(102) Mr. Arseneau (Îles-de-la-Madeleine) – **24 May 2022**
To the Minister of Transport

According to Order in Council No. 1060-2021 dated 7 July 2021, it appears that amendments to the *Regulation respecting road vehicles used for the transportation of students* (chapter T-12, r. 17) do not apply to a school bus used to transport students to a location served by a Hydro-Québec independent electric power distribution system mentioned in Schedule II. Yet, although the Magdalen Islands archipelago is served by an independent Hydro-Québec system, it is not included in the locations listed in Schedule II of this Regulation.

Given this situation, our questions to the Minister of Transport are as follows:

- Will the Minister of Transport commit to amending Schedule II of the *Regulation respecting road vehicles used for the transportation of students* (chapter T-12, r. 17) to include Îles-de-la-Madeleine among the locations served by an independent Hydro-Québec system?
- Will the Minister of Transport commit to applying in Îles-de-la-Madeleine the same standard applicable to other locations served by a Hydro-Québec independent electric power distribution system?
- Will the Minister commit to implementing these amendments by the beginning of the next school year?

(103) Mr. Fortin (Pontiac) – **24 May 2022**
To the Minister of Transport

During the consultations on Bill 22, An Act to amend the Automobile Insurance Act, the Highway Safety Code and other provisions, various briefs were submitted. One of them proposed to add two elements to the bill to improve practices with the SAAQ and insurers.

The first idea is to require the holders of a driver's licence that has been suspended, for example for drinking and driving or demerit points, to provide the SAAQ with proof of insurance for a period of 3 to 5 years. According to the brief's author, this measure would be advantageous for good drivers when they renegotiate their insurance premiums. In his view, it would make it possible to more appropriately

set the premiums for motorists based on their behaviour and thus lower the cost for good drivers while increasing it for offenders.

The second idea concerns productivity, bureaucracy and wait times. It is a matter of driving records. Currently, to access one's driving record, the SAAQ system requires that a request be submitted on paper by mail. Citizens who want to obtain their driving record must therefore contend with postal and bureaucratic delays. Insurers may also access driving records while incurring costs and delays. In short, the brief seems to propose solutions, such as electronic access, to facilitate information sharing while ensuring the protection of personal data.

Can the Minister tell us what follow-up he is committed to regarding this brief and, further to my first question, can he explain the grounds on which he is basing his decision?

(104) Mr. LeBel (Rimouski) – **24 May 2022**

To the Government

Currently, soccer fans, and especially hockey fans, are bombarded with online gambling ads. You have to watch a hockey playoff game on TV to realize the extent of the phenomenon: “This period is brought to you by Bet.net!” A commentator-journalist-expert adds that if he trusts Bet, fans can also. Then, Leo, Jack and others take turns at every commercial during overtime.

However, in its own advertising, Loto-Québec warns fans that only Loto-Québec is allowed to advertise online gaming sites and that other sites are illegal. The government-owned corporation states that “a star does not make an illegal gaming website legal. When a well-known public figure acts as a spokesperson for an illegal gaming website in Québec, the site still remains illegal in Québec.”

The situation is serious. According to the INSPQ, for the past twenty years, the development of online gambling has raised public health concerns around the world. This has led Loto-Québec to put in place numerous measures to prevent players from engaging in irresponsible behaviour; such initiatives are not found on illegal sites, which are heavily advertised.

According to the INSPQ, online players usually exhibit more psychosocial problems than offline players. “2% of the 4.2 million players in Québec experience gambling problems, while among online players, this proportion rises to 23%.” This can result in depression, suicide, poverty and family conflicts.

My questions are the following:

- The Government has the power to legislate, so why does it not recognize this issue and take action now to ban illegal online gambling sites?
- Why does the Government allow ads from illegal sites to be shown in Québec?

(105) Ms. Dorion (Taschereau) – **24 May 2022**

To the Minister of Transport

On 28 April 2022, the Québec government unveiled the 2022–2027 implementation plan for the 2030 Plan for a Green Economy, increasing investments in the fight against climate change, as announced in the 2022–2023 Québec budget.

This follows the 22 March 2022 budget statement, which raised much hope regarding confirmation of the Québec government’s determination to electrify transportation in the province. Subsequently, the paid passenger transportation industry had to admit that taxi electrification had been put on hold because investments were by no means enough to complete this component, which is however essential for Québec’s ecological transition.

However, this “new version” of the implementation plan allocates increased funding for several important areas, including electrification and efficiency in transportation (\$3.48 billion). Specifically, page 47 of the document states that \$10.8 million will be invested over 4 years, including the current year, to electrify 40% of taxis by 2030.

Obviously, this is a worthwhile investment. However, several questions remain for the paid passenger transportation industry.

In light of the aforementioned, my questions to the Minister of Transport are the following:

- Can the Minister explain to Québécois and to the paid passenger transportation industry what this amount means in terms of the MTQ program, and what the timelines are?
- Can the Minister confirm whether this is an extension of the existing electrification program, or whether it is a pre-announcement of a new upcoming program?
- If it turns out that these amounts are to pre-announce new programs for taxi electrification, then when does the Minister intend to inform the public with an official announcement?

To the Minister of Finance

Québec is currently experiencing a massive housing crisis. Québécois are facing significant rent increases, many “renovictions” and unacceptable tactics by many real estate owners.

Real estate speculation is no stranger to this, quite the contrary, especially through money laundering. In fact, the Québec real estate market is currently heavily invested in money laundering, according to several observations and studies conducted in recent years. Other jurisdictions are also struggling with this situation. British Columbia has launched a major investigation which resulted in a report with very clear conclusions: money laundering in real estate is a growing phenomenon throughout Canada and elsewhere in the world. According to this information, billions of dollars are at stake.

My questions to the Minister are the following:

- Does the Minister of Finance think it is appropriate to launch a public inquiry into real estate money laundering, as British Columbia recently did?
- What steps is his Government taking to address this problem?
