SELECT COMMITTEE ON THE IMPACTS OF SCREENS AND SOCIAL MEDIA ON YOUNG PEOPLE'S HEALTH AND DEVELOPMENT

Special Consultations:

- The Impacts of Screens and Social Media on Young People's Health and Development.

Part 5

WRITTEN QUESTIONS

*Questions already placed on the Order Paper
are published each Wednesday*

(295) Mr. Fortin (Pontiac) – **20 May 2025**
To the Minister of Health

Currently, chiropractors play a limited role in the Québec health care system. However, these professionals have skills and expertise that represent a potential service offering.

To date, the expertise of chiropractors remains largely excluded from the health network, even though better collaboration with this profession could help improve the efficiency and accessibility of care and services. Such recognition would be consistent with the policies announced by the Minister of Health with regard to broadening professional practices and increasing participation of various health professionals.

Specifically, integrating chiropractors into care trajectories would allow them to be called on more quickly to treat users suffering from neuromusculoskeletal problems. Many users consulting public health services for problems such as neck or back pain could benefit from chiropractic services. Greater integration of these professionals would facilitate more efficient access to the right professional at the right time.

Chiropractors' areas of practice are the diagnosis, treatment and prevention of neuromusculoskeletal disorders and their effects on overall health. Their practice includes manual treatment, such as spinal and joint manipulations, and soft-tissue techniques. They can recommend exercises and give advice on ergonomics, posture and lifestyle. Chiropractors are governed by a professional order and hold a five-year Doctor of Chiropractic degree. They are authorized to make sector-specific diagnoses, provide treatment, order certain tests, perform and interpret X-rays and order other medical imaging tests, such as MRIs, ultrasound and scans.

These healthcare professionals are willing to play a greater role in the health network.

Given the above, my questions to the Minister of Health are the following:

1. Can he tell us if he plans to implement measures to further integrate chiropractors into care trajectories and improve access to their services?
2. Can he tell us if he is exploring the possibility of implementing measures to develop service corridors between chiropractors and medical specialists based on their field of expertise?

Part 6
NOTICES
