DEFERRED DIVISIONS

Motion moved by the Member for Matane-Matapédia under Standing Order 97:

THAT the National Assembly recall the historic progress made through the separation of religions and the State;

THAT it reiterate that respect for and application of the principle of secularism in the education and childcare services networks ensures this separation of religions and the State and respect for users' freedom of conscience and expression;

THAT it note that the situation revealed at the Bedford school shows that the Québec State has failed to ensure respect for secularism and for differences of opinion;

THAT it note that the situation revealed at the Bedford school and in certain childcare services jeopardizes the academic, educational and human development of children and students;

THAT it recognize the need to strengthen *the Act respecting the laicity of the State* to ensure it is complied with in public services;

THAT it ask the Government to legislate the principle of secularism into the *Education Act* and the *Educational Childcare Act* to protect education institutions and their staff from religious pressure;

THAT it call for the mandatory registration and listing of places of worship and religious organizations present and active in Québec, and for the prohibition of any links between them and schools or childcare services;

THAT it call on the Government to end the public funding of religious schools.

Part 5

WRITTEN QUESTIONS

*Questions already placed on the Order Paper
are published each Wednesday*

(186) Mr. Zanetti (Jean-Lesage) – **24 October 2024**

To the Minister of the Environment, the Fight Against Climate Change, Wildlife and Parks

The 2019–2024 action plan of the *Québec Residual Materials Management Policy* includes Action 22, the purpose of which is to promote the emergence of complementary approaches for the diversion of residual materials. One of its indicators provides for the establishment of energy conversion criteria by regulation by 2022.

1. Have such criteria been established, and if so, when will they be made public?
2. If they have not yet been established, when does the Minister intend to remedy this gap in his action plan, which will soon come to an end?

(187) Ms. Caron (La Pinière) – **24 October 2024**

To the Minister Responsible for Social Services

During Routine Proceedings of 28 March 2024, I asked the Minister about the national agreement governing intermediate resources.

In response, he claimed to be aware that rising construction costs and inflation had an impact on the services provided by intermediate resources and on the funding they receive. He also said that the real estate component was a topical area of discussion, as well as ways the Minister could help intermediate resources remain open.

Six months after making this statement in the National Assembly, can the Minister tell us what progress has been made in discussions with ARIHQ on the real estate component?
