(280) Ms. Cadet (Bourassa-Sauvé) – **22 April 2025**
To the Minister of Education

According to the Ministère de l'Éducation's mission and mandate, ensuring the educational success of our students is the very purpose of schools and centres, the education network, and the Ministère.

However, Chapter 4 of the Auditor General of Québec's 2024–2025 report to the National Assembly confirmed a lack of measures to provide a culturally and linguistically safe learning environment for First Nations and Inuit students in the public network.

Furthermore, the report underlines that “budgetary measures to support Indigenous students” are difficult to access, require complex procedures to obtain multi-year funding, and can be difficult to use for staffing purposes (pp. 37–38).

The Auditor General of Québec's report also notes that Québec school bodies (11 in total) “apply to the federal government for funding under Jordan's Principle” because of the Ministère's delays in granting funding (Ibid., p. 38).

On 18 December 2024, the Secrétariat du Conseil exécutif issued 11 orders in council authorizing school services centres to renew the contribution agreements made with the Canadian government to provide services to Indigenous students under Jordan's Principle.

On 28 January 2025, the Ministère announced the suspension of 12 budgetary measures for school service centres and school boards, including Measure 15061 on the educational success of Indigenous students and reconciliation (MEQ, July 2024, Règles budgétaires de fonctionnement pour les années 2024-2025 à 2026-2027, p. 103). That measure is the only one that supports the educational success of the First Nations and Inuit students attending public educational institutions in Québec. Although the Minister has stated that requests made before 13 December 2024 will be considered, there has been no confirmation that this measure will be continued for the coming school years.

Lastly, on 10 February 2025, the federal Minister of Indigenous Services announced “changes to operating procedures” for the Jordan’s Principle program, which may impact access to federal funding for school service centres and school boards.

Given this context, my questions are the following:

- How does the Minister of Education intend to implement the 9 recommendations made by the Auditor General of Québec in his 2024–2025 annual report? It should be noted that the Ministère and the organizations concerned must propose an action plan in the 36 months following the tabling of the Auditor General of Québec’s report.
- More specifically, how is the Minister of Education planning to “develop strategies to provide Indigenous students with a safe and culturally relevant learning environment, including ensuring that school staff receive capacity-building training on Indigenous realities” and to “evaluate existing funding methods to ensure that amounts are allocated at the right time and in line with priority needs and regional realities, and that they enable the implementation of sustainable actions” (Auditor General of Québec, 2024, Recommendations 5 and 6, p. 37), given that the only source of funding the Ministère provided to school organizations has been suspended and that those organizations may no longer receive federal funding?
