## Part 5

### WRITTEN QUESTIONS

*Questions already placed on the Order Paper  
are published each Wednesday*

(207) Mr. Zanetti (Jean-Lesage) – **29 November 2024**

To the Minister of Higher Education

In recent years, students in Québec have experienced increasing financial insecurity and have been fighting to raise awareness of this issue.

Students in particular are affected by the crises that have worsened following the pandemic: the cost-of-living crisis and the housing crisis. This perfect storm is forcing more and more students to turn to food banks and take out high-interest loans from private banks because they have no other options.

This is why the Quebec Student Union and the Fédération étudiante collégiale du Québec launched a campaign against student financial insecurity entitled “Renversons le poids de la précarité!”

This campaign involves approximately 205,000 students throughout Québec. One of its main demands is updating the student financial assistance program. The various factors that take student realities into account are out of date and need to be reviewed. It is estimated that over the past six years, nearly half a billion dollars of the funds allocated to the student financial assistance program have not been claimed, and therefore have not benefited students despite their significant financial insecurity.

Furthermore, in January 2024, the Québec government received \$137 million in federal transfers to support Québec in funding its own student financial assistance program. Unfortunately, this new funding did not result in any improvements to Québec’s program.

In recent years, the implementation of a project to update the student financial assistance program has been postponed twice. The Minister has stated on several occasions that she is open to reviewing and improving the student financial assistance program.

These are difficult times for students, so it is time to take action and the steps needed to address students' financial insecurity.

My questions to the Minister of Higher Education are the following:

Considering the above, I would like to ask the Minister of Higher Education for her opinion with regard to the following questions:

What does the Ministère de l'Enseignement Supérieur intend to do to improve the student financial assistance program to adequately meet students' needs?

Is it likely that a project to update the student financial assistance program will be implemented by the end of the current legislature?
