**MOTIONS WITHOUT NOTICE**

**NOTICES OF PROCEEDINGS IN COMMITTEES**

**INFORMATION ON THE PROCEEDINGS OF THE ASSEMBLY**

Part 2

**ORDERS OF THE DAY**

**BUSINESS HAVING PRECEDENCE**

- (1) Pursuant to Standing Orders 275 and 276, continuation of the debate on the motion by the Minister of Finance, –That this Assembly approve the budgetary policy of the Government,

And on the motions stating a grievance moved by:

**The Member for Marguerite-Bourgeoys:**

THAT the National Assembly severely censure the CAQ government for its 2026–2027 budget, which represents a definitive admission of failure to Quebecers with regard to the control of expenditure and fails to introduce a credible plan for a return to a balanced budget.

**The Member for Verdun:**

THAT the National Assembly censure the Government for the lack of measures in its latest budget to address the rising cost of living and the housing crisis, as well as for its refusal to access new revenues from Quebec’s millionaires and multimillionaires, which hampers our public services.

**The Member for Jean-Talon:**

THAT the National Assembly censure the CAQ government for tabling a transitory budget, since it is based on an economic vision rejected by the two CAQ leadership candidates aspiring to become premier, whose respective promises are not consistent with that budget;

THAT it deplore the fact that the budget, on the other hand, provides a partisan political fund of \$250 million per year, for a total of \$1.25 billion, that may be used at the discretion of the Member for Lévis or the Member for Sanguinet, depending on whom the CAQ members elect as leader.

**The Member for Notre-Dame-de-Grâce:**

THAT the National Assembly denounce the fact that, in a context of geopolitical tensions, commercial uncertainties and the restructuring of international trade as acknowledged by the Government itself, the 2026–2027 budget fails to propose a structured vision or significant investments to reinforce Québec’s presence, credibility and capacity of influence on the international stage.

**The Member for Laurier-Dorion:**

THAT the National Assembly censure the CAQ government and the Minister Responsible for Housing for significantly reducing investments in the construction of social and community housing in the 2026–2027 budget, which fails to address the magnitude of the housing crisis and meet the needs of the population for truly affordable rent, as well as contributing to the worsening of the homelessness crisis.

**The Member for D’Arcy-McGee:**

THAT the National Assembly severely censure the CAQ government for its 2026–2027 budget, which fails to address the real needs in the areas of prevention and frontline services required to tackle the homelessness crisis and the growing demand for mental health care.

**The Member for Taschereau:**

THAT the National Assembly severely censure the Government for its lack of ambition and consistency in the fight against climate change and for its implicit support for projects that are incompatible with the protection of the environment and biodiversity in the budget tabled the Minister of Finance;

THAT the National Assembly severely censure the Government for the chronic underfunding of the community sector, which jeopardizes its workers who single-handedly keep a sizable proportion of Quebecers’ social safety net afloat.

**The Member for La Pinière:**

THAT the National Assembly severely censure the CAQ government for its 2026–2027 budget, which does not provide any measures to support existing intermediate resources or to develop new facilities that are essential for the most vulnerable people.

**The Member for Mont-Royal–Outremont:**

THAT the National Assembly severely censure the CAQ government for its 2026–2027 budget which, despite the Government’s commitment, still does not provide remuneration for all mandatory internships in the public sector.

**The Leader of the Second Opposition Group:**

THAT the National Assembly censure the CAQ government for providing in the 2026-2027 budget a sum of \$250 million for the next five years to be used by the next person to be elected Leader of the Coalition Avenir Québec and Premier of Québec.

**The Leader of the Official Opposition:**

THAT the National Assembly severely censure the CAQ government for its 2026–2027 budget, which does not meet the expectations of Quebecers and contains no adequate responses to the issues they face in their daily lives with regard to the cost of living and access to public services.

**The Member for Arthabaska:**

THAT the National Assembly censure the CAQ government for its inability to provide adequate financial support to our farmers.

**The Member for Nelligan:**

THAT the National Assembly severely censure the CAQ government for letting major establishments like the Hôpital Maisonneuve-Rosemont deteriorate due to a lack of clear financial commitment, after eight years of management marked by delays and inaction.

**The Member for Hochelaga-Maisonneuve:**

THAT the National Assembly severely censure the CAQ government for abandoning the ideal of Québec being a province crazy about its children by refusing to prioritize the completion of our childcare centre network in its last eight years in office.

**The Member for Jacques-Cartier:**

THAT the National Assembly severely censure the CAQ government for tabling a 2026–2027 budget that does not meet young people’s needs and that lacks vision for future generations.

**The Member for Saint-Henri–Sainte-Anne:**

THAT the National Assembly censure the CAQ government and the Minister of Health and Social Services for delaying the construction of the new Hôpital Maisonneuve-Rosemont for the 14th year in a row, and for causing a decline in access to health care and services in our public institutions as a result of drastic austerity cuts, a hiring freeze for administrative personnel and the privatization of public services.

**The Member for Mille-Îles:**

THAT the National Assembly severely censure the CAQ government for a budget that confines itself to the announcement of 1,000 affordable housing units over three years, which is in no way commensurate with actual needs, and for its inability to ensure adequate funding for the Residential Adaptation Assistance Program.

**The Member for Acadie:**

THAT the National Assembly severely censure the CAQ government for its inability to increase the number of prosecutors and administrative personnel to ensure efficient legal proceedings, and for its delays in the digital transformation of the justice system.

**The Member for Westmount–Saint-Louis:**

THAT the National Assembly severely censure the CAQ government for its 2026–2027 budget, which does not meet the real needs on the ground to face the rise of violence and crimes in Québec.

**The Member for Jean-Lesage:**

THAT the National Assembly severely censure the Coalition avenir Québec government for its disengagement from legislative reconciliation with the Anishinaabe, Atikamekw Nehirowisiw, Eeyou, Innu, Inuit, Kanien'kehá:ka, Mi'gmaq, Naskapi, W8banaki, Wendat and Wolastoqiyik nations by refusing to adopt legislation on the application of the United Nations Declaration on the Rights of Indigenous Peoples.

**The Member for Robert-Baldwin:**

THAT the National Assembly severely censure the CAQ government for the 2026–2027 budget, which does not address the urgency of the domestic violence issue, neglects adequate support for women's shelters, second-stage shelters, and the development of new housing units, and jeopardizes sufficient, safe and adapted access to services for women who are victims throughout Québec.

**The Member for Maurice-Richard:**

THAT the National Assembly censure the CAQ government and the Minister of Economy, Innovation and Energy for its budget, which does not include measures to nationalize wind farms or significant investments in the ecological transition, and which deprives Québec of strategic levers and vital State revenues in a context where major investments in clean and public energy are both an ecological necessity and a major economic opportunity for Québec.

**The Member for Marquette:**

THAT the National Assembly severely censure the CAQ government for its 2026–2027 budget and its lack of planning and vision for the community sector.

**The Member for Sherbrooke:**

THAT the National Assembly severely censure the CAQ government for not making the investments required to implement the urgent shift toward home care and support services, as recommended by the Health and Welfare Commissioner, to adequately respond to the colossal issues stemming from the aging of Québec's population.

**The Official Opposition House Leader:**

THAT the National Assembly severely censure the CAQ government for its budget, which once again reveals that the CAQ has abandoned our Capitale-Nationale region, in particular due to the lack of achievements with regard to infrastructure.

**URGENT DEBATES**

**DEBATES ON REPORTS FROM COMMITTEES**

**OTHER BUSINESS**

**I. Government Bills**

*Passage in Principle*

- (2) Bill 1  
Québec Constitution Act, 2025

### **BUSINESS STANDING IN THE NAME OF MEMBERS IN OPPOSITION**

- (81) 31 March 2026  
Motion handed in by the Member for Laurier-Dorion under Standing Order 97.1:

THAT the National Assembly recognize that, in the context of the housing crisis, many tenants do not exercise their rights out of fear that the public nature of the Tribunal administratif du logement records hinders their search for housing;

THAT it note that this situation jeopardizes access to housing, favours excessive rent increases and contributes to the perpetuation of unhealthy or unsafe housing conditions;

THAT it acknowledge the fact that other provinces, notably British Columbia, Alberta, New Brunswick and Nova Scotia, do not make public the names of tenants that exercise their rights;

THAT, lastly, it ask the Québec government to act immediately to anonymize the Tribunal administratif du logement records that concern non-culpable tenants.

Part 3

**BILLS PASSED**

*(Bills awaiting Royal Assent)*

Part 4

**PROCEEDINGS IN COMMITTEES**

*The detailed calendar of the proceedings of each committee is available on the Internet site of the Assembly*

**COMMITTEE ON THE NATIONAL ASSEMBLY**

**COMMITTEE ON PUBLIC ADMINISTRATION**

**Orders in compliance with the Standing Orders**

- Hearing of the Ministère de l'Éducation du Québec, the Centre de services scolaire de l'Énergie, the Centre de services scolaire de l'Or-et-des-Bois, the Centre de services scolaire du Fer, the Central Québec School Board and the New Frontiers School Board on Chapter 4 of the Auditor General's November 2024 report entitled "Réussite éducative des élèves autochtones" (Educational success of Indigenous students).
- Hearing of the Ministère de l'Environnement, de la Lutte contre les changements climatiques, de la Faune et des Parcs and the Ministère des Transports et de la Mobilité durable on Chapter 4 of the Sustainable Development Commissioner's April 2024 report entitled "Fonds d'électrification et de changements climatiques" (Electrification and Climate Change Fund);

**COMMITTEE ON AGRICULTURE, FISHERIES, ENERGY AND NATURAL RESOURCES**

**COMMITTEE ON PLANNING AND THE PUBLIC DOMAIN**

**Orders of reference**

Special Consultations:

- **Bill 20**, An Act to enact the Act to facilitate access to housing and amending various provisions with respect to housing (Order of reference given on 18 March 2026).

Consideration of Bills:

- **Bill 203**, An Act to grant certain temporary powers to Ville de Rivière-du-Loup (Order of reference given on 9 December 2025).
- **Bill 204**, An Act respecting Ville de Gatineau (Order of reference given on 24 March 2026).

[COMMITTEE ON CULTURE AND EDUCATION](#)

**Orders of reference**

Consideration of Bills:

- **Bill 496**, An Act to recognize the white admiral as the emblematic insect of Québec (Order of reference given on 24 February 2026).

[COMMITTEE ON LABOUR AND THE ECONOMY](#)

**Orders of reference**

Consideration of Bills:

- **Bill 11**, An Act to amend various provisions for the main purpose of reducing regulatory and administrative burden (Order of reference given on 17 February 2026).

[COMMITTEE ON PUBLIC FINANCE](#)

**Orders of reference**

Consideration of Bills:

- **Bill 5**, An Act to accelerate the granting of the authorizations required to carry out priority national-scale projects (Order of reference given on 17 February 2026).

**Orders in compliance with the Standing Orders**

- Continuation of the debate on the budget speech.

[COMMITTEE ON INSTITUTIONS](#)

### COMMITTEE ON CITIZEN RELATIONS

#### Orders of reference

##### Consideration of Bills:

- **Bill 12**, An Act to establish the provision of educational childcare by recognized persons responsible for a community educational childcare service (Order of reference given on 18 February 2026).

### COMMITTEE ON HEALTH AND SOCIAL SERVICES

#### Orders of reference

##### Consideration of Bills:

- **Bill 106**, An Act mainly to establish the collective responsibility and the accountability of physicians with respect to improvement of access to medical services (Order of reference given on 1 October 2025).
- **Bill 194**, An Act to establish a presumption of consent to organ or tissue donation after death (Order of reference given on 1 October 2025).

### COMMITTEE ON TRANSPORTATION AND THE ENVIRONMENT

Part 5

**WRITTEN QUESTIONS**

*Questions already placed on the Order Paper*  
*are published each Wednesday*

(103) Ms. Caron (La Pinière) – **17 March 2026**

To the Minister Responsible for Seniors and Informal Caregivers

Measure 45 of the 2021–2026 government action plan for caregivers calls for the deployment and consolidation of Maisons Gilles-Carle, with a view to offering caregivers respite, psychosocial support and adapted services that are complementary to those provided by the public network.

This measure seeks to support the development of out-of-home respite services with overnight stays to improve caregivers' quality of life and prevent burnout.

Can the Minister tell us what the updated ministerial guidelines are for 2025–2026 with regard to measure 45, including the number of Maisons Gilles-Carle concerned, the budgetary envelopes allocated, the terms of deployment or consolidation, and the timeline for implementation?

(104) Ms. Caron (La Pinière) – **17 March 2026**

To the Minister Responsible for Seniors and Informal Caregivers

In the 2021–2026 government action plan for caregivers, measure 46 provides for the expansion of Baluchon Répit long terme's service offer for caregivers.

Can the Minister tell us how the number of respite days offered by Baluchon Répit long terme has evolved, from 2021 to 2026, as part of that measure?

(105) Ms. Dufour (Mille-Îles) – **17 March 2026**

To the Minister Responsible for Housing

During clause-by-clause consideration of Bill 31, we held detailed discussions with the then minister regarding the framework for section 93. At that time, we pointed out the importance of balancing the granting of such exceptional power to municipalities with clear mechanisms for transparency and accountability to ensure rigorous monitoring of its implementation.

The power is subject to an explicit legal requirement: each municipality that exercises it must produce an annual report detailing, in particular, the number of resolutions adopted, the variances granted, the number of dwellings authorized, and the applications denied. This report must be published and sent to the Minister Responsible for Housing not later than 1 April of each year.

This is therefore not just an administrative practice but a legal requirement.

However, since the bill was assented to, the government has not released any consolidated accountability reports.

Can the Minister specify:

1. How many municipalities have submitted their reports as required by law?
2. How many dwellings have been authorized under this special variance scheme?
3. How many variances have been granted?
4. How many applications have been denied?
5. And why has the department not made this data public despite being legally required to do so?

(106) Ms. Cadet (Bourassa-Sauvé) – **17 March 2026**

To the Minister of Labour

According to the Association des camps du Québec, the draft regulation respecting the conditions for lodging workers currently under study raises considerable concerns for vacation camps in Québec. The Association states that bringing infrastructure into conformity with the regulation may necessitate major investments on the part of the camps, in particular with regard to installing air conditioning in buildings and additional sanitary facilities, and connecting to drinking water systems. Such work could entail substantial costs for many camps, most of which are non-profit organizations with limited financial resources.

The Association des camps du Québec also points out that camp facilities are often located in natural settings, and rustic lodgings are often an integral part of the camp experience that young people, families and camp counsellors are looking for. According to the Association, applying the regulation in its entirety could not only lead to costs that many camps would find difficult to absorb, but also undermine the very experience that defines the unique character and educational value of vacation camps in Québec.

Does the Minister intend to amend the draft regulation respecting the conditions for lodging workers to explicitly exclude vacation camps from it, as requested by the Association des camps du Québec, in order to ensure the long-term viability of the camps and safeguard the unique experience they offer young Quebecers?

(107) Mr. Bérubé (Matane-Matapédia) – **24 March 2026**

To the Minister of Education

The Indice de milieu socio-économique (IMSE) is calculated annually based on student data. The annual update does not usually result in many changes because the population units, which are used as the territorial basis for calculating the index by school, do not change between censuses. However, the update for the next school year (2026–2027) is based on 2021 census data, and it is more than reasonable to believe that because of the major immigration-related demographic changes that occurred between 2021 and 2026, the proposed update is already obsolete.

This index must be carefully monitored because of its key role in allocating valuable resources to the most vulnerable students. However, for many years there have been various limitations that create distortions in the implementation of the index in the field:

1. Reliance on the federal census. Under Stephen Harper's government, for example, there was a ten-year gap between two censuses, significantly undermining Quebec's autonomy in administering its own tools. Why not have access to Revenu Québec data? The Auditor General of Québec had, however, accessed this data for the Ministère de la Famille when issuing the Auditor General's October 2020 report on access to educational childcare services.

2. Variables that must be reassessed. In particular, the participation rate, which can mask increasingly common complex realities (precarious employment, part-time jobs, etc.).
3. A geographic grouping that masks internal disparities. The IMSE is assigned based on students' residential areas, not on their actual family circumstances. Students living in very different conditions may therefore be assigned the same index if they reside in the same population unit.
4. A threshold effect with unpredictable consequences for communities. A community's socioeconomic reality may remain exactly the same, but it will be assessed differently and lose significant resources simply because the situation is getting worse elsewhere.
5. A need for statistical autonomy. Make government operations independent, where possible, from Statistics Canada and the OECD, to ensure greater efficiency and flexibility.

Revenu Québec, however, holds de-identified annual tax data on all families with children attending schools in Québec. This data, which is more accurate and updated annually, would make it possible to calculate the IMSE based on each family's actual economic situation instead of on estimates derived from territorial statistical models. This approach would also safeguard Québec's statistical autonomy from the uncertainties of the federal census. For more than twenty years, the Ministère de la Famille itself has acknowledged the current model's limitations.

I would therefore like to ask the Minister of Education to answer the following questions:

1. Has the Ministère de l'Éducation (MEQ) conducted any studies or analyses on the feasibility of using de-identified Revenu Québec tax data to calculate the IMSE? If so, what were the conclusions?
2. Have the MEQ and Revenu Québec held discussions regarding tax-data sharing for the purpose of calculating the IMSE? If so, on what dates and what was the outcome?

3. What legal, technical or administrative obstacles have been identified regarding the use of Revenu Québec data to calculate the IMSE?
4. Does the Government plan to amend the applicable legal framework to allow this data sharing between Revenu Québec and the MEQ? If not, why not?

(108) Mr. Arseneau (Îles-de-la-Madeleine) – **24 March 2026**

To the Minister of Health

The 2023 documentary *Père 100 enfants* looks at the issue of informal sperm donation in Québec. The documentary reveals that the procedures are largely unregulated and that women can be victims of fraudulent practices. It shows that, in some cases, women are misled about the donor's health and the number of previous donations he has made. In particular, it reveals that a father and his son made multiple donations, resulting in 109 and 240 children respectively. The mothers who used the men's services had tried to find out how many donations they had previously made, but were repeatedly lied to. According to some mothers, the numbers could be even higher and as many as 162 and 400 children respectively. There is also speculation that both men are still donating.

From a public health perspective, it seems alarming to us that a father and his son could be the biological fathers of more than 350 children in Québec. According to experts, the risk of genetic disorders is significant when many children are related. We are also concerned about the honesty of donors in the informal donation process. The documentary reveals that one of the donors carries a defective gene. However, this information was hidden from the women concerned. Experts also say that psychological and physical health can be neglected in the informal donation process.

After watching the documentary *Père 100 enfants*, the former Minister of Health asked the national public health director, Dr. Luc Boileau, to provide him with recommendations regarding multiple informal sperm donations.

The MSSS also stated that it intends to implement the recommendations of the central clinical ethics committee on medically assisted procreation. This committee was mandated by the Ministère de la Santé et des Services sociaux to make recommendations on actions to be implemented to promote access to gamete (sperm and egg) and embryo donations and to prevent detrimental situations. The committee's recommendations focus specifically on the maximum number of egg or sperm donations per person.

My questions to the Minister of Health are the following:

- 1- Can the Minister provide an update on the changes that have been made in response to the public health recommendations regarding multiple informal sperm donations?
- 2- Can the Minister provide an update on the changes that have been made in response to the central clinical ethics committee on medically assisted procreation's recommendations regarding actions to be implemented to promote access to gamete and embryo donations and to prevent detrimental situations, specifically with regard to the maximum number of egg or sperm donations per person?
- 3- Does the Minister intend to regulate informal sperm donation? If so, what solutions does the Minister plan to implement?

(109) Ms. Dufour (Mille-Îles) – **24 March 2026**

To the Minister of the Environment, the Fight Against Climate Change, Wildlife and Parks

According to an article in *Le Devoir*, more than a year after announcing its intention to ban the installation of fossil-fuel-based natural gas heating systems in buildings, the Québec government has yet to fulfill that commitment by amending the regulation. The promise was made during the COP29 climate conference, where Québec stated that new and existing buildings would be required to use only renewable gas by 2040.

However, the regulation that was to ban the installation of natural gas furnaces in new, small residential buildings as of 2026 has still not been adopted. According to information reported, the departments responsible for the environment and for energy are unable to explain the delay or provide a timeline for the implementation of the measure.

Meanwhile, many real estate developers and construction industry experts say they want to build buildings heated with carbon-free energy but claim they are at a disadvantage until the rules are clarified and applied consistently.

Can the Minister tell us why the regulation banning the installation of fossil-fuel-based natural gas heating systems in new buildings has not yet been adopted, and when the Government plans to implement the regulation with a precise timeline?

(110) Ms. Dufour (Mille-Îles) – **24 March 2026**

To the Minister of the Environment, the Fight Against Climate Change, Wildlife and Parks

A recent report on the show *La semaine verte* revealed that since 2022 the federal government has been subsidizing the use of fertilizers coated with plastic polymers, a practice that contributes to the release of microplastics into the environment.

However, according to public information, scientists with the federal government initially concluded that the effectiveness of these products was uncertain and that because of the conflicting scientific evidence, such financial support could not be justified.

Furthermore, an increasing number of scientific studies show that the plastic coatings can break down into microplastics that remain in the soil and waterways. Despite these concerns, millions of dollars in federal funding have been allocated to Québec under the program, in particular for 2024 and 2025.

Meanwhile, the European Union intends to prohibit non-biodegradable polymer coatings for fertilizer in 2028 on the basis of the environmental risks associated with microplastics.

Can the Minister tell us whether the Québec government has assessed the environmental impacts of the use of plastic polymers and whether it intends to review the regulation or use of public funds with regard to such practices?

(111) Mr. Grandmont (Taschereau) – **26 March 2026**

To the Minister of Transport and Sustainable Mobility

The road safety fund (FSR) is made up of the revenues from photo radar devices. When the FSR was implemented, the Québec government committed to using those revenues to financially support projects promoting road safety and helping road accident victims.

On 1 April 2025, the Ministère des Transports et de la Mobilité durable changed the terms of the financial assistance program of the road safety fund (PAFFSR), which is funded with the surpluses of the FSR, for the “awareness, cooperation, education and training” component so that only road safety projects could be eligible to it, road accident victims no longer having access to it.

The PAFFSR was renewed for 2025–2028 for \$40 million, including a budget of \$14 million for 2025–2026 following the call for projects, which ended in July 2025. The end of that funding is a significant loss of revenue for organizations that represent people with craniocerebral trauma, which were unable to present projects last July due to the new terms.

My question to the Minister of Transport and Sustainable Mobility is the following:

- 1) What were the sums allocated to the projects regarding road accident victims as part of the last call for projects of the PAFFSR, as well as for the 2023–2024 and 2024–2025 periods?
- 2) Does the Ministère des Transports et de la Mobilité durable undertake to review the terms of the program to correct the exclusion in place since 2025, which prevents community organizations from presenting projects to support initiatives in favour of road accident victims and to foster the emergence of awareness, prevention, education, cooperation and training projects, as the Minister promised to the population and as it had been the case since the beginning of the project?

(112) Mr. Fontecilla (Laurier-Dorion) – 26 March 2026  
To the Minister of Public Security

During the tabling of its budget, the Québec government stated that public security was one of the State's primary missions. Social rehabilitation organizations play a key role in this regard by supporting persons with a criminal record and facilitating their reintegration, and thus directly bolstering public security in Québec.

However, for several months now, many financial issues have affected these organizations. A three-year freeze on all contracts between the Ministère de la Sécurité publique and community organizations is curbing the latter's ability to maintain the same level of service in the face of increasing costs. In some cases, specialized per diem allowances have been withdrawn and spaces in halfway houses reduced, lowering reception capacity.

These issues are compounded by the administrative streamlining measures and cuts announced by the Ministère de la Sécurité publique, which hamper the work of these organizations. Examples include the end of government funding in the amount of \$1.5 million for specialized social rehabilitation programs in correctional facilities, and the new limit of one follow-up session per month for high-risk individuals. In a context of financial uncertainty, these measures complicate service planning, weaken teams, result in the reduction of activities and even the loss of expertise or the closing of certain resources in some cases. The situation leads to the disruption of services for thousands of persons with a criminal record and puts further pressure on the correctional and judicial system.

Specialized organizations that work with sex offenders are an example that demonstrate the impact of those changes. Those organizations are an essential component of public security in Québec. By providing services to sex offenders, in particular specialized intervention programs, those organizations and professionals help reduce the risks of recidivism, promoting the safety of the entire population. However, those organizations are already working with few resources and remain heavily reliant on financial support from the State to provide adequate and efficient prevention services.

Those organizations are now more relevant than ever. In fact, the Ministère de la Sécurité publique has recently reported that the rate of sexual offences declared by Québec police forces increased by 109.9% over the last decade (2013–2022). Such an increase means more needs and, as a result, increased costs for prevention operations.

On 8 December 2025, the Minister agreed to meet members of the network to hear their concerns. Changes have yet to be seen, and now those organizations, which are crucial to public security, are facing great uncertainty over the sustainability of their activities.

My question to the Minister is the following:

What measures does the Minister intend to take to ensure that stable, predictable, adequate funding is implemented for the social rehabilitation network, in the name of public security?

Part 6  
NOTICES

**I. NOTICES PREVIOUSLY GIVEN**

**Government Bills**

- (a) 31 March 2026  
An Act to amend various provisions concerning collective agreement decrees and the construction industry – *Minister of Labour*
