VI. Statutory Debates

BUSINESS STANDING IN THE NAME OF MEMBERS IN OPPOSITION

- (67)** 3 February 2026
Motion by the Member for Robert-Baldwin under Standing Order 97:

THAT the National Assembly take note of the alarming increase in violence against women in Québec, in particular domestic violence, which is reflected, among other things, in the many femicides already committed since the beginning of 2026 and in the critical overcrowding of women's shelters and external services, whose capacity has been greatly exceeded;

THAT it be alarmed that, last year, SOS violence conjugale received more than 19,000 requests for shelter and that more than one in two women were turned away due to a lack of space and resources and that, in some regions, the refusal rate was nearly 67%;

THAT it note that the actions taken by the Government in recent years have not curbed the increase in violence against women, that this violence continues to increase, and that it is appropriate and necessary to enhance the policy framework in this regard;

THAT, lastly, it demand that the Government urgently table an update to the 2022–2027 government strategy to fight against sexual violence and domestic violence and to rebuild trust, which is based in particular on predictability of funding for shelters and support services, increased shelter capacity and improved prevention, early detection and support services, including for women experiencing homelessness.

- **Bill 194**, An Act to establish a presumption of consent to organ or tissue donation after death (Order of reference given on 1 October 2025).

COMMITTEE ON TRANSPORTATION AND THE ENVIRONMENT

Part 5

WRITTEN QUESTIONS

*Questions already placed on the Order Paper
are published each Wednesday*

(71) Mme Dufour (Mille-Îles) – **25 November 2025**

To the Minister of the Environment, the Fight Against Climate Change, Wildlife and Parks

The purpose of the intervention strategy for the future of Lac Saint-Pierre (2017–2024) was to mobilize community stakeholders to ensure the restoration and protection of this ecosystem of exceptional ecological value, which was recognized as a biosphere reserve by UNESCO.

The strategy included the Lac Saint-Pierre conservation program, administered by the Fondation de la faune du Québec, which supported more than fifty projects to restore and conserve biodiversity and water quality. This program received \$9.5 million between 2017 and 2022 and concluded in March 2024.

According to information published by the Ministère, the program will not be renewed in its current form, and there have been no plans for calls for projects since 2024–2025, even though Lac Saint-Pierre remains subject to considerable agricultural, industrial and hydrological pressures.

In this context, we would like clarification on how the Government intends to follow up on the intervention strategy and on the conservation efforts made in recent years.

Given the above, my questions are the following:

1. Can the Minister tell us why the Lac Saint-Pierre conservation program was not renewed following its conclusion in March 2024?
2. Can the Minister tell us whether his department intends to implement a new program or other financial support mechanisms to ensure the continuity of conservation and restoration efforts for Lac Saint-Pierre?
3. Can the Minister tell us the amounts allocated in the 2025–2026 budget for targeted interventions in the Lac Saint-Pierre watershed?

(96) Ms. Ghazal (Mercier) – **4 February 2026**
To the Minister of Finance

Each year, hundreds of Québec families are informed that one of their children has a serious illness such as cancer, a heart defect, or a rare disease.

When parents have to stop working to care for their child during treatment, they are often left without long-term disability insurance coverage, even if they are enrolled in a group insurance plan.

A brief recently submitted to the Committee on Public Finance proposes to remedy this gap by amending the *Act respecting insurance* so that parents of a child between 0 and 12 years of age with a serious illness are automatically covered by their long-term disability insurance plan for the duration of the treatment.

According to the estimates provided in the brief, the annual cost of such a measure would be less than \$1 per insured person, with no need for public funding.

My questions to the Minister are the following:

- Can the Minister of Finance tell us whether his department has assessed the human and economic impacts, on parents, of the current lack of long-term disability insurance coverage?
- Has the Minister held discussions with the Autorité des marchés financiers on the integration of such a measure in the *Act respecting insurance*, and does he intend to consider or support the proposal set forth in the brief, which would be implemented at no cost for the State?
- Has the Minister assessed the possibility of creating a public long-term insurance plan for parents in need?
