The Member for Notre-Dame-de-Grâce:

The Member for Hochelaga-Maisonneuve:

THAT the National Assembly condemn the CAQ government's evident disengagement with regard to the environment, as illustrated by the abolition of key positions, the reduction of environmental inspections, and the weakening of assessment mechanisms for industrial projects, all in the middle of a climate crisis.

The Member for La Pinière:

THAT the National Assembly severely censure the Government for its lack of commitment to home care and caregivers in the Opening Speech.

WRITTEN QUESTIONS

*Questions already placed on the Order Paper
are published each Wednesday*

- (45) Ms. Prass (D'Arcy-McGee) – **9 October 2025**
To the Minister Responsible for Social Services

With the arrival of cold weather, many community organizations and municipalities have expressed concerns about the network's ability to meet the growing needs of the homeless. Cold spells increase health and safety risks for this group and require specific planning from the government and its partners.

Can the Minister tell us what precise measures have been implemented for the 2025–2026 winter to ensure sufficient emergency shelter beds, respite services and services adapted to people experiencing homelessness throughout Québec?

Can he also tell us when the confirmations for the number of winter shelter places were sent to the organizations concerned?

Lastly, can he explain how his department is coordinating its actions with community organizations, municipalities and the CIUSSS/CISSS to ensure an adequate response during the winter period?

- (46) Mr. Derraji (Nelligan) – **9 October 2025**
To the Minister of Transport and Sustainable Mobility

Since the partial rollout of the SAAQclic platform and the release of the Auditor General of Québec's findings, the issue has become a serious financial and operational concern: the Auditor General has documented major delays and cost overruns related to the CASA/SAAQclic program, and public documents show that the total cost of the project could be as high as approximately \$1.1 billion (projected estimate), while the SAAQ reported a cumulative deficit of \$492 million as at 31 December 2024; recent public hearings suggest that this cumulative deficit is now close to \$1 billion.

My question is simple and is about the specific status and impacts of this issue. Could the Minister, on behalf of the Government, provide answers with numbers and dates for the following points, as at September 30, 2025:

What is the exact amount of the SAAQ's cumulative deficit as at 30 September 2025 (please specify the methodology: accrual basis, are the provisions related to CASA/SAAQclic included, etc.)?

What are the direct financial impacts (amounts already committed + expected additional costs) and budgetary impacts (revised forecasts, deferred investments) of cancelling the SAAQclic (L3) project or failing to meet the delivery schedule?

Which services will be affected in the short and medium term by this cancellation/delay (of L3)?

What are the additional costs of the delay (additional person-hours, degraded mode maintenance contracts, crisis management), broken down at a minimum into: (a) costs already recorded to date; (b) estimated costs between now and the end of 2025; (c) expected annual recurring costs if the platform does not meet its productivity targets?

Lastly, can the Minister specify the (estimated) cost of the system prior to SAAQclic (L0, L1, L2) — that is, more specifically, the maintenance, contractual, and operational expenses of the replaced system — in order to compare the total net cost (prior expenses + SAAQclic overruns) and assess the economic performance of the digital shift?
