WRITTEN QUESTIONS

*Questions already placed on the Order Paper
are published each Wednesday*

(248) Mme Labrie (Sherbrooke) – **25 February 2025**
To the Minister of Health

The *Regulation respecting hearing devices and insured services* provides for the reimbursement of a single hearing aid, except in certain circumstances. The Regulation provides for the reimbursement of a second hearing aid for persons 18 years of age or under, persons 19 years of age or older who are students or employed, and persons with a visual deficiency.

Those who do not meet any of the criteria established by the Regulation do not qualify for the reimbursement of a second hearing aid. This leads to increased financial insecurity for retirees and persons with disabilities. The situation also constitutes an impediment to their quality of life, their social participation and even their own safety when getting around in public spaces.

In 2019, the office of the Minister Responsible for Seniors and Informal Caregivers stated that a review of the Regulation was underway. This review was not completed while Québec government departments were busy managing the COVID-19 crisis.

In May 2022, the office of the Minister of Health, which is now responsible for reviewing the Regulation, stated that this review was planned for the next few months.

In May 2023, I placed a question on the *Order Paper* asking the Minister of Health when he expected the Regulation to be amended. In his September 2023 reply, he affirmed that proposals to undertake the regulatory amendment process were expected to take place in Winter 2024.

In October 2023, the Minister Responsible for Social Services replied to a petition tabled by the Member for Roberval requesting an improvement to the support program on hearing devices and insured services. The Minister also reiterated that review work was underway.

In April 2024, when questioned on the matter during the 2024–2025 estimates of expenditure, the Minister Responsible for Seniors confirmed that work was underway to assess the Regulation’s conditions for subsidies.

To date, the Regulation has yet to be reviewed, which worsens the financial insecurity of retirees and persons with disabilities.

In light of the above, my question to the Minister of Health is the following:

Can the Minister provide a clear timeline for the amendment of the Regulation in order to put an end to this discrimination?

(249) Mr. Ciccone (Marquette) – **25 February 2025**

To the Minister Responsible for Sports, Recreation and the Outdoors

On 25 November 2024, the Institut de la statistique du Québec announced the results of the 2022–2023 Québec Health Survey of High School Students, which polled 70,825 students in 483 schools.

Unfortunately, there is evidence of deteriorating health among high school students. Indeed, the percentage of students who consider themselves to be in excellent or very good health has decreased.

	2010–2011	2016–2017	2022–2023
Total	71%	72%	62%
Girls	67%	69%	54%
Boys	75%	76%	70%

Though the survey shows a decrease in cigarette smoking among high school teenagers, the rise in popularity of e-cigarettes, in particular among young girls, is disturbing.

	2016–2017	2022–2023
Total	11%	16%
Girls	8%	19%
Boys	13%	13%

Another worrying aspect of this survey is that nearly a quarter of students claim to have a sedentary lifestyle. Furthermore, a higher proportion of girls are inactive during their leisure time and travel.

	2016–2017	2022–2023
Total	20%	23%
Girls	22%	27%
Boys	19%	20%

The survey also confirms our finding that the pandemic has significantly altered the lifestyles of our teenagers, as nearly half of them (43%) reported a decrease in physical activity.

In light of the Québec Health Survey of High School Students, the purpose of which is to help those who work with youth, including school professionals and health and social service specialists, develop programs that meet young people’s specific needs and implement measures to support their progress while promoting their well-being, my question is the following: what concrete measures has the Minister taken since the disclosure of this information to foster the personal fulfilment of our youth?

(250) Mr. Ciccone (Marquette) – **25 February 2025**

To the Minister of Health

Following several of our addresses, the Minister of Health finally decided to follow up on one of the recommendations of the National Public Health Director on 31 October 2023. The purpose of this recommendation is to better regulate vaping by prohibiting the sale of non-tobacco flavoured vaping products, as is currently the case for tobacco products.

Unfortunately, since the implementation of this prohibition, various persons from a wide range of backgrounds have expressed displeasure at how easy it is to obtain flavours for e-cigarettes, despite the prohibition.

On 25 November 2024, the Institut de la statistique du Québec announced the results of the Québec Health Survey of High School Students, which polled 70,825 students in 483 schools.

Though the results of the survey show an encouraging decrease in cigarette smoking among high school students, it is undermined by an increase in e-cigarette smoking, in particular among young girls. It is crucial that the adverse effects of these products on health be acknowledged.

	2016–2017	2022–2023
Total	11%	16%
Girls	8%	19%
Boys	13%	13%

In light of the Québec Health Survey of High School Students, the purpose of which is to help those who work with youth, including school professionals and health and social service specialists, develop programs that meet young people’s specific needs and implement measures to support their progress while promoting their well-being, my question is the following: what concrete measures has the Minister taken since the disclosure of this information to foster the personal fulfilment of our youth?

(251) Mr. Fortin (Pontiac) – **25 February 2025**

To the Minister of Health

The Québec government made the administrative decision to restrict access to the insulin pump access program to Quebecers with type 1 diabetes who were under 18 years of age at the time of applying to the program. These people are eligible for reimbursement of insulin pumps and their supplies by the Québec State for the entirety of their adult lives. Insulin pumps play a crucial role in the treatment of diabetes, in particular for people with type 1 and LADA diabetes. This technology enables them to live longer, healthier lives, reducing the likelihood of costly long-term complications.

This administrative decision creates a discriminatory distinction between Quebecers with type 1 diabetes whose treatment with insulin pumps is reimbursed by the Québec State for life, and Quebecers with type 1 diabetes who are not eligible because they did not apply to the program before the age of 18, or were unable to do so because the program was only introduced in 2011.

Could the Minister of Health explain what measures have been taken and what consultations have been held by his department to ensure that the administrative decision to continue restricting eligibility, i.e., to restrict access to the insulin pump access program to Quebecers with type 1 diabetes who were under 18 years of age at the time of applying to the program, does not violate the *Québec Charter of human rights and freedoms* and the *Canadian Charter of Rights and Freedoms*?

More precisely, could the Minister of Health explain what measures have been taken and what consultations have been held to ensure that the current criteria for eligibility to the insulin pump access program does not violate section 1 of the *Québec Charter* protecting the right to life, and to personal security, inviolability and freedom, as well as section 4, protecting the right to the safeguard of one's dignity, in relation to discrimination based on prohibited characteristics as listed in section 10, namely age or disability?

Furthermore, could the Minister of Health clarify what measures have been taken and what consultations have been held to ensure that the administrative decision to restrict access to the insulin pump access program does not violate section 15 of the *Canadian Charter of Rights and Freedoms* with regard to age and physical disability?
