(231) Mr. LeBel (Rimouski) – **22 April 2021**
To the Government

Considering the historically low vacancy rate in the Rimouski CMA (0.9% according to the most recent CMHC statistics) and considering the market reality observed through negotiations with the majority of private property-owners participating in the Rent Supplement Program (RSP), it is possible that any of a number of problems related to the lack of available affordable housing may arise in the coming months, specifically in Rimouski's urban sector. We are headed straight for a July 1st crisis.

Also, in the current context, it is foreseeable and probably that housing problems could arise because some households will not qualify as eligible applicants with the Office d'habitation Rimouski Neigette (OHRN). And that the OHRN would then have few resources to participate in the resolution of these issues, except for temporary last-resort assistance (e.g. in a situation where someone is experiencing homelessness).

Since 1 July 2020, the OHRN and its partners have seen a significant increase in homelessness. Notably, some citizens lived in tents or seasonal dwellings, and with the arrival of winter some required emergency assistance. Although the OHRN was able to provide support to a number of such applicants experiencing difficulties, it and its partners noted that some of those citizens experiencing difficulties did not meet the criteria for available social housing programs.

Options are limited in such situations. Partners offering temporary sheltering have often been overwhelmed by demand, because transitional housing (1 and a half, studio) on the market is all already fully occupied. Organizations working in the housing sector in neighbouring RCMs have confirmed that they are experiencing the same problem (extremely low vacancy rate for affordable housing, pressure on the rental and real estate market due to positive migration, and a lack of options for citizens who need larger dwellings).

In addition, this housing scarcity raises concerns that the already precarious situation experienced by low- and modest-income renter households could deteriorate even further, as average rent prices continue to increase. The average monthly rent for a three-bedroom dwelling increased by 5.7% over one year, while the CPI increased by only 0.8%. The various partners involved in the provision of social housing are concerned that in the current context renter households forced to move may simply not find an affordable place to move to. These are all citizens who need social housing right now but are being forced to wait for months, if not years.

It is therefore important that those involved in this field come up with a comprehensive solution for citizens who are not eligible for social housing, or who are eligible but find themselves on a long waiting list, and as a result are falling through the cracks. Various partners, including public health authorities, social services, municipalities and their various partners are assuming their responsibilities as best they can, but the reality is Rimouski needs at least 305 additional housing units.

My question is threefold:

Given the situation with regard to the housing crisis in Québec, where are the 15,000 housing units the CAQ government promised would be built?

Given the rise in housing prices in Québec, are there any means that will be put in place to avoid speculation and the unacceptable increase in the cost of housing?

Will municipalities and community partners receive any special assistance to deal with what is looming on July 1st and the shortage of affordable housing that is apprehended?
