WRITTEN QUESTIONS

Questions already placed on the Order Paper

(108) Mr. Marissal (Rosemont) – **14 March 2024**
To the Minister of Health

In Québec, the *Act respecting prescription drug insurance* provides that patients must pay a portion of the costs related to the purchase of prescription drugs. This contribution includes a deductible amount and a coinsurance payment.

For most people, the maximum annual contribution is \$1,196, and this must be adhered to by the RAMQ and private insurers alike, without exception. For patients insured by the RAMQ, this amount is spread over 12 months, with a monthly maximum contribution. This means that patients do not pay more than \$99.65 per month (for a total of \$1,196 per year).

However, when a patient has private insurance, the insurer does not spread the amount payable over 12 months (because there is no monthly maximum contribution) and payment is required in full at the time of purchase at the pharmacy. Since the amount owed depends on the cost of the medication itself and the percentage of the coverage under the patient's plan, there is often a significant amount to be paid for several consecutive months at the start of the year.

This situation can impose a heavy financial burden on vulnerable patients with private insurance compared to patients covered by the public prescription drug insurance plan.

My questions to the Minister of Health are the following:

What measures does the Minister intend to take to require private insurers to set up a process for the monthly distribution of deductible and coinsurance payments similar to that of the RAMQ?

If so, does the Minister intend to apply the Act so as to guarantee that every patient in Québec, regardless of whether they are covered privately or by the RAMQ, can have their deductible and coinsurance payments spread over 12 months?
