WRITTEN QUESTIONS

*Questions already placed on the Order Paper
are published each Wednesday*

(173) Mr. Gaudreault (Jonquière) – **8 October 2020**
To the Minister of Finance

We have received a citizen's testimony regarding certain aspects of exchange traded funds, mutual funds and defined contribution pension funds—aspects that he considers to be anomalies. In his opinion, certain income distributions (capital distributions, capital gains and dividends) are not made. We can provide all the documents supporting his claims.

The issue we want to bring to the Minister of Finance's attention is the transparency of discount brokerage firms and financial institutions. The current regulations allow these institutions to display only certain information on the detailed statements sent to investors and retirees, which makes it more difficult to monitor the different movements of capital in their accounts. Discount brokerage firms and financial institutions therefore seem able to avoid displaying certain amounts that, often, would be relevant for investors and retirees to know. This situation is all the more worrisome in that it potentially affects a large number of people who do not regularly monitor their investments or pension funds. For example, it is not possible to know the income distribution details, whether it be regarding capital distributions, capital gains, Canadian-source interest income or dividends.

Given this situation, our questions to the Minister of Finance are as follows:

Will the Minister of Finance commit to shedding light on these aspects of exchange traded funds, mutual funds and defined contribution pension funds?

Will the Minister of Finance commit to amending the regulations in force to increase transparency in the statements issued by brokerage firms and financial institutions, and require that the brokerage firms and financial institutions display all capital movements on the detailed statements for investors and retirees?

(175) Ms. Ghazal (Mercier) – **22 October 2020**

To the Minister of Labour, Employment and Social Solidarity

The organization RightOnCanada and the Canadian Association of Physicians for the Environment called on the Premier by sending him a letter dated 21 September 2020, for the second time in the past year, to share their concerns regarding the actions of the International Chrysotile Association (ICA), an asbestos lobby group registered in Québec as a non-profit organization. I share the concerns of these experts and scientists, and I want to discuss them with you.

First, not a single member of the ICA board of directors resides in Québec, which is contrary to the *Companies Act*. Further, while asbestos has been scientifically shown to be a carcinogenic substance and has been banished in some fifty countries, the ICA continues to promote it all over the world as a safe product and which can be used in the form of cement in the construction of buildings, including schools.

Let us also recall that the BAPE inquiry commission on the state of affairs and management of asbestos and asbestos mining residues submitted to the Government last July asks the Government to take various measures to protect the public's health and safety against the harmful effects of asbestos. While we want to protect the general public and Québec workers, we also have a moral obligation to protect the populations in developing countries. However, the fact that the ICA, whose members' have practices that put the health and safety of the world's most vulnerable populations at risk, is associated with Québec by having its head office here, tarnishes our reputation on the international stage.

The ICA is registered in Québec as a non-profit organization. However, on the website of the Ministère du Travail, de l'Emploi et de la Solidarité sociale, it clearly indicates that a non-profit organization is a group of natural persons who pursue a moral or altruistic goal and who do not intend to make any monetary gains to be shared among its members.

If we examine the actions of the ICA, it does not pursue either moral or altruistic goals.

- Have you or has a member of your office ever held meetings with the ICA? If so, on which dates and what were the subjects discussed at these meetings?
- Do you intend to order an administrative inquiry into whether ICA's constitution as a non-profit organization is compliant with the *Companies Act*? If the inquiry reveals that the ICA is non-compliant, will you take appropriate legal action?

(179) Ms. Lessard-Therrien (Rouyn-Noranda–Témiscamingue) – **3 November 2020**
To the Minister of Transport

During meetings held with municipalities in my riding, two main issues were raised with regard to the transportation network: insufficient financial assistance for the maintenance of local roads and concerns about safety in certain sectors.

Since the responsibility for local roads was transferred in 1993 from the Ministère des Transports (MTQ) to the municipalities, local road network maintenance has been weakened due to a lack of indexation of the amounts provided for under the Programme d'aide à la voirie locale, with the exception of an investment included in the 2018 budget. The problem is exacerbated in the regions, where rural municipalities have difficulty benefiting from the program, mostly because they have to compete with the needs of larger cities. For some small municipalities, the program represents the only assistance available for local road network maintenance.

In addition, the transport department's network encompasses local municipalities in which a variety of user needs coexist, such as schools, local services, residential sectors. In these communities, the most vulnerable users (pedestrians and cyclists) sometimes develop a sense of insecurity. Some municipalities in my riding turned to the Minister's department to lower the speed limits or to add a pedestrian crossing or a beacon, only to be told that the road situation met the norms in place and thus that no intervention was necessary. I have therefore respectively concluded, Minister, that there is at times a huge divide between Transports Québec's norms and what is actually experienced on the ground.

My questions are as follows:

1. Do you plan on significantly increasing the budget of the Programme d'aide à la voirie locale and what assistance do you intend to give municipalities for their road network maintenance?
2. What actions could be taken to improve users' sense of safety in communities when your department deems that there is no such problem?

(182) Mr. LeBel (Rimouski) – **24 November 2020**

To the Minister of Labour, Employment and Social Solidarity,

On 15 November, the Minister of Health and Social Services and the Minister Responsible for Seniors and Informal Caregivers announced additional investments of \$100 million for the coming year and \$65 million for the following five years, amounts that are to be used to improve home services and care. Of these amounts, around \$10 million will be allocated to improving the conditions of workers in the sector. The minimum hourly wage, which is currently \$14.25, will increase to \$16.00.

This increase of \$1.75 per hour is a first step, but it is important to remember that there is a significant wage gap between the public and private sector for the same job as a personal care attendant; this has caused labour availability issues for years. In fact, with the recent increases that have been granted, level-one personal care attendants working in CHSLDs and hospitals now earn \$20.55 per hour.

For the well-being of the elderly, the sick, those who must deal with a temporary or permanent disability as well as caregivers, it is essential to find a way to reduce the significant wage gap between essential workers in the public and private sectors. In this regard, the Member for Rimouski has repeatedly called for the establishment of a collective agreement decree so that we can legislate on the conditions of workers in the home care sector.

We would therefore like to ask the Minister of Labour, Employment and Social Solidarity the following questions:

- Will the Minister quickly put in place a collective agreement decree to establish the minimum conditions of employment—that is, conditions equal to those of public workers—for home care attendants and private nursing home attendants? Can we expect this decree in 2021?
- When interviewed, the Minister’s press secretary said “[...] that different avenues are being explored. It’s important to improve working conditions for the dedicated employees in these sectors. To do this, we must analyze the various means available to us.” Could you tell us what are these different means, what are the objectives for improving the working conditions of these employees as well as the expected timeframe?

To the Minister of Culture and Communications

What amounts have been disbursed by the Ministère de la Culture et des Communications since 10 March 2020 to support artists under the La culture à l’école program and who are the beneficiaries?

How many students have been affected by the measure, broken down by region and by grade level?

How many schools were visited by region?

How many different artists participated in the measure, by region?

How much money has been invested to promote the measure to artists?

How much money has been invested to promote the measure in schools?

To the Minister of Immigration, Francization and Integration

As part of the Program for Refugees Abroad, a collective sponsorship program, many Québec citizens and residents turn to organizations to sponsor refugees by committing to facilitate their integration and cover costs related to their establishment.

There were some problems with this program during the most recent application period last January.

On 28 October, the Minister put an end to a tradition of collaboration between the Ministère de l'Immigration, de la Francisation et de l'Intégration and sponsoring organizations. The Minister has discredited all of the organizations and groups sponsoring refugees in Québec and decided to exclude all organizations from the collective sponsorship program for the year 2021. This decision will increase wait times that are already too long.

My questions for the Minister are as follows:

- What actions will the Minister take to renew the dialogue and take into account the needs of refugees under the sponsorship program?
- Why prohibit all sponsoring organizations from submitting applications in 2021, when only a few organizations are under investigation?

To the Minister of Labour, Employment and Social Solidarity

The 2017–2023 Government Action Plan to Foster Economic Inclusion and Social Participation provided for increasing the benefits of all last-resort financial assistance programs up to a certain percentage of the Market Basket Measure (MBM), i.e. 55.1% for Social Assistance, 77.6% for Social Solidarity, and 90.1% for Social Solidarity 66/72.

However, Statistics Canada has just revised the MBM so that the amount to cover the basic needs of a person living alone in Montreal has gone from \$17,820 to \$20,080 (2018 base).

In this context, the MBM coverage percentages of the different programs is evidently not the same.

My questions for the Minister of Labour, Employment and Social Solidarity are as follows:

- Does the Minister intend to adjust the amount of the benefits paid under these programs so as to maintain the planned MBM coverage percentages?
- If not, can the Minister explain why these coverage percentages were initially considered relevant, but no longer now?

To the Minister of Immigration, Francization and Integration

The pandemic and the reform of the Programme de l'expérience québécoise (PEQ – Québec experience program) have resulted in significantly longer processing times to obtain a Québec selection certificate (CSQ). The processing times have increased from 25 days to more than 6 months, leading to increasingly intolerable situations for those who hope to obtain a CSQ to pursue their dream of settling in Québec.

In addition to the much longer processing times, we have seen an increase in the number of applications returned to applicants where the Ministère de l'Immigration, de la Francisation et de l'Intégration (MIFI) refers to the absence of documents or an inability to collect the processing fees. Returning these applications obviously causes additional delays. We understand that the MIFI cannot process incomplete applications, but when this department requests documents to update a file that was already complete when it was received six months earlier, it is hard for us to understand how immigration candidates can be penalized for delays that the MIFI is responsible for. We would also like to point out that the COVID-19 context has made it more difficult to obtain these non-essential documents because some people have lost their job, been laid off or have an implied status.

For these people, the processing of their case is urgent and critical for them to return to a sense of normalcy. In fact, the CSQ is required to establish permanent residency in Québec and, in many cases, to renew a work permit while waiting to obtain permanent residency. Similarly, we are concerned to see immigration applications rejected due to a lack of rigour by the MIFI, which loses track of items that have been properly mailed by immigration candidates in a timely manner, as mentioned by the Québec Ombudsperson in her 2019–2020 report.

We have also found that the mechanism for payment of fees, which requires the availability of \$812 for a continuous period of six months, is not suitable for a context where many are in difficult financial situations.

In light of these real-life situations we have heard through citizens' requests at riding offices, the questions for the Minister are as follows:

- Will the Minister commit to accelerating application processing by hiring additional agents?
- Will the Minister also commit to mitigating the impacts of increased processing times, in particular by ensuring that there will be no further delays due to requests for documents to update files that were already complete when the application was filed by the immigration candidate?
- Will the Minister commit to ensuring more flexible and human processing of immigration applications, in particular by allowing immigration candidates to provide the missing or lost documents to the MIFI by email, as recommended by the Ombudsperson in her 2019–2020 report?
- Will the Minister commit to ensuring flexible processing for the payment of required fees, so that this is no longer a reason for returning an entire application?
- What concrete action will the Minister take to address the findings outlined in the Québec Ombudsperson's 2019–2020 annual report, which are that the Department clearly displays administrative rigidity regarding its rules, a lack of openness regarding the candidates' version, and very little empathy regarding the individual and family issues at stake?

- With the prospect of an extended health emergency and in relation to the government's 2019–2023 digital transformation strategy, will the Minister also commit to modernizing the method for receiving PEQ applications by developing an online platform to reduce the processing times and mailing fees resulting from these back-and-forths?

To the Minister of Health and Social Services

With regard to the directive issued by the Ministère de la Santé et des Services sociaux that paramedics not resuscitate people in cardiac arrest:

When did the Minister become aware of the directive?

On what legal basis was the directive issued?

Why was the directive maintained beyond what was necessary, that is, until 21 September 2020?

Why was this directive, unlike the 260 other directives issued last spring, never published on a government website?

Was the directive reassessed between 4 April and 21 September, by who, and how many times?
