870 million over three years. For example, since the start of the pandemic, the STM has lost around \$75 million each month. For the future, the ARTM has asked the STM to review its expenses, reduce its services and reconsider its plan to acquire 300 vehicles due

to a 60% drop in ridership and expert forecasts predicting that it will be several years before business picks back up again.

The questions are as follows:

- 1- The Minister has announced assistance to offset operating losses, so will he ask the STM to reconsider its bus acquisition plan, in order to ensure that the delivery cycle and fleet expansion are more in sync with the resumption of business?
- 2- The STM intends to hire 200 drivers, which will only increase its future operating losses. Can the Minister commit to compensating the agency for the upcoming shortfall with respect to the new services?
- 3- Considering the collapse of public transit throughout Québec and the increasing use of cars, what is the Minister's strategy for public transportation?

(175) Ms. Ghazal (Mercier) – **22 October 2020**

To the Minister of Labour, Employment and Social Solidarity

The organization RightOnCanada and the Canadian Association of Physicians for the Environment called on the Premier by sending him a letter dated 21 September 2020, for the second time in the past year, to share their concerns regarding the actions of the International Chrysotile Association (ICA), an asbestos lobby group registered in Québec as a non-profit organization. I share the concerns of these experts and scientists, and I want to discuss them with you.

First, not a single member of the ICA board of directors resides in Québec, which is contrary to the *Companies Act*. Further, while asbestos has been scientifically shown to be a carcinogenic substance and has been banished in some fifty countries, the ICA continues to promote it all over the world as a safe product and which can be used in the form of cement in the construction of buildings, including schools.

Let us also recall that the BAPE inquiry commission on the state of affairs and management of asbestos and asbestos mining residues submitted to the Government last July asks the Government to take various measures to protect the public's health and safety against the harmful effects of asbestos. While we want to protect the general public and Québec workers, we also have a moral obligation to protect the populations in developing countries. However, the fact

that the ICA, whose members' have practices that put the health and safety of the world's most vulnerable populations at risk, is associated with Québec by having its head office here, tarnishes our reputation on the international stage.

The ICA is registered in Québec as a non-profit organization. However, on the website of the Ministère du Travail, de l'Emploi et de la Solidarité sociale, it clearly indicates that a non-profit organization is a group of natural persons who pursue a moral or altruistic goal and who do not intend to make any monetary gains to be shared among its members.

If we examine the actions of the ICA, it does not pursue either moral or altruistic goals.

- Have you or has a member of your office ever held meetings with the ICA? If so, on which dates and what were the subjects discussed at these meetings?
- Do you intend to order an administrative inquiry into whether ICA's constitution as a non-profit organization is compliant with the *Companies Act*? If the inquiry reveals that the ICA is non-compliant, will you take appropriate legal action?

(176) Mr. Leduc (Hochelaga-Maisonneuve) – **22 October 2020**
To the Minister of Education,

The sustainability of funding popular education centres (InterCEP), while fully respecting their mission and the principle of autonomous community action, has been a longstanding demand since the creation of PACTÉ. During a telephone meeting with the Member for Hochelaga-Maisonneuve on 30 June 2020, you affirmed your willingness to resolve the main issues before the start of the 2020 school year, namely, the payment of operating costs and the sustainability of CEP funding. Given that the timeline was exceeded and the lack of funds, last week we learned that InterCEP members have decided to suspend payment of their operating costs.

During a recent telephone discussion with Diane Dupuis, spokesperson for InterCEP, your political attaché Sophie Côté informed her that the operating costs for this year would be adopted at a meeting of the Secrétariat du Conseil du trésor on Tuesday, 20 October 2020. We received confirmation of this yesterday. We welcome this first step, which demonstrates your commitment to this issue. However, it remained vague as to the sustainability of CEP funding.

Considering the above:

- 1- Can the Minister reaffirm his commitment to resolving InterCEP's longstanding demands, as was done during his meeting with the Member for Hochelaga-Maisonneuve, particularly regarding the sustainability of its funding?
- 1- If this is still the will of the Minister, and since the deadline for the start of the 2020 school year has passed, what timetable does he recommend to resolve this issue that is in line with CEPs' mission and the principle of autonomous community action?

(177) Ms. Lessard-Therrien (Rouyn-Noranda–Témiscamingue) – **28 October 2020**
To the Minister of Forests, Wildlife and Parks

On 24 July of this year, the Ministère des Forêts, de la Faune et des Parcs (MFFP) announced that it had signed a service agreement with Sécurité Nature. Among other things, the agreement provides for changes in the offering of courses for Québec hunters. Thus, since August 2020, the two introductory hunting courses may be completed entirely on-line. Also, the Practical Bow Test has been eliminated as a requirement for successfully completing the Introduction to Hunting with a Bow or Crossbow course.

A number of stakeholders and hunting specialists in Abitibi-Témiscamingue have raised concerns about the provisions of this new training framework. For example, that eliminating the Practical Bow Test would be comparable to eliminating driving lessons and could have harmful consequences, including:

1. an increase in the number of inexperienced hunters who will go hunting without necessarily being fully prepared or qualified;
2. an increase in the number of accidents and injuries due to poor arms use;
3. an increase in the number of animals slain incorrectly or unnecessarily injured.

My questions to the Minister of Forests, Wildlife and Parks are as follows:

1. What are the reasons behind eliminating the Practical Bow Test?
2. Have analyses or studies been carried out to assess the potential impact of

this decision, including the possible impacts on animal herd populations?

3. Were Indigenous communities consulted and involved in the process leading to this decision?

(178) M. LeBel (Rimouski) – **29 October 2020**
to the Minister of Municipal Affairs and Housing

On 6 October 2020, the governments of Canada and Québec announced they had entered into an agreement for nearly \$3.7 billion over 10 years for housing. If we look at the terms of that agreement, it “provides for total federal funding of \$1.84 billion and involves a financial commitment from Québec equivalent to the federal commitment for the three components covered by the Agreement:

- \$272.25 M for the “Quebec Priorities” component;
- \$1.12 B for the “Canada Community Housing Initiative” component; and
- \$454.3 M for the “Canada Housing Benefit” component.”

We understand that the shared objective of the agreement is to reduce the number of households in housing need. However, we would like to clarify the following points:

- As concerns the \$272.25 M, how does the government of Québec intend to break down that sum according to “Quebec’s priorities”, and how many housing units in addition to those already announced does it intend to build?
- Given that the Canadian government’s National Housing Strategy was developed on the basis of a Gender-Based Analysis Plus (GBA+), that it was included in the Federal Plan for Gender Equality and that it therefore allowed 25% of the sums earmarked for the Strategy to be directed to projects targeting the special needs of women, girls and their families, will these targets remain among the priorities established by Québec? If so, how will the sums be allocated, and will you conduct a Gender-Based Analysis from an intersectional perspective (GBA+) in the programs, policies and actions funded by these sums for social housing?

To the Minister of Transport

During meetings held with municipalities in my riding, two main issues were raised with regard to the transportation network: insufficient financial assistance for the maintenance of local roads and concerns about safety in certain sectors.

Since the responsibility for local roads was transferred in 1993 from the Ministère des Transports (MTQ) to the municipalities, local road network maintenance has been weakened due to a lack of indexation of the amounts provided for under the Programme d'aide à la voirie locale, with the exception of an investment included in the 2018 budget. The problem is exacerbated in the regions, where rural municipalities have difficulty benefiting from the program, mostly because they have to compete with the needs of larger cities. For some small municipalities, the program represents the only assistance available for local road network maintenance.

In addition, the transport department's network encompasses local municipalities in which a variety of user needs coexist, such as schools, local services, residential sectors. In these communities, the most vulnerable users (pedestrians and cyclists) sometimes develop a sense of insecurity. Some municipalities in my riding turned to the Minister's department to lower the speed limits or to add a pedestrian crossing or a beacon, only to be told that the road situation met the norms in place and thus that no intervention was necessary. I have therefore respectively concluded, Minister, that there is at times a huge divide between Transports Québec's norms and what is actually experienced on the ground.

My questions are as follows:

1. Do you plan on significantly increasing the budget of the Programme d'aide à la voirie locale and what assistance do you intend to give municipalities for their road network maintenance?
2. What actions could be taken to improve users' sense of safety in communities when your department deems that there is no such problem?
