WRITTEN QUESTIONS

*Questions already placed on the Order Paper
are published each Wednesday*

(238) Mr. LeBel (Rimouski) – **27 May 2021**
To the Government

The month of May is a time to raise awareness of celiac disease, a gluten allergy that affects about 1% of the Québec population. Unfortunately, it can take up to ten years for it to be diagnosed.

This chronic autoimmune disease affects people who are genetically predisposed. Consumption of gluten-containing foods by a person with celiac disease causes an abnormal and disproportionate immune system response. Some people have no symptoms, while others are very sick to the point of not being functional.

There is no treatment and the solution is for these people to eliminate gluten from their diets. That is why the organization Cœliaque Québec is asking the Government to provide financial assistance for people with the disease, as gluten-free foods are very expensive.

My question is the following:

Why doesn't the Government offer the same measure that is offered to parents of children with celiac disease, who can receive up to \$200 per month to help them with groceries thanks to the supplement for disabled children?
