FOREWORD

The Public Accounts for the fiscal year ended March 31, 2014 have been prepared by the Comptroller of Finance for the Minister of Finance pursuant to the provisions of section 86 of the Financial Administration Act (CQLR, chapter A-6.001). They are published in two volumes.

Volume 1 – Consolidated Financial Statements of the Gouvernement du Québec

Volume 1 presents the consolidated financial statements of the Gouvernement du Québec, as well as a financial analysis that facilitates understanding of the transactions carried out in fiscal 2013-2014.

Volume 2 – Financial Information on the Consolidated Revenue Fund: General Fund and Special Funds

Volume 2 presents financial information on the Consolidated Revenue Fund, which comprises a general fund and special funds. This volume is divided into two parts. The first part presents the revenues of Government departments and Government budget-funded bodies, their authorized appropriations and the expenditure and other costs charged against each of these appropriations and, finally, the financial operations of the specified purpose accounts they administer. The second part presents the revenues of the special funds, their approved/actual expenditures and their approved/actual investments.

Contents of Volume 2

Part A: General Fund

This part reports on the operations of entities whose revenue is paid into the Consolidated Revenue Fund or the Health Services Fund and entities which operate with funding allocated to them by the Parliament of Québec. These entities are:

- the National Assembly;
- persons designated by the National Assembly;
- Government departments and Government budget-funded bodies.

This part also reports on General Fund revenue linked to the application or administration of any legislation for which the Minister of Revenue¹ is responsible. The administration of these revenues are managed by the Agence du revenu du Québec.

The information is presented by portfolio, a term that designates the National Assembly, the persons designated by it, all of the programs of a Government department or Government budget-funded body for which a minister is responsible, and the revenue administered by the Agence du revenu du Québec (under “Revenu”).

The General Fund reports on its financial operations in accordance with the accounting policies adopted by the Conseil du trésor, which are mentioned in Note 1 of the Government’s Consolidated Financial Statements.

¹ The Minister of Finance performs the duties of the Minister of Revenue.

FOREWORD (cont'd)

For the purposes of this volume, the revenue administered by the Agence du revenu du Québec has been reduced by the related bad debts in keeping with section 69 of the *Act respecting the Agence du revenu du Québec* (CQLR, chapter A-7.003). Further, revenue from income taxes and taxes on goods have been reduced by the refundable tax credits stipulated in the Taxation Act (CQLR, chapter I-3), given that, under this Act, these credits are an advance on income tax payable, i.e. an overpayment on income tax payable.

Certain 2013 data have been restated or reclassified to comply with the structure of ministerial portfolios and government programs of the 2013-2014 Expenditure Budget. This structure, in turn, reflects the program structure resulting from the composition of the Cabinet announced on September 19, 2012. The main changes to the structure of programs are presented in pages 9, 10 and 11 of the Expenditure Budget 2013-2014 – Estimates of the Departments and Agencies.

Part A is divided into four sections.

Section 1, pursuant to the provisions of section 86 of the *Financial Administration Act*, presents the report of excess expenditure and other costs of the Government departments and Government budget-funded bodies over the appropriations authorized by Parliament.

Section 2 presents summary information on revenue and expenditures for each portfolio.

Section 3 presents the detail of revenues, authorized appropriations, expenditures and other costs for each portfolio.

More specifically, it contains:

- revenue by category, subcategory and sub-subcategory;
- authorized appropriations, expenditures and other costs by program, program element and supercategory;
- change in initial appropriations by program;
- transfers by financial assistance and recipient category;
- transfers and amounts allotted to a special fund by category.

Section 4 presents a summary of the operations carried out in the specified purpose accounts administered by the National Assembly, the Government departments and the Government budget-funded bodies.

Specified purpose accounts are a financial management mechanism, provided for in sections 6 and 7 of the *Financial Administration Act*, that allows using a separate account to report money received, from a third party and paid into the General Fund, under a contract or an agreement that provides for the money to be allocated to financing a specific activity. This allows the entity responsible to effect expenditure up to the amount received without having to obtain or expend appropriations.

FOREWORD (cont'd)

Part B: Special funds

This part reports on the operations of the special funds. A special fund is a fund established by a Act to provide for certain financial commitments of a minister, a budget funded body or a body other than a budget-funded body exercising an adjudicative function.

Special fund-related information is presented under the Government department responsible for the fund. The funds' financial data is accounted for in accordance with the *Directive sur les conventions comptables du gouvernement* adopted by the Conseil du trésor.

Certain 2013 data have been reclassified to reflect the 2013-2014 Expenditure Budget presentation structure.

Part B is divided into three sections.

Section 1 pursuant to the provisions of section 86 of the *Financial Administration Act*, presents the report of excess expenditure and investments of special funds over the amounts approved by Parliament.

Section 2 presents information on revenues, expenditure, investments and forecasts under these different headings. It also include a follow-up on changes in the fund's cumulated surplus and deficit for each special fund.

Section 3 presents summary financial statements of the special funds and conciliates this information with the sector-specific information related to each fund presented in Section 1 of Volume 1 of the Public Accounts 2013-2014.

Rounding

The amounts indicated in the tables have been rounded to thousands of dollars. As a result, the sum of the amounts shown may not correspond to the totals.

Other information

Information on remuneration, suppliers of goods and services, beneficiaries of transfers and allocations to a special fund is available for consultation on the Ministère des Finances website (www.finances.gouv.qc.ca).

DEFINITIONS

APPROPRIATIONS

◇ *Authorized appropriations*

Authorized appropriations include voted and permanent appropriations. They allow Government departments and Government budget-funded bodies to use the General Fund to engage in expenditures, fixed asset acquisitions, loans, investments and advances, and to assume other costs.

◇ *Permanent appropriations*

Permanent appropriations are appropriation that have already been authorized, by specific legislation, and that Parliament need not vote annually. Generally speaking, each piece of legislation specifies that the amounts required for the activities contemplated by these statutes are paid for out of the Consolidated Revenue Fund's General Fund. For these appropriations, the annual authorized amounts correspond to those stipulated in that year's *Expenditure Budget* adjusted upwards, if need be, to cover additional expenditures and other costs.

◇ *Voted appropriations*

Voted appropriations represent appropriations for the fiscal year authorized by annual legislation over appropriations adopted by Parliament. They correspond to the portion of expenditures and investments estimated for a given fiscal year and not covered by previously voted legislation.

SUPERCATEGORIES ¹

◇ *Remuneration*

This supercategory includes expenditures incurred in the course of carrying out Government departments' and Government budget-funded bodies' programs for normal remuneration, overtime and certain other indemnities paid directly by the Government to permanent, part-time employees and temporary employees including students and seasonal personnel, the salaries and indemnities paid to members of the National Assembly, judges and members of the Sûreté du Québec. It also includes employee benefits and other contributions paid by the Government as an employer, notably contributions to retirement plans, the Quebec Pension Plan, the Health Services Fund, employment insurance and the Québec Parental Insurance Plan.

¹ SECRÉTARIAT DU CONSEIL DU TRÉSOR, *Recueil des politiques de gestion*, Volume 9, Chapter 2; Directive concernant la classification des dépenses et des déboursés.

DEFINITIONS (cont'd)

◇ *Operating*

This supercategory includes expenditures incurred in the course of carrying out Government departments' and Government budget-funded bodies' programs, excluding expenses for remuneration, transfers and amounts allotted to special funds, doubtful accounts and other allowances, and debt service. It includes estimated costs linked to reassessment and the Government's new obligations related to contaminated property rehabilitation and fixed asset amortization.

◇ *Doubtful accounts and other allowances*

This supercategory includes expenditures resulting from changes in the allowance for doubtful accounts, the allowance for losses on financial initiatives guaranteed by the Government and the valuation allowance for loans, investments and advances.

◇ *Transfer*

This supercategory includes expenditures that are paid out to provide beneficiaries with various forms of financial support. These expenditures do not constitute direct acquisitions of goods and services for the Government or funds granted for the purpose of obtaining a return, as in the case of an investment.

◇ *Allocation to a special fund*

This supercategory includes expenditures incurred for a special fund whose costs are covered partly or fully by the Government department or Government budget-funded body administering it. It includes the special fund's payroll expenditures, operating expenses and debt service charges.

◇ *Debt service*

This supercategory includes debt service charges, amortization of discounts and premiums, amortization of deferred expenses and unrealized exchange gains and losses, foreign exchange expenditures, and other costs associated with debt management. It also includes interest on the retirement plans account, interest on the surviving spouses' pension plan and interest on accumulated sick leave in addition to interest related to public-private sector partnership agreements signed by Government departments and Government budget-funded bodies.

◇ *Fixed assets*

This supercategory is included in the capital budget. It includes costs incurred for acquiring, building, developing and improving fixed assets, including those related to public-private sector partnerships and amounts related to the "Remuneration," "Operating" and "Debt service" supercategories when they apply to fixed assets.

DEFINITIONS (cont'd)

◇ *Loans, investments, advances and others*

This supercategory is included in the capital budget. It includes capital contributions and advances to Government agencies and enterprises, acquisition of Government or other enterprise shares or bonds, and loans granted to municipalities, non-profit organizations or natural/legal persons in the private sector. This supercategory also includes advances for the establishment or operation of local funds, advances to Government employees, sales taxes paid/payable (QST, GST/HST) posted when goods/services are acquired, inventory recording, prepaid expenses and, where applicable, commitments for previous years posted to the net debt.

CATEGORIES ¹

The **categories** "Remuneration," "Operating," "Debt service," "Doubtful accounts and other allowances," "Fixed assets" and "Loans, investments, advances and others" are the sole components of the supercategories of the same name and have the same definitions.

The "Transfer" and "Allocation to a special fund" supercategories break down as follows:

- ◇ Transfer - *Remuneration* includes transfers for the remuneration of employees of Government agencies, including those in the education and health and social services networks. It also includes the remuneration of health professionals.
- ◇ Transfer - *Operating* includes transfers for operating expenditure, other than remuneration, of Government agencies and agencies in the education and health and social services networks.
- ◇ Transfer - *Capital* includes transfers for the acquisition of subsidized fixed assets, including repayment of the principal on loans contracted for fixed assets.
- ◇ Transfer - *Interest* includes transfers for interest payments on loans contracted for fixed assets, when the debt service of a recipient Government agency, institution or establishment is wholly or partially assumed by the Government.
- ◇ Transfer - *Support* includes transfers for the financial support paid to recipients other than those indicated in the "Transfer – Remuneration," "Transfer – Operating," "Transfer - Capital" and "Transfer - Interest" categories.

¹ SECRÉTARIAT DU CONSEIL DU TRÉSOR, *Recueil des politiques de gestion*, Volume 9, Chapter 2; Directive concernant la classification des dépenses et des déboursés.

DEFINITIONS (cont'd)

- ◇ Allocation to a special fund - *Remuneration* includes allocations for remuneration of the employees assigned to a special fund.
- ◇ Allocation to a special fund - *Operating* includes allocations for operating expenditure, other than remuneration, of a special fund.
- ◇ Allocation to a special fund - *Capital* includes allocations for amortization of fixed assets posted to a special fund.
- ◇ Allocation to a special fund - *Interest* includes allocations for interest and other debt-related charges posted to a special fund.
- ◇ Allocation to a special fund - *Support* includes allocations for payments used to provide beneficiaries with a program managed through a special fund and financial support of various types. It does not constitute direct acquisition of goods and services for the Government.

SPECIAL FUND INVESTMENTS

Special fund investments concern amounts incurred for acquiring, building, developing and improving fixed assets, including information assets.

GENERAL FUND

1. REPORT OF EXCESS EXPENDITURE AND OTHER COSTS OVER APPROPRIATIONS

REPORT OF EXCESS EXPENDITURE AND OTHER COSTS OVER APPROPRIATIONS

Fiscal year ended March 31, 2014

By annually adopting legislation respecting appropriations (voted appropriations) and by adopting provisions in other legislation (permanent appropriations), Parliament authorizes the Government to acquire fixed assets, loans and investments, and pay expenditures, advances and other costs out of the General Fund.

All programs of the National Assembly, persons designated by the National Assembly or other portfolios, comprise voted appropriations and/or permanent appropriations. Authorization to incur expenditures using permanent appropriations is not restricted to the amount provided for in the *2013-2014 Expenditure Budget*. Voted appropriations that are unexpended at fiscal year end lapse with the exception of balances carried over to fiscal 2014-2015 authorized in keeping with the conditions described in the *2013-2014 Expenditure Budget*. Excess expenditure and other costs over voted appropriations must be entered in the year-end statement and paid out of the following year's appropriations. Where applicable, a report on the excess must be included in the Public Accounts pursuant to section 86 of the *Financial Administration Act* (CQLR, chapter A-6.001).

The statement of use of appropriations for the fiscal year ended March 31, 2014 shows that no excess expenditure or other Government cost was recorded in the accounts for voted appropriations. The voted appropriations were sufficient for charging all expenditure and other costs incurred.

(1) The decrease is due primarily to the cost of the April 7, 2014 election, which is posted over two fiscal years—2013-2014 and 2014-2015—while the cost of the September 4, 2012 election is posted solely to fiscal 2012-2013.

(2) The increase is due primarily to the rise in costs linked to repaying debt service following the most recent investments forecast under the Québec Infrastructure Plan for the Québec Municipalities Infrastructure Program (PIQM), Program for the Gas Tax Fund and a contribution from Québec (TECQ) and Building Canada Fund-Québec (BCFQ).

(3) The decrease is due primarily to the decline in the balancing subsidy paid to the Société d'habitation du Québec (SHQ) after the latter used a portion of its 2012-2013 cumulated surplus.

(4) The variation is due primarily to the posting of a provision for the costs linked to the tragedy that occurred on July 6, 2013 in Lac-Mégantic, to the variation in the provision for pay equity and to the variation in the provision for environmental liabilities.

(5) The increase is due primarily to the new actuarial valuations tabled at March 31, 2013 for the Government and Public Employees Retirement Plan (RREGOP), Pension Plan of Management Personnel (PPMP) and Civil Service Superannuation Plan (CSSP). These new valuations have generated an increase in the cost of the benefits acquired and an expenditure for amortizing actuarial gains and losses.

(6) The decrease is due primarily to the fact that the Secrétariat à la Capitale Nationale (SCN) has not paid the Ville de Québec the amounts provided for in the initial budget.

(7) The increase is due primarily to the new actuarial valuations tabled at March 31, 2013 for the Government and Public Employees Retirement Plan (RREGOP), Pension Plan of Management Personnel (PPMP) and Teachers Pension Plan (TPP). These new valuations have generated an increase in the cost of the benefits acquired and an expenditure for amortizing actuarial gains and losses.

(8) The decrease is due primarily to a decline in subsidies resulting from the end of the 2010-2013 Québec Research and Innovation Strategy.

(9) The increase is due primarily to a rise in expenditure related to losses on guaranteed financial interventions.

(10) The decrease is due primarily to the budgetary constraint measures announced in the 2013-2014 Budget Speech.

(11) The decrease is due primarily to a decline in allotments to the Natural Resources Fund. As compensation, revenue from forest resource fees and permits were transferred to the fund (Ref.: Orders in Council 708-2012, 613-2013, 327-2014).

(12) The decrease is due to elimination of the prescription drug insurance plan's "15-year rule" announced in the 2013-2014 Budget Speech.

(13) The increase is due to the upturn in medical services (\$725 188K), pharmaceutical services and prescription drugs (\$82 709K) and optometric, dental and other services (\$27 254K).

This program provides financial support for local and regional development. It includes budgeted amounts allocated to regional development and the social economy as well as rurality support.

	58 960	41 096		125		23	
-	58 960	41 096	-	125	-	23	-

This program provides financing required to support municipalities in the maintenance of their assets, in paying down their cumulative deficits, and in bringing up to standard their drinking-water infrastructures. It also provides financing for similar work on municipal sewage treatment infrastructures and on drinking water and sewage conduits. It provides financial support for municipal infrastructure construction that targets local and regional development.

This program is intended to provide municipalities with compensation in lieu of taxes on property belonging to the Government, the health and social services and education networks, and foreign governments. It is also designed to support voluntary municipal amalgamation and to grant financial assistance to municipalities. It supports regional county municipalities, especially from the standpoint of land-use planning. This program also includes measures of the fiscal and financial agreement reached with municipalities.

Under this program, the Régie du logement has the necessary resources to decide disputes between parties of residential leases, inform citizens about rights and obligations associated with a lease and to promote reconciliation between tenants and those who rent to them. Moreover, the Régie looks after the preservation of the stock of rental units in certain situations and, in these cases, assures the protection of tenants' rights.

The objective of this program is to develop a comprehensive view of the cultural and communications activities in Québec and to formulate and manage policies, orientations and programs in matters of culture and communications. It also seeks to ensure management support services. This program also aims to ensure the restoration of cultural property, and provide expertise and promote awareness in this regard. Lastly, through the action of the Conseil du patrimoine culturel du Québec, this program provides expertise that fosters the protection and enhancement of Québec's heritage.

This program is designed to finance employment assistance measures. Emploi-Québec is Québec's public employment service responsible for labour market information, placement and active employment measures relating to the active labour market policy at the provincial, regional, local and sectorial levels. It is also responsible for the Act to promote workforce skills development and recognition (CQLR, chapter D-8.3) and the Act respecting workforce vocational training and qualification (CQLR, chapter F-5). Moreover, this program favours the mobilization and reciprocal commitment of all the players concerned by the operation of the labour market through the Pacte pour l'emploi.

			841 134				10 000	
-	-	841 134	-	-	-	10 000	-	

The objective of this program is to make financial assistance services accessible to all persons who request them and demonstrate the need for them through the intervention of the Emploi-Québec network. More precisely, it allows individuals to receive assistance of last resort based on the difference between their resources and acknowledged essential needs. In addition it allows the Alternative jeunesse program to financially support young adults on a voluntary basis, who require financial assistance in order to encourage them to pursue activities which allow them to re-establish their personal, social and professional autonomy. The social assistance and support programs allow beneficiaries to receive personalized support and accompaniment with the objective of an adequate preparation for participation in a specific measure or in an employment assistance program. Moreover, this program contributes to the financing of community organizations corresponding with their overall mission and it provides the Cree Hunters and Trappers Income Security Board with the amounts required to support the traditional activities of members of that community. It also provides appropriations to finance the Fonds québécois d'initiatives sociales and allows for the conversion of financial assistance benefits into employment assistance measures.

The objective of this program is to administer employment assistance measures, the Commission des partenaires du marché du travail, financial assistance measures, the Quebec Parental Insurance Plan as well as the development of policies, income security and parental insurance. The purpose of this program is also to plan, administer, and coordinate human, financial, material, and information resources essential to program management. Moreover, it allows payments to the fund of the Administrative Tribunal of Québec in order to support causes related to the Department. This program also provides financing for planning activities and departmental coordination, and for public services. It contributes to the financing of the Comité consultatif de lutte contre la pauvreté et l'exclusion sociale.

The objective of this program is to promote access to quality educational childcare. It also has as objective the financing of infrastructure for childcare centres as well as the pension plan for employees working in childcare services. Moreover, this program provides financing for the overall missions of community organizations working with families as well as financing for services offered by community stop-over centres. It also supports municipalities and regional county municipalities that wish to implement municipal family policies. Finally it finances the administration of the Child Assistance program through a refundable income tax credit.

Note: This revenue excludes operations related to specified purpose accounts under the portfolio's responsibility (See Part A, Point 4).

(2) For the purposes of the Government's consolidated financial statements, the Government's share in the results of its enterprises is \$5 430 517K in 2013-2014 (\$3 232 175K in 2012-2013). The breakdown is shown in Appendix 8 of the Government's consolidated financial statements.

(3) This variation is due notably to the result of activities that were discontinued in 2012 (negative by \$1 876 000K) due to the accounting treatment of the definitive closure of the Gentilly-2 nuclear generating station. Furthermore, net electricity exports were up from the previous fiscal year.

(4) The decrease is due primarily to a decline in sales in all sectors, but especially in the casino sector, whose slowdown is due to various factors, such as keen competition from the Montréal and Lac Leamy casinos.

(5) The decrease is due to the fact that no protection payment was attributed to Québec in 2013-2014.

(6) The increase is due to the allocation to revenues established in the 2012-2013 and 2013-2014 budget plans.

The objective of this program is to stimulate and support economic and regional development as well as strategic industrial sectors within a perspective of job creation, economic prosperity and sustainable development. More specifically, this program procures financing that encourages business development and competitiveness, renewal of entrepreneurial foundations in order to support diversification and regional consolidation by Québec businesses. Moreover, it promotes concerted action and the mobilization of economic actors.

(1) The increase is due to the new Forest Regime introduced by the Sustainable Forest Development Act. The costs linked to forest management activities, previously subtracted from revenues, have been posted to the Natural Resources Fund as operating expenses since April 1, 2013.

(2) The decrease is due primarily to implementation of the new Forest Regime and transfer of the related fees to the Natural Resources Fund (Ref.: Orders in Council 708-2012, 613-2013, 327-2014).

(3) The variation is due to a decrease in mining profits resulting from a drop in the price of certain mineral substances and an overall increase in mining companies' production costs.

Note: The Revenu portfolio is the responsibility of the Minister of Finance.

(1) The change is due to the decrease in the corporations' net operating surplus, which reduced their instalment payments, and to an increase in the transfers linked to the taxation system.

(2) The variation is due primarily to the increase in the specific tax in effect on November 21, 2012.

(1) The decrease is due primarily to the fact that certain projects of lesser scope, approved under the Canada-Québec Infrastructure Program Agreement – Municipal Rural Infrastructure Fund (MRIF), could not be completed at March 31, 2014. Order in Council 219-2014 postpones the agreement end date to March 31, 2015.

(2) The decrease is due primarily to the decrease in agricultural producers' claims under the AgriStability and AgriInsurance programs.

(3) The increase is due primarily to the expansion work performed on the Musée national des beaux-arts du Québec under the Canada-Québec Infrastructure Program Agreement's Building Canada Fund—Major Infrastructure Component.

**1. REPORT OF SPECIAL FUNDS'
EXCESS EXPENDITURE AND
INVESTMENTS OVER AMOUNTS
APPROVED**

REPORT OF SPECIAL FUNDS' EXCESS EXPENDITURE AND INVESTMENTS OVER AMOUNTS APPROVED

Fiscal year ended March 31, 2014

By approving annual expenditure and investment estimates in the special funds budget in keeping with section 48 of the *Financial Administration Act* (CQLR, chapter A-6.001), Parliament authorizes the minister or agency responsible for a special fund to effect expenditures and investments using the amounts credited to the special fund budget. This approval is given when adopting legislation respecting appropriations or specific legislation, notably when a special fund is created. The approval is valid only for the fiscal year to which the estimates apply.

At fiscal year end, the difference between actual expenditure and investments and the amounts approved by Parliament is recognized for each special fund. Unexpended amounts of approved expenditures and investments lapse. Excess expenditure and investments of a special fund over approved estimates is subject to Parliament's approval when this fund's estimates for the following fiscal year in which this excess is recognized are adopted. A report on each excess must be included in the Public Accounts pursuant to section 86 of the *Financial Administration Act* (CQLR, chapter A-6.001).

For the fiscal year ended March 31, 2014, excess expenditure and investments of special funds over the amounts approved were noted for the following funds:

THE 2013-2014 *PUBLIC ACCOUNTS* PRESENT THE
FINANCIAL POSITION OF THE GOUVERNEMENT DU
QUÉBEC AND ITS OPERATIONS.

VOLUME 2

This volume presents financial information on the Consolidated Revenue Fund, which comprises a general fund and special funds. This volume is divided into two parts. The first part presents the revenues of Government departments and Government budget-funded bodies, their authorized appropriations and the expenditure and other costs charged against each of these appropriations and, finally, the financial operations of the specified purpose accounts they administer. The second part presents the revenues of the special funds, their approved/actual expenditures and their approved/actual investments.
