EXPLANATORY NOTES

This bill amends the Building Act in order to prevent, combat and punish certain fraudulent practices in the construction industry and revise the amounts of fines imposed under that Act.

The bill makes certain adjustments to the governance of the Régie du bâtiment du Québec (the Board) and makes other amendments to improve the regulation and terms of financial guaranties in the construction industry. It also amends the Act respecting contracting by public bodies as regards the register of enterprises ineligible for public contracts.

The bill provides that a person convicted of an offence under a fiscal law or of an indictable offence must now file any declaration, information or document required by the Board concerning the offence. Failure to comply entails the denial of a licence or, if the person holds a licence, its suspension or cancellation. Contractors named in the register of enterprises ineligible for public contracts kept under the Act respecting contracting by public bodies will have restrictions attached to their licences as regards obtaining public contracts. As well, contractors convicted of certain offences under a fiscal law in the last five years will be prohibited from bidding for a public contract.

Fines under the Building Act are substantially increased, including those that may be imposed on a contractor for the illegal transfer of a licence or on any person for using the name of a licence holder for the purpose of carrying out construction work.

The composition of the Board's board of directors is altered, as are certain aspects of its operation. A third vice-president is added to oversee investigations. Commissioners are appointed to take charge of certain functions, including the issue, suspension and cancellation of licences.

The Board is given the power to impose a continuing education system on contractors, by regulation, so that they may keep their skills and knowledge up to date.

The financial guaranties offered to purchasers of new residential buildings are revisited. The bill requires that guaranty plan managers

be non-profit legal persons and that their board of directors meet the criteria prescribed by regulation of the Board. A guaranty fund, of which the Board will be trustee, is set up to step in should an exceptional or unforeseeable major loss occur or should a guaranty plan manager no longer be able to meet its obligations owing to its financial situation.

The Act respecting contracting by public bodies is amended to fine-tune the mechanics of the register of enterprises ineligible for public contracts and specify the cases in which contractors are named in the register.

LEGISLATION AMENDED BY THIS BILL:

- Building Act (R.S.Q., chapter B-1.1);
- Act respecting contracting by public bodies (R.S.Q., chapter C-65.1).
